Murder in all branches is developed to unpleasant perfection. Mr. Brown, farmer, called on a young lady. Her father objected. Brown killed the father and mother, shot the young lady in the abdomen and a little later shot and killed himself. His farewell note said, "This would never have happened if conditions had been different at home."

John F. Macking, Jr., aged 24, who lives in New York, shot his young wife —also in the abdomen—as she entered the breakfast room. He killed himself later. A farewell note to his father-in-law said, "By the time you will read this letter, dad, I'll be with mamma and Nanna. I will tell them everything is O. K." His wife will probably die.

The Duchess of Richelieu was knocked down by a boy on a bicycle. Dr. Worcseter went to her assistance, and rebuked the boy for carelessness. For that offense against the freedom of youth, a gang of young hoodlums set upon the doctor, fractured his skull with a baseball bat, knocked him down, kicked in several of his ribs. He will recover.

It is a crime wave of considerable height. Some blame it on the war, some on prohibition. England, where there is no prohibition, has today less crime than before the war.

Bootlegging, lawbreaking on "regulatable" [illegible] by millions, seems to call for attention.

Freight embargoes on all but perishable goods and live stock prevail in Florida. The congestion, unheard of, would have been infinitely worse but for the foresight and daring of S. Davies Warfield, of the Seaboard Air

BUFFALO, N. Y., BANDITS SEIZE $93,000 IN GRIP, THEN ESCAPE IN AUTO

Driver of Truck, Transporting $117,000 From Reserve Bank to Marine Trust Company's Institution, is Shot Through Head as Robbery is Staged in Heart of City.

YOUNG MESSENGER, WOUNDED IN ARM, DROPS SATCHEL CONTAINING $24,000

Passer-by Picks up Second Money Bag and Turns it Over to Officers of Bank as Seven or Eight Men in Outlaw Gang Terrorize Pedestrians During Pistol Battle.

BUFFALO, N. Y., Oct. 29.—One man is dead, another wounded and $93,000 in currency locked in a grip was stolen by bandits who staged a sensational hold-up today at the entrance of the Marine Trust company in the heart of Buffalo's down town section. The bandits escaped in an automobile.

The dead man is Charles Clifford, driver of the Marine Trust company truck, who was transporting $117,000 from the federal reserve bank. He was shot through the head.

Joseph H. Meyers, bank messenger, was shot in the arm. He dropped a grip containing $24,000 on the sidewalk as he staggered into a doorway. A passerby picked up the grip and turned it over to officers of the bank.

Witnesses told police there were seven or eight men in the bandit gang.

Open Fire on Employes.

The bandit car arrived at the bank a moment after the bank truck. Three men got out and began firing as they left their car. The shots were directed at the bank employes who had just taken the money bags from the truck.

Clifford was the first to fall. He died on the way to a hospital. He was carrying the grip containing $93,000 in currency.

Meyers had the other grip. When he was hit in the arm by a bullet he released his hold on the bag and cried out as he staggered into the doorway: "I'm shot, so is Clifford. Take care of him."

Crabbe Refuses To Launch Akron Probe at Once

COLUMBUS, Oct. 29.—Attorney Geenral C. C. Crabbe, today announced his decision not to comply with the request of the Non-Partisan league at Akron that he launch immediately his grand jury probe at Akron into charges of graft and of violation of the anti-vice and other laws. The attorney general also rejected the league's request that he appoint county Prosecutor Booth of Summit county and two Akron attorneys, favored by the league, to take charge of the proposed investigation.

Woman Is Victim Of $17,000 Robbery At Dinner Party

SAN FRANCISCO, Oct. 29.—Details of a $17,000 jewel robbery were revealed by San Francisco police today after they had been led in an all-night search by Mrs. Eva May Fleming, wealthy San Francisco business woman, for a married couple and two men alleged by Mrs. Fleming to have drugged her and robbed her of the jewels at a dinner party in a downtown apartment house here Monday night.

KIWANIS O. K.'S SCHOOL LEVY

Carl Van Voories Discusses Good Roads.

Indorsement of the three-mill school levy for a period of five years was unanimously voted by members of the Kiwanis club at their noon luncheon meeting today in Larkins' annex.

Action was taken on the proposal, which will go before electors next Tuesday, after the request of President George Lewis for an expression of opinion. A motion to indorse the levy was made by R. C. Heddleston and the vote was unanimous.

Carl L. Van Voories, secretary of the Ohio Good Roads federation, was the club's honor guest. He discussed work of the federation, roads in general and Columbia county's proposed $950,000 road bond issue in particular.

RELIEF PROMISED FROM COLD WAVE

COLUMBUS, Oct. 29. — Relief from Ohio's coldest October weather, coldest in the history of the bureau, was due by late tonight, Government Meteorologist W. H. Alexander announced here today.

The lowest temperature recorded in Columbus was 21 degrees, which was six degrees below the record cold snap of October, 1891.

Increasing cloudiness with snow for the western portion tonight, and snow or rain in the southern and central portions, and snow in the northern portions, Friday, was the weatherman's hand-out today.

The weatherman said he hoped the bad weather would pass before Saturday afternoon—the football hour.

Automobiles skidded on hilly streets and pedestrians found footing rather precarious last night, as a result of the advent of October's record-breaking cold spell.

The slippery condition of St. Clair avenue and the Lisbon street hill prompted Street Commissioner Oliver Buzzard to haul grog to points on these thoroughfares after several automobiles skidded against the street curbs.

Instructions to grog the streets were given by Service Director A. G. Ellis.

Police were stationed on upper St. Clair avenue early last night, warning drivers of chainless cars not to attempt to descend the grade. No one was injured, according to police reports.

The temperature dropped to 22 degrees early this morning, with no relief promised today by the weather man.

CLEVELAND, Oct. 29.—With the mercury hovering below the freezing point, going to 28 above zero during the night, no relief was promised by the weather bureau today from the unprecedented cold weather that struck Cleveland late yesterday after a day of snow squalls and slush-covered streets.

Suspected Slayer Saved by Heroism Of His Sweetheart

CHICAGO, Oct. 29.—Martin J. Durkin, alleged slayer of United States department of justice agent Edwin C. Shanahan, who has been sought by dozens of government detectives in New York, Pennsylvania and Indiana cities for many weeks, was at large in Chicago today following a gun battle with police last night in which three were wounded. Durkin escaped with his life only through the hero'sm and loyalty of his sweetheart, Miss Betty Warner, who threw herself between Durkin and the guns of the police.

COL. MITCHELL LOSES SECOND ROUND OF HIS COURT-MARTIAL

"Free Speech" Plea Overruled by Jury of Generals.

RULING EXPECTED

Opinion Rendered by Col. Blanton Winship is Sustained.

WASHINGTON, Oct. 29.—Col. Wm. Mitchell lost the second round of his battle against army tradition nad custom today when the jury of nine generals that is trying him for "conduct prejudicial to good order and military discipline" overruled his plea that to try him for criticising his superiors was taking away his constitutional rights of "free speech."

It took the jury of generals but comparatively few minutes to throw out Mitchell's unorthodox defense of "free speech" and to decide that they were eminently qualified by law and tradition to pass upon Mitchell's conduct.

The verdict caused little surprise, as it had been a foregone conclusion that the court would decide as it did. To have decided otherwise would have been a death blow to the army system of court-martial.

No Surprise to Mitchell

Mitchell himself had not expected any other decision, but he decided to put the issue up to them, if for no other purpose than to complete the record against the time when it is possible the ultimate verdict will be appealed to the civil courts.

The "jury of generals" sustained an opinion rendered a few moments earlier by Col. Blanton Winship, law member of the court. Winship held that the court was within its powers in trying Mitchell.

With a meticulous regard for "red tape," Winship and the "jury of generals" ruled separately on each of the eight specifications set forth in the court martial citation against Mitchell. In each instance, a member of the court objected to Winship's ruling and the generals filed out to render their own verdict. The court upheld all of Winship's rulings.

Army's Answer

To Mitchell's contention that "muzzling" of officers violated the fundamental principles of the constitution, the army replied, in effect:

"When a man enters the army his status is changed."

Unless soldiers observe army traditions and military custom, Col. Sherman Moreland, the judge advocate declared, "the whole army would be left to rot on its own soil."

STRUCK BY AUTO, SKULL FRACTURED

COLUMBUS, Oct. 29.—His skull believed fractured Chester Whitman, 33, Columbus, is in White Cross hospital today. He was struck by an auto at a street intersection Wednesday night. The unknown driver of the car did not stop. W. J. Hall, 78, also is critically ill, due to a fractured skull sustained when the auto he was driving collided with two other machines at a street corner. A half dozen other traffic victims during the past 12 hours received broken limbs, cuts and bruises.

RECORD ALIMONY GIVEN OHIOAN

CLEVELAND, Oct. 29. — Mrs. Maud Lucas, 50, who watched her husband study nights and work himself into a fortunte, was granted a divorce yesterday in common pleas court, today was the recipient of what is believed to be the largest alimony settlement in the history of this section.

A settlement of $175,000 was made by attorneys after the divorce had been granted to Mrs. Lucas from Henry M. Lucas, 56, manager of the Lucas Machine & Tool company on the ground of gross neglect. Settlements were made out of court for two grown children.

Mrs. Lucas may draw $800 a month and is allowed $20,000 to purchase a home.

PAINLEVE HAS TWO POSTS IN NEW CABINET

Premier Takes Difficult Place of Finance Minister.

MANY OLD FACES

Decidedly More Radical Flavor Marks Appointment.

PARIS, Oct. 29.—Premier Painleve announced his new cabinet today.

While in many respects the new cabinet resembles the one dissolved on Tuesday, it was decidedly more radical in flavor and is apparently intended to meet the demands for radical and socialist deputies for a financial policy in keeping with their views.

Premier Painleve, besides heading the cabinet, has himself taken on the difficult portfolio of finance minister.

The new portfolio has been created —minister of the budget. This position will be held by Georges Bonnet and will remove some of the burdens of the finance ministry from the shoulders of the premier.

The new Painleve cabinet is as follows:

Premier—Paul Painleve.
Minister of finance—Paul Painleve.
Minister of foreign affairs—Aristide Briand.
Minister of justice—M. Schrameck.
Minister of war—M. Daladier.
Minister of marine—M. Morel.
Minister of Agriculture—M. Durand.
Minister of public works—M. De Monzie.
Minister of public instruction—M. Delbos.
Minister of commerce—M. Vincent.
Minister of Labor—M. Furafour.

POLICE BAFFLED

Murder Occurs in Garage; Firemen Discover Crime.

AKRON, Oct. 29.—Akron police were confronted today with the mystery of one of the most brutal murders in Akron during recent years.

Joseph Obermeier, 50, watchman at the Hudson-Essex garage of J. Grant Hyde, was beaten to death with a heavy hammer, gasoline poured over the body and a match applied to it.

According to police the murder occurred about 11:45 last night. Two men passing the garage saw the interior lighted by a high flame. They sounded an alarm and firemen responding discovered the crime.

STORK OUTRUNS GRIM REAPER

Reports are Submitted at Health Board Meeting.

The stork outpaced the grim reaper here during the past month, according to figures announced by Dr. John Fraser, city health commissioner, at last night's meeting of the health board.

There were 43 births—17 male and 26 female and 28 deaths were reported.

The board, after investigation, ordered the closing of a well owned by Mrs. Samuel Breakstone, and located in Oak street. Water from wells owned by William Rogers and James Hall, Lisbon street, while not condemned, were said to be unfit for use.

The clinic reported nine new cases and 110 treatments, and a total of 823 cases since the work was first begun.

Five cases of scarlet fever were reported and in connection with this report Dr. Fraser issued warning to guard against the disease, especially in cases of sore throat and during changing weather conditions.

Two Killed When Train Wrecks Auto At Kenmore Crossing

KENMORE, Oct. 29.—Clyde Swinehart, 20, married, and Miss Mayme L. Greenwold 18, both of this city, were instantly killed last night when their automobile was struck by a fast Erie passenger train. Mrs. Grace Stamm, 28, also in the car, was seriously injured. The bodies of Swinehart and Miss Greenwold were cut to pieces and strewn along the track for a hundred yards.

The accident happened at the Manchester road crossing.

TRI-STATE HIGHWAY FROM FT. WAYNE, IND., TO BEAVER, PA., VIA LISBON, LOOMS IF $950,000 COLUMBIANA COUNTY BOND ISSUE IS VOTED

A new trunk line inter-county and inter-state highway has been designated by the Pennsylvania state highway department, from Ft. Wayne, Ind., throught Ohio, east through Lisbon to the Ohio-Pennsylvania state line, thence either into Beaver or Beaver Falls, Pa., according to information received today by County Surveyor Lloyd C. Kirk, of Lisbon, from E. T McIlvain, assistant engineer of the Pennsylvania highway bureau.

The Keystone state proposes to build a 16-foot concrete road from Rowestown, Beaver county, over Pennsylvania state route 204 to tap Columbiana county, according to McIlvain.

As Chippewa and South Beaver township, Beaver county, have sold bonds for this purpose, to which will be added state aid, construction of this six-mile link into Ohio will be under way during 1926.

The Lisbon-East Liverpool road designation hearing, to be held in Lisbon at 10 a. m. November 13, has direct bearing on the Pennsylvania highway program. The Columbiana county route to be improved under the proposed $950,000 bond issue to be voted upon next Tuesday.

State Highway Director G. F. Schlesinger, of Columbus, notified the commissioners today that the hearing, which was scheduled for tomorrow morning, had been postponed. No reason was given for the postponement.

Improvement Program.

McIlvain's letter, outling the tri-state program, follows:

"I am in receipt of your interesting letter of October 24 in reference to certain contemplated improvements of the Ohio state highway department and have noted the same with interest.

"It was a rather odd coincidence but I was on the point of writing to you in reference to this matter due to the developments that have come up in Beaver county within the last six months. I am indicating by a yellow arrow on the map you sent me, the point where Beaver county has contemplated meeting the Ohio state line, but to give you a better idea of the whole situation I have marked up the highway map of Columbiana county and vicinity which you very kindly sent me some time ago and I am forwarding it to you. This gives you a better idea of what is going on.

"You will note on this map that there is indicated by a red line from state route L-204 in Chippewa township, a road ending at a red cross, which is known as Rowestown. This red line represents approximately six miles of road for which the townships, Chippewa and South Beaver, have passed a bond issue and on which they are securing state reward and also county aid. This road will no doubt be put under construction during the season of 1926 and will be 16 feet reinforced concrete built under the specifications and direction of the Pennsylvania department of highways.

From the red cross over to the Ohio state line at a place called Achor, I have indicated by yellow the future development and extension of this road. You will note also coming out from Beaver a red line, State Route, L-278, and I might add that three miles of this will probably be placed under construction during the season of 1926, being a 16-foot reinforced concrete road. From a red cross mark indicated by the letter "A", I have shown a relocation of this road in yellow westward and then northward intersecting with the road spoken of above, a short distance west of Rowestown. It seems to be the opinion and wish of the county commissioners to change the present location of this State Route L-278 to that indicated by the yellow line."

Suggests Connection at Achor.

"You spoke of meeting the state line by passing through Negley, but I have been wondering if it would not be possible with the above information before you, to meet the state line a short distance south of Negley at Achor so as to connect with this through route which will be completed within the course of the next few years. Possible along the line indicated by the dotted red line which would run directly west from the state line at Achor and intersecting improved road between Rogers and Clarkson. I do not know the topographical features of the country and merely offer this suggestion in view of the lay-out of the roads in Pennsylvania, as this is apparently giving a direct trunk line from Fort Wayne through Canton and Lisbon into Pittsburgh and connecting with the improved concrete road system and leading you directly south into the Beaver valley and Pittsburgh, or by bearing to the left would intersect State Rout L-204 and you could there turn to the north or northeast.

"I might further add that this red and yellow line through South Beaver,

Mitchell himself had not expected any other decision, but he decided to put the issue up to them, if for no other purpose than to complete the record against the time when it is possible the ultimate verdict will be appealed to the civil courts.

The "jury of generals" sustained an opinion rendered a few moments earlier by Col. Blanton Winship, law member of the court. Winship held that the court was within its powers in trying Mitchell.

With a meticulous regard for "red tape," Winship and the "jury of generals" ruled separately on each of the eight specifications set forth in the court martial citation against Mitchell. In each instance, a member of the court objected to Winship's ruling and the generals filed out to render their own verdict. The court upheld all of Winship's rulings.

Army's Answer

To Mitchell's contention that "muzzling" of officers violated the fundamental principles of the constitution, the army replied, in effect:

"When a man enters the army his status is changed."

Unless soldiers observe army traditions and military custom, Col. Sherman Moreland, the judge advocate declared, "the whole army would be left to rot on its own soil."

STRUCK BY AUTO, SKULL FRACTURED

COLUMBUS, Oct. 29.—His skull believed fractured Chester Whitman, 33, Columbus, is in White Cross hospital today. He was struck by an auto at a street intersection Wednesday night. The unknown driver of the car did not stop. W. J. Hall, 78, also is critically ill, due to a fractured skull sustained when the auto he was driving collided with two other machines at a street corner. A half dozen other traffic victims during the past 12 hours received broken limbs, cuts and bruises.

RECORD ALIMONY GIVEN OHIOAN

CLEVELAND, Oct. 29. — Mrs. Maud Lucas, 50, who watched her husband study nights and work himself into a fortune, was granted a divorce yesterday in common pleas court, today was the recipient of what is believed to be the largest alimony settlement in the history of this section.

A settlement of $175,000 was made by attorneys after the divorce had been granted to Mrs. Lucas from Henry M. Lucas, 56, manager of the Lucas Machine & Tool company on the ground of gross neglect. Settlements were made out of court for two grown children.

Mrs. Lucas may draw $800 a month and is allowed $20,000 to purchase a home.

PAINLEVE HAS TWO POSTS IN NEW CABINET

Premier Takes Difficult Place of Finance Minister.

MANY OLD FACES

Decidedly More Radical Flavor Marks Appointment.

PARIS, Oct. 29.—Premier Painleve announced his new cabinet today.

While in many respects the new cabinet resembles the one dissolved on Tuesday, it was decidedly more radical in flavor and is apparently intended to meet the demands for radical and socialist deputies for a financial policy in keeping with their views.

Premier Painleve, besides heading the cabinet, has himself taken on the difficult portfolio of finance minister.

The new portfolio has been created —minister of the budget. This position will be held by Georges Bonnet and will remove some of the burdens of the finance ministry from the shoulders of the premier.

The new Painleve cabinet is as follows:

Premier—Paul Painleve.
Minister of finance—Paul Painleve.
Minister of foreign affairs—Aristide Briand.
Minister of justice—M. Schrameck.
Minister of war—M. Daladier.
Minister of marine—M. Morel.
Minister of Agriculture—M. Durand.
Minister of public works—M. De Monzie.
Minister of public instruction—M. Delbos.
Minister of commerce—M. Vincent.
Minister of Labor—M. Furafour.

POLICE BAFFLED

Murder Occurs in Garage; Firemen Discover Crime.

AKRON, Oct. 29.—Akron police were confronted today with the mystery of one of the most brutal murders in Akron during recent years.

Joseph Obermeier, 50, watchman at the Hudson-Essex garage of J. Grant Hyde, was beaten to death with a heavy hammer, gasoline poured over the body and a match applied to it.

According to police the murder occurred about 11:45 last night. Two men passing the garage saw the interior lighted by a high flame. They sounded an alarm and firemen responding discovered the crime.

STORK OUTRUNS GRIM REAPER

Reports are Submitted at Health Board Meeting.

The stork outpaced the grim reaper here during the past month, according to figures announced by Dr. John Fraser, city health commissioner, at last night's meeting of the health board.

There were 43 births—17 male and 26 female and 28 deaths were reported.

The board, after investigation, ordered the closing of a well owned by Mrs. Samuel Breakstone, and located in Oak street. Water from wells owned by William Rogers and James Hall, Lisbon street, while not condemned, were said to be unfit for use.

The clinic reported nine new cases and 110 treatments, and a total of 823 cases since the work was first begun.

Five cases of scarlet fever were reported and in connection with this report Dr. Fraser issued warning to guard against the disease, especially in cases of sore throat and during changing weather conditions.

Two Killed When Train Wrecks Auto At Kenmore Crossing

KENMORE, Oct. 29.—Clyde Swinehart, 30, married, and Miss Mayme L. Greenwold 18, both of this city, were instantly killed last night when their automobile was struck by a fast Erie passenger train. Mrs. Grace Stamm, 28, also in the car, was seriously injured. The bodies of Swinehart and Miss Greenwold were cut to pieces and strewn along the track for a hundred yards.

The accident happened at the Manchester road crossing.

TRI-STATE HIGHWAY FROM FT. WAYNE, IND., TO BEAVER, PA., VIA LISBON, LOOMS IF $950,000 COLUMBIANA COUNTY BOND IS UP IS VOTED

A new trunk line inter-county and inter-state highway has been designated by the Pennsylvania state highway department from Ft. Wayne, Ind., throught Ohio, east through Lisbon to the Ohio-Pennsylvania state line, thence either into Beaver or Beaver Falls, Pa., according to information received today by County Surveyor Lloyd C. Kirk, of Lisbon, from E. T McIlvain, assistant engineer of the Pennsylvania highway bureau.

The Keystone state proposes to build a 16-foot concrete road from Rowestown, Beaver county, over Pennsylvania state route 204 to tap Columbiana county, according to McIlvain.

As Chippewa and South Beaver township, Beaver county, have sold bonds for this purpose, to which will be added state aid, construction of this six-mile link into Ohio will be under way during 1926.

The Lisbon-East Liverpool road designation hearing, to be held in Lisbon at 10 a. m. November 13, has direct bearing on the Pennsylvania highway program. The Columbiana county route to be improved under the proposed $950,000 bond issue to be voted upon next Tuesday.

State Highway Director G. F. Schlesinger, of Columbus, notified the commissioners today that the hearing, which was scheduled for tomorrow morning, had been postponed. No reason was given for the postponement.

Improvement Program.

McIlvain's letter, outling the tri-state program, follows:

"I am in receipt of your interesting letter of October 24 in reference to certain contemplated improvements of the Ohio state highway department and have noted the same with interest.

"It was a rather odd coincidence but I was on the point of writing to you in reference to this matter due to the developments that have come up in Beaver county within the last six months. I am indicating by a yellow arrow on the map you sent me, the point where Beaver county has contemplated meeting the Ohio state line, but to give you a better idea of the whole situation I have marked up the highway map of Columbiana county and vicinity which you very kindly sent me some time ago and I am forwarding it to you. This gives you a better idea of what is going on.

"You will note on this map that there is indicated by a red line from state route L-204 in Chippewa township, a road ending at a red cross, which is known as Rowestown. This red line represents approximately six miles of road for which the townships, Chippewa and South Beaver, have passed a bond issue and on which they are securing state reward and also county aid. This road will no doubt be put under construction during the season of 1926 and will be 16 feet reinforced concrete built under the specifications and direction of the Pennsylvania department of highways.

From the red cross over to the Ohio state line at a place called Achor, I have indicated by yellow the future development and extension of this road. You will note also coming out from Beaver a red line, State Route, L-278, and I might add that three miles of this will probably be placed under construction during the season of 1926, being a 16-foot reinforced concrete road. From a red cross mark indicated by the letter "A", I have shown a relocation of this road in yellow westward and then northward intersecting with the road spoken of above, a short distance west of Rowestown. It seems to be the opinion and wish of the county commissioners to change the present location of this State Route L-278 to that indicated by the yellow line."

Suggests Connection at Achor.

"You spoke of meeting the state line by passing through Negley, but I have been wondering if it would not be possible with the above information before you, to meet the state line a short distance south of Negley at Achor so as to connect with this through route which will be completed within the course of the next few years. Possible along the line indicated by the dotted red line which would run directly west from the state line at Achor and intersecting improved road between Rogers and Clarkson. I do not know the topographical features of the country and merely offer this suggestion in view of the lay-out of the roads in Pennsylvania, as this is apparently giving a direct trunk line from Fort Wayne through Canton and Lisbon into Pittsburgh and connecting with the improved concrete road system and leading you directly south into the Beaver valley and Pittsburgh, or by bearing to the left would intersect State Rout L-204 and you could there turn to the north or northeast.

"I might further add that this red and yellow line through South Beaver,

CHAPTER 81.

Robinson, butler and master of the household of old Mrs. Thomas Q. Ainsley, was having a bad time of it. Grandma Ainsley was in one of her dark moods.

"No, Robinson, I will not permit you to discharge Maggie. Why can't you two get along? Get married or something, so you can have your brawls in your own home instead of mine."

Robinson, a humorless individual, was never certain when his mistress was making light of him. He shifted from one foot to another, face immutable. "But, m'dam——."

"I know what you're going to say, Robinson. You haven't the slightest amount of gallantry in your make-up. You'd have me believe that Maggie is some terrible demon, some——."

The butler bodly cut in. "But, moddom, she carries off things. A basket every day. You'd be surprised how many eggs we have to buy. She——."

"Don't, 'moddom' me, Robinson, it's foolish affection. You know how to speak properly.

Poor Robinson was beginning to perspire.

"You never can get along with the women employed in this house, Robinson, although I permit you to employ them and supervise their work. No wonder you have never acquired a wife. No woman except some poor, weak one like me would ever tolerate you more than a minute."

"Yes, moddom—Mrs. Ainsley," he said in a tone of resignation. "If you think——."

"Now, Robinson,' his inquisitor said severely, "You are going to give notice, and you know that I won't allow you to do it. You must marry Maggie, and that will end all these arguments. She'll throw a rolling pin at you then, instead of listening to you."

The voice of a newcomer caused them both to turn. "Quit picking on Robinson, grandma." Amoura strode into the room, kissed her grandmother and turned to the butler. "Don't allow her to rag you, Robinson, when she gets in one of her moods. Don't stand for it. No one else does."

Robinson, wearing a worried frown, looked from one to the other of the women, then cast his eyes down.

"You may go now, Robinson," said the old lady. "And,' she added, with a twinkle in her eye, "tell Maggie she musn't SUOIL so many eggs.'

When they were alone, Grandma Ainsley took off her glasses and made herself comfortable in the only straight-back chair in the room. "I didn't think you were ever coming to see me."

"I haven't felt much like going anywhere," Amoura replied, indefinitely. "I was over here the other morning and they wouldn't let me awaken you."

"Yes, they think I should sleep the sleep of the dead, quite ignoring the fact that soon I'll be sleeping forever."

"Ah, granny, you're in a dark mood today. What's the matter? Has Trossy been a bad cat?" Amoura looked around for her grandmother's pet."

The old lady ignored the question, and asked one. "Well WHAT are you going to do next, young lady?"

"Oh, grandma, I have the swellest idea! Let me tell you about it." She elaborated on the details of her plan to uplift the downtrodden of Stone and Green streets.

The queen-mother of the Ainsley family heard her in silence, nodding her head and then.

"What do you think?"

"Well, I've always believed in letting people mind their own business."

Amoura shifted uncomfortably, her spirits dampened by her grandmother's remark, uttered in a deprecating tone.

"What you'd better be doing, young lady, is getting a husband and babies.'

"I don't think I'll ever marry, Grandma."

"Nonsense, of course you will!"

"No, I'm determined to go ahead with my plans for the mothers' institute. I——."

"Wait until you have three or four children yourself, then you'll know how to conduct it.'

"Aw, ——." Amoura was at a loss for words. She had come to her grandmother expecting aid.

"Well, I'm going ahead anyway. I'll get the money somehow. I have some in a Chicago bank, and if necessary I'll go back there and work for a while to get more." She was thinking of La Houbierre, and Hans Van Pugh's offer.

Tunnel Construction Work to Connect Nations, Approved

CONSTANTINOPLE. — The construction of a tunnel connecting Europe and Asia beneath the Bosphorus has received the approval of the Turkish government and the initial work has been authorized to begin early next year. The necessity of such a tunnel was first pointed out by engineers attached to the Near East Relief, who proposed three years ago that the work be done largely with refugee labor as a relief measure. At that time the political situation was so unstable that the project was dropped.

The tunnel will permit through transport of freight and passengers by railroad or automobile, and will facilitate the opening up of Asia Minor to western influence. It is calculated that the neterprise will pay for itself in three years through savings which it will effect in unloading, ferrying and reloading.

The Biggest Thrill in Music is Playing it *Yourself*

And now even untrained persons can do it

IN MUSIC as in every human activity, it's your own participation that means your greatest most.

It's the ball you drive down the fairway yourself that stirs your blood.

It's the song that you sing yourself that touches your heart.

It's the number that you dance yourself that entrances you.

And this human trait is even more pronounced in the music that you play.

There is rapture in listening to the playing of others but in playing yourself there's the thrill of personal conquest, the touch of indefinable sweetness, and the flight of joy to heights no other music can attain. It is here you find your supreme beginning.

Only Piano of Its Kind

We admit that it seems incredible that untrained persons can play like this—can play by roll, equal to playing by hand. Indeed it would be impossible were it not for the Gulbransen Registering Piano, the only instrument of its kind in the world.

For neither ordinary player-pianos, nor reproducing pianos can give you complete control of the keys, the tempo as in hand playing. The Gulbransen alone does this.

Hence you can play not "mechanical" music, but human music, with the human expression—the Time, the Touch and the Tone Volume that you yourself impart to it.

The Biggest Thrill in Music is Playing it *Yourself*

And now even untrained persons can do it

IN MUSIC as in every human activity, it's your own participation that rouses your emotions most.

It's the ball you drive down the fairway yourself that stirs your blood.

It's the song that you sing yourself that touches your heart.

It's the number that you dance yourself that entrances you.

And this human trait is even more pronounced in the music that you play.

There is rapture in listening to the playing of others; but in playing yourself there's the thrill of personal creation, the hush of ineffable sweetness, and the flight of joy to heights no other music can attain. It is here you find your supreme beginning.

Only Piano of Its Kind

We admit that it seems incredible that untrained persons can play like this—can play by roll, equal to playing by hand. Indeed it would be impossible were it not for the Gulbransen Registering Piano, the only instrument of its kind in the world.

For neither ordinary player-pianos, nor reproducing pianos can give you complete control of the keys, the same as in hand playing. The Gulbransen alone does this.

Hence you can play not "mechanical" music, but human music, with the human expression—the Time, the Touch and the Tone Volume that you yourself impart to it.

SALE BEGINS FRIDAY MORNING

VOL. VIII. EAST LIVERPOOL, OHIO, THURSDAY, OCTOBER 29, 1925. EDITION 300.

Sale of Fall Dresses Begins Friday Morning

Two Groups of Frocks $6.95 and $9.75

We have gone through our entire stock and assembled these four groups of frocks to go on sale Friday at these special prices.

If we could describe each dress in detail—if we were to quote their regular prices—you would realize just how great the savings.

For $6.95—you may choose from a group of balbriggan and flannel frocks. In Fall's best shades and smartest modes. One and two piece models with tailored trimming. Sizes for misses' and women.

For $9.75 you may choose from a group of flannel, twill, Canton crepe, satin and georgette. Good dark and light shades. Styles suitable for wear through the whole day.

Group of Frocks Priced Specially at $16.75

Each frock in this group is smartly styled and suggestive of higher price. To see them is the buy—you'll probably find two or three none too many for your needs. Women eager to save on their Fall wardrobes should take advantage of this sale.

Included in this group are satins, georgettes, Roshanaras and Cantons in long and short sleeve models. Many with the new flare effects. In black, navy, cocoa, rust and Lanvin green. Also light shades suitable for afternoon and evening wear. Women's and Misses sizes. Priced formerly from $25.00 to $45.00. Now $16.75.

Group of Frocks Priced Specially at $24.95

You will find real values in this group of frocks. Fricks for wear every hour in the day.

Well made, of good materials and with the smartest style features. Short or long sleeves—new flares or straight lines.

Of Canton or Satin Crepe and Satin in black, navy and other serviceable shades. Also light frocks for wear at formal or semi-formal winter affairs.

Beads, braids and embroidery form the trimmings.

Splendid quality for the price.

Formerly sold from $25.00 to $45.00. Now reduced to $24.75.

Women's and Misses' sizes.

THIS WOMAN'S REMARKABLE RECOVERY

Entirely Due To Lydia E. Pinkham's Vegetable Compound

Forest City, Iowa. — "My first child lived only a short time and I was sick for a year after. When I bent over and raised myself up again I could almost scream with pain in my back. One day I was so bad that I had to leave my washing and get ready to go to the doctor. He gave me medicine but it did no more good than if I drank just water. Once when we had been in town a little book telling about Lydia E. Pinkham's Vegetable Compound was left in our car. I have taken five bottles of the Vegetable Compound now and I do all my housework and help with the milking and taking care of chickens and garden. Besides I have a fine baby girl eight months old, just the picture of health and I am feeling fine myself. You may use this letter as a testimonial and I will answer any letters asking about the Vegetable Compound." —Mrs. OSCAR F. BOSGELIN, Route No. 6, Forest City, Iowa.

Lydia E. Pinkham's Vegetable Compound is for sale by all druggists.

HEALTH EXPERT TO VISIT COUNTY

Dr. J. G. Townsend, director of the bureau of rural sanitation, state department of health, and surgeon in the United States public health service, has returned to Charleston after an absence of six weeks in Washington where he was summoned in connection with the investigation into influenza and common colds which the government is making.

Dr. Townsend will visit as soon as practicable the eight counties which have full time health departments and make a survey of their activities. Hancock county will be included in his itinerary.

EXPECT RECORD CROWD AT GAME

The largest crowd that ever witnessed a soccer game in this section is expected to attend the contest here Saturday between Homer Laughlin China and Mahoning Valleys of Youngstown.

This game will be the first of the elimination series and the loser will automatically drop out of the running for honors. The contest is booked to start at 3 o'clock. The Youngstown squad will be accompanied by a large delegation of rooters.

Hallowe'en Parties.

Several pre-Hallowe'en parties were held last evening by various young people of the city. During the remainder of the week scores of similar affairs will be held in and about the vicinity.

Lodge Members To Meet.

Regular meeting of Clark lodge No. 447, I. O. O. F., will be held tomorrow evening in the Odd Fellows' hall. Routine business will be transacted.

"I, J. A. Tope, Sheriff of Hancock County, West Virginia, will be at the following places on dates specified to collect taxes for Hancock County for the year 1925:

SEVERE CASE OF ITCHY ECZEMA

Broke Out in Rash and Affected Limbs and Face. Cuticura Healed.

"For months I did not know what it was to enjoy a night of unbroken sleep for I had a severe case of itching eczema which was a torture. It broke out in a rash and affected my limbs and face.

"A friend advised me to try Cuticura Soap and Ointment so I purchased some. The first application gave relief so I continued the treatment and in about a month I was completely healed." (Signed) Miss Enid Burkhead, Hendrysburg, Ohio, Jan. 31, 1925

Daily use of Cuticura Soap keeps the pores active and the skin clear, while the Ointment heals pimples and other irritations. Cuticura Talcum is fragrant and refreshing

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address: "Cuticura Laboratories, Dept. X, Malden, Mass." Cuticura Shaving Stick 25c.

World's Shipping Trade Working at Big Loss; Heavy Ship Surplus

GLASGOW.—Five per cent of the world's shipping is today working at a loss, according to expert evidence given to the Glasgow Valuation Appeal Court by Sir W. S. Abell, of Lloyd's.

Sir Wilcott told the court that six million tons of shipping were at present laid up all over the world, and that due to the preesnt stagnation in the shipping trade this tonnage would very likely considerably increase. He estimated that there was a surplus of ten million tons of shipping throughout the world. The present capacity of the world was now about ten million tons, compared with about five millions before the war.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

THURSDAY, OCTOBER 29, 1925.

Two Partisan Ballots

Two partisan ballots will be handed to East Liverpool electors when they go to the polls next Tuesday. They are:

First—City ticket, on which Republican and Democratic candidates appear.

Second—Municipal court clerkship on which the names of nominees of the two major parties as well as an independent are printed.

Six other ballots include the non-partisan judicial ticket, on which Solicitor Harry Brokaw and ex-Prosecuting Attorney Jesse C. Hanley, both Republicans, are the rival candidates; the non-partisan township and board of education tickets, proposed three-mill school tax levy, $950,000 county road bond issue and three state constitutional amendments.

The Republican candidates on the party tickets are:

Mayor—J. S. Wilson, former city executive.

President of Council—N. P. Kerr, now serving as councilman-at-large.

Auditor—W. M. McGraw, seeking re-election.

Treasurer—A. Earl Edwards, nominee for a second term.

Solicitor—Attorney Frank H. Hoover.

Councilman-at-Large—Thomas Farrall, now serving his first term; Charles Hayes, also a member of the present councilmanic assembly, and Oliver J. Herrington, butter merchant.

Ward Councilmen—First, J. Raymond Chambers, seeking re-election; Second, Edgar Heddleston, pottery worker; Third, L. M. Poole, pottery employe; Fourth, George A. Hughes, pottery worker and former councilman.

Miss Ruth Finnie is the Republican candidate for the municipal court clerkship.

The Republican nominees have recognized ability, and in most instances are equipped with experience by reason of their knowledge of municipal affairs. No mistake will be made in placing the city's business in their charge.

Must Have Waterways

The railroads, Secretary Hoover observers, are busy to capacity carrying today's freight. In another quarter-century the United States will have 40,000,000 more people, adding their freight requirements to those of the present time. A tremendous amount of new transportation is going to be needed.

How shall it be provided? Either by more railroads or more waterways. Or by both.

There is virtually no railroad-building now in progress. There has been little for many years. There is little contemplated. New railroad activity consists mostly in mergers of competing lines and in improvement of rolling stock and handling methods, to increase efficiency. That is good, but does not go far enough.

There must be some new railroads, where water transportation is impossible.

But where water transportation is possible, as the secretary points out, it is the obvious solution because it is immensely cheaper than railroad transportation. Figures prove that beyond a doubt, especially on the Great Lakes, and to a less but still convincing extent on the Mississippi and in the long haul from coast to coast through the Panama canal.

Railroads and waterways in the past have fought each other. Or rather, the railroads have fought the waterways—too often with fatal effect to the latter. Now waterways are beginning to fight the railroads. There is no need of either fighting the other. The obvious need of the country is to develop both as complementary systems, according to a plan broad enough to embrace the needs of the entire country. Development of the Mississippi and the Great Lakes-St. Lawrence deep waterways, as Secretary Hoover suggests, would make a good beginning.

Spending and Saving

Salesmanship is the new gospel, and America is its prophet. Selling things seems sometimse the end and aim of our existence. And since for every sale there must be a buyer, there are people who fear that there is too much buying—that people part too easily with their money—that they spend too much.

Figures do not support this fear. It is shown that in America as a whole, and in nearly every American community, with all the expenditure, Americans are putting more money into the savings banks and taking out more life insurance. While the right hand spends, the left hand saves. Each hand knows what the other is doing.

The improvement of late years is undeniable. It is thrift, not stinginess. Everywhere there are families banking money, taking out inurance policies, acquiring land and building homes. The country is getting ahead none the less surely, because it is enjoying life at the same time.

And now, is Europe does go ahead and live up to the peace of Locarno, there are some Americans who will never forgive her for it.

The perfect automobilist has trouble nowadays when he reads a telegram. It's full of "stop" signals, with no starts.

The most intolerable thing about those ruffian Riffians is that they keep right on fighting the French and Spaniards after they've been licked.

Family Stuff— By Fontaine Fox

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Oct. 29. — Ladies of Broadway whose lives fail to click with conventions are usually given a false glitter. They appear to lead a manicured and coiffured life of ease. They have their apartments, their limousines and charge accounts.

And yet most of them are humble Nancys to a thousand one one Bill Sykeses. They live in constant turmoil and fear of the inevitable end—abandonment. Love or what passes for it, subsides to a pretense and then harshness and brutality. A black eye is not uncommon.

They find the quicksilvery sheen to their pampered lives may vanish overnight and leave only stark reality. Stage beauties are particularly sought in these vagarious loves. The glamour of the spotlight is about them.

Then they quit their jobs and a skimped sort of existence is bloated to proportions of grandeur. Dissipation exacts its toll, and when the break comes they find the stage closed to them. There are scores of girls along Broadway shunted to such tragic tedium today.

They have been beautiful and they think they can be even more beautiful, but thew swing across that few years' gap—the dividing line separating the pulchritudinous from the passe. Broadfay feeds only on youth and beauty, and neither can be called back.

So they plunge into the gay whirlpool—sometimes drink and sometimes drugs. If they marry, their husbands soon desert them. Such women rarely fit into the domestic scheme. The reward for being exploited is social ostracism.

New York is overwhelmingly big but not too big to escape the light gossips that covers and destroys reputations. And the mirror is always before them to recall those haunting lines:

"The cruel looking glass, that can always hurt a lass
More hard than any ghost there is or any man there was!"

Personally I doubt everybody at some time or other tries to write a play. Many have gone along without the birth pangs of the histrionic brain throb. Yet I heard of this wager the other day. A business man and an actress argued about the matter, the actress claiming every one was trying to fashion the great American drama. They decided to try out the first five people they met. They boarded a Fifth Avenue bus.

"How's the play coming along?" the man asked the conductor.

"That's funyy. How did you know I was writing a play? I've almost finished the second act," he replied.

That was enough. The business man paid the wager.

Most men given to day-dreaming, I imagine, have pictured themselves as prizefighters and knocked Jack Dempsey cold for the cheering multitudes. I walked behind an aged messenger "boy" on a deserted street recently. He was jabbing the air, ducking and muttering in a loud tone: "Take that and that and that!" And after a pause he said: "So you thought Jack Dempsey couldn't be licked, eh?"

Gov. Al Smith's former home on Oliver street is now an undertaking establishment, and his neighborly contact with the East Side seems definitely broken. When the governor comes to town now, he occupies a suite at the Biltmore.

Oh, yes, speaking of prizefighters, I notice that they are almost invariably marvelously agile dancers. And they are nearly always to be seen in the dance places. It is noticeable, too, that they are not jostled.

HASKIN'S LETTER

By FREDERIC J. HASKIN

WASHINGTON, Oct. 28.—Has the president of the United States the constitutional right to remove from office any federal executive official whose appointment has once been confined by the senate?

This question which, according to former Solicitor General James M. Beck, is of such profound importance that it concerns the very foundation of the government, will be decided by the supreme court sometime during the present session.

Since the earliest days of the American government, sharp discussion has arisen several times over the point of whether or not the Constitution, in making the president the chief executive of the nation and responsible for the enforcing of the laws, also tacitly conferred upon him the prerogative of removing from office an official whom he felt to be incompetent.

Although this subject has never been touched upon in a number of Supreme Court decisions, it has never been brought to an issue in a clear cut test case until the present time.

The case now awaiting decision is in itself relatively unimportant, but as an example of a constitutional problem that has never been decided it is extremely significant.

In 1917 President Wilson appointed Frank S. Myers postmaster at Portland, Oregon, for a term of four years, under the act of July 12, 1876, which provides:

"Postmasters of the first, second, and third class shall be appointed and may be removed by the president by and with the advice and consent of the senate and shall hold their offices for four years unless sooner removed or suspended according to law."

The appointment was confirmed by the senate, and in January, 1920, without referring the matter to the senate, the president removed Myers from office. Myers protested that his removal was contrary to law and refused to vacate his office until a postal inspector was placed in charge.

The following year he brought suit against the government for $8,838.71, the amount of salary he would have received if he had served the full term for which he had been appointed.

Plaintiff is Now Dead.

Since the original filing of the suit Myers has died, but the case has been carried on by his estate, the last arguments being held before the Supreme Court last April. Beck, who was then Solicitor General, presented the government's case, defending the rights of the president, while George Wharton Pepper, the senior senator from Pennsylvania, was invited by the court to argue for the appellant. The arguments of these two authorities on constitutional law represent what is probably the most comprehensive study ever made of the executive rights of the president in removing federal officials.

This point of removal from office is important because, if the court denies the Myers suit, not only will the clause in the postal law requiring senatorial sanction for the removal of postmasters be declared unconstitutional, but also a precedent will be set, restraining further legislation which would tend to limit the removal powers of the president.

Some authorities contend that a Supreme Court decision of this character may bring to a head the storm which has long been raging about the General Accounting office and Comptroller General McCarl.

McCarl's office was created by the budget law of 1921, the most recent statute containing a clause definitely taking the power of removal out of the hands of the president and giving it to congress.

This law gave the comptroller general power to adjust "all claims and demands whatever by the government of the United States or against it, and all accounts whatever in which the government of the United States is concerned, either as debtor or creditor."

This means that the vouchers for all federal expenditures pass through the General Accounting office and receive the sanction of Comptroller General McCarl.

In creating the offices of comptroller general and assistant comptroller general, the law also provided that these officials should serve for fif-teen years and might be removed "at any time by joint resolution of congress after notice and hearing, when, in the judgment of congress, the comptroller general or assistant comptroller general has become permanently incapacitated, or has been inefficient, or guilty of neglect of duty, or of malfeasance in office, or of any felony or conduct involving moral turpitude, and for no other cause and in no other manner except by impeachment."

Independent of the President.

Under this statute the comptroller general conducts his office entirely independent of the president, although the General Accounting office is a part of the executive branch of the government and the president is the chief executive.

In the past few months the heads of several departments have had disagreements over rulings of the comptroller general, but as this officer is answerable to congress alone, there can be no appeal to the White House for intervention on the disputed questions.

In addition to the postal law and the budget law, there have been several other statutes enacted by Congress tending to limit the president's power to remove officials at his own discretion.

According to former Solicitor General Beck, in his argument in the Myers Case, the power to remove officials is purely an executive function and not a legislative one, belonging to the president and not to congress.

He asserted that congress is empowered to create an office, abolish one, or limit the duration, but in passing a law under which the legislative body retains the privilege of removal congress "takes from the president a part of his constitutional power and divides it with the senate.' Such a law, he declared, is not the declaration of a legislative policy, but is a redistribution of the powers of government.

He said that the framers of the Constitution intended the three branches of the American government, the legislative, the executive, and the judicial, to be separate, and that the adoption of the power to remove by the senate would be an encroachment upon the executive rights of the president. He stresses the point that the power to remove is necessary for the president to perform his function of executing the laws.

"If the president cannot do this," he said, "and remove officials, however unfit or unworthy they may prove to be, without the consent of congress, then the president has neither the independence nor the power which has hitherto been attributed to his great office and which has given the government its efficiency and stability. In such event, the president is deprived of one of his greatest powers, and is important to see that the laws are faithfully executed."

Senator Pepper, speaking for the appellant, argued that while the act of removal is itself an executive act, the prescribing of the conditions under which that act may be performed is a legislative power, incident to the legislative power to create the office, to prescribe the duties of the office, to fix the salary, and to specify the term. He said that congress, in prescribing the conditions under which a removal may be made, is performing a legislative and not an executive function.

Senator Pepper also cited the fact that most of the laws now on the statute books, which have limited the president's power of removal, were signed by the president rather than passed over the executive veto.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

THURSDAY, OCTOBER 29, 1925.

Two Partisan Ballots

Two partisan ballots will be handed to East Liverpool electors when they go to the polls next Tuesday. They are:

First—City ticket, on which Republican and Democratic candidates appear.

Second—Municipal court clerkship on which the names of nominees of the two major parties as well as an independent are printed.

Six other ballots include the non-partisan judicial ticket, on which Solicitor Harry Brokaw and ex-Prosecuting Attorney Jesse C. Hanley, both Republicans, are the rival candidates; the non-partisan township and board of education tickets, proposed three-mill school tax levy, $950,000 county road bond issue and three state constitutional amendments.

The Republican candidates on the party tickets are:

Mayor—J. S. Wilson, former city executive.

President of Council—N. P. Kerr, now serving as councilman-at-large.

Auditor—W. M. McGraw, seeking re-election.

Treasurer—A. Earl Edwards, nominee for a second term.

Solicitor—Attorney Frank H. Hoover.

Councilman-at-Large—Thomas Farrall, now serving his first term; Charles Hayes, also a member of the present councilmanic assembly, and Oliver J. Herrington, butter merchant.

Ward Councilmen—First, J. Raymond Chambers, seeking re-election; Second, Edgar Heddleston, pottery worker; Third, L. M. Poole, pottery employe; Fourth, George A. Hughes, pottery worker and former councilman.

Miss Ruth Finnie is the Republican candidate for the municipal court clerkship.

The Republican nominees have recognized ability, and in most instances are equipped with experience by reason of their knowledge of municipal affairs. No mistake will be made in placing the city's business in their charge.

Must Have Waterways

The railroads, Secretary Hoover observers, are busy to capacity carrying today's freight. In another quarter-century the United States will have 40,000,000 more people, adding their freight requirements to those of the present time. A tremendous amount of new transportation is going to be needed.

How shall it be provided? Either by more railroads or more waterways. Or by both.

There is virtually no railroad-building now in progress. There has been little for many years. There is little contemplated. New railroad activity consists mostly in mergers of competing lines and in improvement of rolling stock and handling methods, to increase efficiency. That is good, but does not go far enough.

There must be some new railroads, where water transportation is impossible.

But where water transportation is possible, as the secretary points out, it is the obvious solution because it is immensely cheaper than railroad transportation. Figures prove that beyond a doubt, especially on the Great Lakes, and to a less but still convincing extent on the Mississippi and in the long haul from coast to coast through the Panama canal.

Railroads and waterways in the past have fought each other. Or rather, the railroads have fought the waterways—too often with fatal effect to the latter. Now waterways are beginning to fight the railroads. There is no need of either fighting the other. The obvious need of the country is to develop both as complementary systems, according to a plan broad enough to embrace the needs of the entire country. Development of the Mississippi and the Great Lakes-St. Lawrence deep waterways, as Secretary Hoover suggests, would make a good beginning.

Spending and Saving

Salesmanship is the new gospel, and America is its prophet. Selling things seems sometimse the end and aim of our existence. And since for every sale there must be a buyer, there are people who fear that there is too much buying—that people part too easily with their money—that they spend too much.

Figures do not support this fear. It is shown that in America as a whole, and in nearly every American community, with all the expenditure, Americans are putting more money into the savings banks and taking out more life insurance. While the right hand spends, the left hand saves. Each hand knows what the other is doing.

The improvement of late years is undeniable. It is thrift, not stinginess. Everywhere there are families banking money, taking out inurance policies, acquiring land and building homes. The country is getting ahead none the less surely, because it is enjoying life at the same time.

And now, is Europe does go ahead and live up to the peace of Locarno, there are some Americans who will never forgive her for it.

The perfect automobilist has trouble nowadays when he reads a telegram. It's full of "stop" signals, with no starts.

The most intolerable thing about those ruffian Riffians is that they keep right on fighting the French and Spaniards after they've been licked.

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Oct. 29. — Ladies of Broadway whose lives fail to click with conventions are usually given a false glitter. They appear to lead a manicured and coiffured life of ease. They have their apartments, their limousines and charge accounts.

And yet most of them are humble Nancys to a thousand one one Bill Sykeses. They live in constant turmoil and fear of the inevitable end—abandonment. Love or what passes for it, subsides to a pretense and then harshness and brutality. A black eye is not uncommon.

They find the quicksilvery sheen to their pampered lives may vanish overnight and leave only stark reality. Stage beauties are particularly sought in these vagarious loves. The glamour of the spotlight is about them.

Then they quit their jobs and a skimped sort of existence is bloated to proportions of grandeur. Dissipation exacts its toll, and when the break comes they find the stage closed to them. There are scores of girls along Broadway shunted to such tragic tedium today.

They have been beautiful and they think they can be even more beautiful, but thew swing across that few years' gap—the dividing line separating the pulchritudinous from the passe. Broadfay feeds only on youth and beauty, and neither can be called back.

So they plunge into the gay whirlpool—sometimes drink and sometimes drugs. If they marry, their husbands soon desert them. Such women rarely fit into the domestic scheme. The reward for being exploited is social ostracism.

Q. How does the number of men in the United States navy compare with that of other nations? S. A. N.

A. As of May 1, 1925, the regular establishment of the treaty powers was: United States, officers 8,148, men 86,000; British Empire, officers 9 347, men 98,552; Japanese Empire, officers 7,128, men, 65,404; France, officers, 3.496, men, 55 000; Italy, officers 2,177, men 40,591.

Q. Tell me how and where Roquefort cheese is made. M. R. R.

A. Roquefort comes from the town of Roquefort perched high on a mountain in the Department of Aveyron. French historians tell us that, as far back as "Bibles times" cheese was carried from Roquefort to the Mediterranean Sea. The peasant people used to carry cheese to the top of the mountain and hide it in caves, which were found to be especially fitted by nature for the storing of cheese. The cool temperature of the caves made them excellent storehouses. This cheese is made of sheep's milk. Every morning the milk is skimmed, strained and warmed almost to the boiling point. Then it is put into pans and stirred with willow wythes. A little rennet is used to curdle the milk. After the curds are formed they are mixed with a specially prepared barley bread, which starts the green mould always to be seen in Roquefort cheese and helps to give it its distinctive flavor. The cheese is allowed to remain in the press several days and is then taken to the caves and sold. There it is cured with salt. The outside of the cheese is rubbed with salt until the pores are filled. The cheeses are cured in the caves for about four months when they are shipped to nearly all parts of the world.

Q. How did state and county fairs originate? P. M. G.

A. The origin of the state and county fair may be traced to the convenience of bringing together at stated times the buyers and sellers of the stock produce of a district. In Europe in the middle ages these fairs were generally connected with festivals of the church, this considered an appropriate time for bringing a large number of people together.

Q. Why was Beatrice Cenci executed? S. A. M.

A. Beatrice Cenci was the daughter of a Roman patrician. She was born in Rome, February 12, 1577. Her father for many years abused his wife and family in the most cruel way and as a result the family procured his murder. They were tried and sentenced to death. Beatrice was executed Sept. 11, 1599. The circumstances of her life have long caused her to be considered a martyr and her history has been the theme of several poems.

Q. Who was Mrs. Partington? C. M. K.

A. She was an anecdotal character of Sidmouth, England, who attempted to stem the incoming tide of the Atlantic Ocean with a mop during a great storm in 1824, and referred to by Sidney Smith in a speech delivered at Taunton, England, in 1831, to point out the futility of the opposition of the House of Lords to the reform movement. Mrs. Partington is also the name of a character noted for her laughable misuse of words in many sketches by B. P. Shillaber, an American humorist. He published the first of Mrs. Partington's sayings in the Boston Post in 1847.

Rub the Chest

For Deep, Heavy Colds

Here is the best way to get rid of a bad cold. First apply hot wet towels over throat and chest to open the pores of the skin.

Then massage briskly with Vicks for five minutes, spread on thickly and cover with two thicknesses of hot flannel cloths. Leave the bedclothing loose about the neck so that the vapors arising may be freely inhaled. These vapors, inhaled with each breath, carry the medication directly to the affected parts.

At the same time Vicks is absorbed through and stimulates the skin, helping the vapors inhaled to relieve tightness and soreness.

COCO-COD

(The cod liver oil flavored with chocolate)

A VIGOROUS body—an alert mind! They go together. Coco-Cod makes both. It feeds sinewy strength and energy into the blood and nerves—it builds the vital body which produces the active mind. So through Coco-Cod, youth finds a new power to resist diseases and infections—to meet the world and carry on to success.

A B C and D vitamins (derived from vegetables, eggs and yeast) blend their body-building, vitalizing qualities to pure cod liver oil and chocolate flavoring, to make Coco-Cod. Thus you have a preparation with *more* than the tonic qualities of Cod Liver Oil, prescribed by doctors generally for rickets, anaemia, nervous disorders, undernourishment, general run-down and convalescent conditions. You have these tonic qualities plus the four vitamins essential to the system—in a form that's really good to take.

Results are surprisingly prompt, too, as Stephen Apted, Monadnock Block, Chicago, testifies: "I had no idea that a tonic could act as promptly as Coco-Cod did in my case. Lost my appetite and usual liking for work. Thanks to Coco-Cod, I had both back in two weeks."

Stops That Tough Hang-On Cough That Racks Your Whole Body

For simple coughs any simple sweet sugary cough syrup will probably do.

But when you want to throw out of your system one of those old timers, that simply won't be conquered, but lingers on and on causing sleepless nights and days of torment then you've just got to have a real cough medicine.

Then you must ask your druggist for a bottle of Bronchuline Emulsion for the harder and tougher and tighter they come the more joy Bronchuline gets in knocking them out.

Bronchuline isn't a cheap cough conquerer, mind you, for first raters are never cheap. But if you are one of the unlucky ones that a persistent, health destroying cough is pushing towards the grave, get a bottle today and notice how the first dose takes right hold and soothes the terrible soreness.

Often three or four doses bring blessed relief and half a bottle forces the most stubborn cough into submission.

"A bottle of magic," one old man calls Bronchuline Emulsion. He was all worn out and ready to give up when a friend brought him the good news about Bronchuline.

Don't let a cough hang on—it's dangerous company—Get rid of it quick. Ask Carnahan's Drug Stores and Jesse D. Holloway or any up to the times druggist for a bottle of Bronchuline Emulsion.

OVERLAND CARS ARE IN DEMAND

Record Sales are Reported for 10 Months of Year.

Some idea of how greatly this fall's motor business exceeds that of a year ago is seen in the sales and production figures of Willys-Overland, Inc., for October and for the period from January 1 to October 20, 1925.

For the year to October 20 Willys-Overland shipments totaled more than 174,840 cars as compared with 130,971 for the corresponding period of last year. In addition, company production for the first 20 days of October totalled approximately 13,000 cars, indicating that between 20,500 and 21,000 cars will be built during this month, a figure that will break all production records for October shipments and production in company history. This figure compares with the October production of 1924 which totaled approximately 10,000 cars.

Orders for more than 15,000 cars for November delivery are now on hand and, after a careful checkup with dealers and distributors, factory officials declared there will probably be produced and shipped between 17,000 and 18,000 cars during November, as compared with the 5,000 cars produced in November of 1924.

Cable advices from London indicate that orders for more than $250,000 worth of cars were taken during the Olympia Motor exhibition, just closed, Great Britain's greatest automobile show, while other sections of the world report unusual sales activities for the fall months.

Newlyweds Honor Guests at Shower In E. J. Evans Home

Honoring Mr. and Mrs. Dwight Burns of Sewickley, Pa., who were recently married, a Hallowe'en party and miscellaneous shower was given last evening by Miss Stella Shively of McKinnon avenue, in the home of Mrs. Burns' mother, Mrs. E. J. Evans of Bank street. The home was attractively decorated in keeping with the season, music, games and dancing were the pastimes. The bride and bridegroom received many gifts.

Luncheon was served by Miss Shively, assisted by Mrs. Milton Buckley. Covers were arranged for Mr. and Mrs. Dwight Burns, Mr. and Mrs. Herbert Lane and family, Mr. and Mrs. Milton Buckley, Mr. and Mrs. Harry Davies, Mr. and Mrs. Earl Baker and family, Mr. and Mrs. E. J. Evans, Mrs. Pearl Momaw, Misses Grace Althers, Jean Martin, Olive Scott, Mildred Gething, Alice Momaw, Stella Shively, Helen Evans, Mary Briar, Dorothy Pointer and Helen Momaw, Messrs. Leonard Auld, Everitt Bishop, John Briar, Thomas Barnet, Paul Cowley, Edward Evans, Billy Momaw and Homer Evans.

The out-of-town guests included Mr. and Mrs. Dwight Burns and Mr. and Mrs. Herbert Lane and daughter of Sewickley, Pa.

Miss MacDonald Scores Success in Theatrical Debut

Miss Betty MacDonald, daughter of Mr. and Mrs. W. A. MacDonald, of West Fourth street, a student at the Eastman School of Dancing, Rochester, N. Y., is scoring a decided hit in a dancing number, which is being offered at the immense Eastman theatre, Rochester, N. Y., this week.

Miss MacDonald is one of four girl students at the Rochester school who appeared in a dance number, "The Lady of the Garden," in the production, "A Pompeian Afternoon," which was featured in last week's bill. The Rochester press was generous in its praise of Miss MacDonald's ability.

This week the local girl is taking part in a prologue to the photoplay, "The Phantom of the Opera," also being shown at the Eastman.

At the Rochester school Miss MacDonald has been studying under Miss Martha Graham and Miss Ester Gustafson, former Ziegfeld Follies stars, who arranged the dances, designed and made the costumes in which the young ladies are now appearing at the Eastman theatre.

125 Couples Attend Hallowe'en Dance In Elks' Temple

Approximately 125 couples danced to and were entertained by the Martha Lee Musical Magpies, famous Cleveland organization, at the East Liverpool Elks' club's annual Hallowe'en dance last evening in the ballroom of the home in West Fifth street.

The event marked the re-opening of the lodge's ballroom, closed for several weeks for repainting and redecorating.

Adept at interpreting the most modern popular and jazz selections for the dance, the colored orchestra also proved capable as entertainers and comedians.

Feature numbers of their program included a singing and dancing skit, songs by a quartet, and instrumental numbers by a banjo trio, as well as eccentric performances by their drummer.

Colors suggestive of the Hallowe'en season were expressed in the decorations.

The lodge dance committee announced that an effort will be made to book the Magpies for a return engagement on New Year's eve.

Y. M. C. A. Boys' Party.

Arrangements have been completed for the annual Hallowe'en party and entertainment to be held tomorrow night by members of the Y. M. C. A. boys' department, under supervision of Boys' Director Harvey Price.

The event will be held in the boys' department rooms, beginning at 7:30 o'clock. An appropriate Hallowe'en program will be carried out, including games and contests.

Refreshments, including doughnuts, apples and "witches' stew," will be served.

Amity Class Rummage Sale.

The Amity class of the First Methodis Protestant church are conducting a rummage sale in the Burford building, Dresden avenue.

The class will meet at the home of Mrs. Samuel Hall, 313 West Fourth street, tonight.

Seattle Club Meeting.

The Seattle club will be entertained in the home of Mrs. Margaret Van-Fossen, of East Fifth street, Wednesday evening, November 4.

Masque Dance, Danceland Friday. Cent 50.

Ladies of Elks Entertain.

Forty guests attended the afternoon card party held by the ladies of the Elks Tuesday in the B. P. O. E. temple, West Fifth street, when Mrs. Roy Welsh was hostess, assisted by Mrs. Walter Seederly and Mrs. Charles Davis. The hall was decorated in keeping with the season. Bridge, five hundred and euchre were diversions. Mrs. Ray Adams was awarded the favor.

A two-course dinner was served at 5:30 o'clock, at which the husbands and families were special guests.

Mrs. Joseph Chetwynd will be hostess in two weeks.

Miss MacDonald Scores Success in Theatrical Debut

Miss Betty MacDonald, daughter of Mr. and Mrs. W. A. MacDonald, of West Fourth street, a student at the Eastman School of Dancing, Rochester, N. Y., is scoring a decided hit in a dancing number, which is being offered at the immense Eastman theatre, Rochester, N. Y., this week.

Miss MacDonald is one of four girl students at the Rochester school who appeared in a dance number, "The Lady of the Garden," in the production, "A Pompeian Afternoon," which was featured in last week's bill. The Rochester press was generous in its praise of Miss MacDonald's ability.

This week the local girl is taking part in a prologue to the photoplay, "The Phantom of the Opera," also being shown at the Eastman.

At the Rochester school Miss MacDonald has been studying under Miss Martha Graham and Miss Ester Gustafson, former Ziegfeld Follies stars, who arranged the dances, designed and made the costumes in which the young ladies are now appearing at the Eastman theatre.

125 Couples Attend Hallowe'en Dance In Elks' Temple

Approximately 125 couples danced to and were entertained by the Martha Lee Musical Magpies, famous Cleveland organization, at the East Liverpool Elks' club's annual Hallowe'en dance last evening in the ballroom of the home in West Fifth street.

The event marked the re-opening of the lodge's ballroom, closed for several weeks for repainting and redecorating.

Adept at interpreting the most modern popular and jazz selections for the dance, the colored orchestra also proved capable as entertainers and comedians.

Feature numbers of their program included a singing and dancing skit, songs by a quartet, and instrumental numbers by a banjo trio, as well as eccentric performances by their drummer.

Colors suggestive of the Hallowe'en season were expressed in the decorations.

The lodge dance committee announced that an effort will be made to book the Magpies for a return engagement on New Year's eve.

Tells Women to Avoid "Physics"

DR. CALDWELL AT AGE 83

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated women and girls had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, sallow skin, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" every little while was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels. A single dose will establish natural, healthy bowel movement for weeks at a time, even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless, and so pleasant that even a cross feverish, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

Primitive Man Full Brain, Sir Arthur Keith Asserts

Equipped Mentally 20,000 Years Ago as Well as People Now, Says Authority.

LONDON—The men who lived in Europe 20,000 years ago were as well-equipped as far as size and form of brain are concerned as the people inhabiting the world today. What need had the primitive hunter for such a brain?

This was the fascinating riddle propounded to students at Kings College here by Sir Arthur Keith, regarded as the greatest living authority on the origin of man.

His suggested answer was that all our organs are built for emergencies at critical junctures. "The heartcan rise to ten times its normal current," he said. "So can the brain, and it is on this emergency ration that the modern scholar has to depend.

Small Danger of Injury

"Few people use the extra allowance to its full capacity," Sir Arthur added. "A person can study however, to the fullest and utmost limit of endurance without doing the brain any injury.

"Infinitely greater harm is done by disease, and there is no greater nonsense than the legend that brain work might bring on brain fever," he told his hearers.

Sir Arthur propounded the following wise saws and modern instances regarding brain cells and work. "Novel reading is an excellent relaxation to the student," he said. "The healing power of a debauch of fiction is often marvelous in its result.

"We have still in us the virility and energy of men and women bred for a life in the open air, and is it because this energy of our forefathers is so strong within us that we find it an effort to settle down to our books of an evening.

"The more we give our stomachs to do the higher the price we have to pay," was another of his maxims. "The energy in an ounce of sugar would be enough, I imagine, to produce any of Shakespeare's plays," he said.

"The majority of eminent scholars have no scholarly lineage. English scholars have come from the Highland glens, the Welsh hillsides, and the English country villages."

As possible encouragement to American investment in Philippine rubber lands a movement has been started to remove the 2,500-acre limitation on land holdings by Americans, and to permit the entrance of indentured Chinese labor for purposes of clearing and planting.

Tells Women to Avoid "Physics"

DR. CALDWELL AT AGE 83

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated women and girls had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, sallow skin, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" every little while was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels. A single dose will establish natural, healthy bowel movement for weeks at a time, even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless, and so pleasant that even a cross feverish, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

SCHOOL FUNDS HIT LOW MARK

Balance of $42,093.60 to Pay Bills for Four Months.

The East Liverpool board of education will not have sufficient funds to pay operating expenses during the remainder of the school year unless the proposed three-mill tax levy is approved at the polls on Nov. 3, it was pointed out today.

Clerk Emmett J. Gaston today called attention to a transposition of figures in a report given out at Lisbon yesterday, in which it was stated the school district had a balance of $346,527.50 at the close of the fiscal year on June 10, last.

The balance in all funds on that date totalled only $42,093.60, according to Gaston. This is needed to pay expenses for the remainder of the fall term.

"As a matter of fact," said Gaston, "the board's entire receipts last year were but $290,000."

Canadian People Go to Polls; Tariff Is Campaign Issue

OTTAWA, Canada, Oct. 29.—After a heated campaign, with tariff as the main issue, the Canadian people went to the polls today in a general parliamentary election.

Liberals and Conservatives are both confident, but it is admitted that the result will be close, with the decision probably resting with the progressive party.

There are nearly 600 candidates contesting the 241 seats in the house of commons.

Premier MacKenzie King, Liberal, has taken a middle of the road stand on tariff, favoring neither a high protective tariff nor free trade.

The Conservatives demand a high protective tariff.

The progressive party has a strong ticket in the field and hopes to maintain its strength in parliameent.

Col. Mitchell Loses

(Continued from Page One)

Mitchell is just as liable to trial for critising his superiors, Moreland said, as the man in the theater who cries "fire" and precipitates a panic. Surely, Moreland said, the right of "free speech" could not be advanced as a reason why such a man should not be tried for his act.

Moreland declared that Mitchell was subject to trial on any act that would bring "discredit to the military establishment."

Mitchell's Attorney Serious.

Mitchell was silent while Moreland spoke but brightened when his counsel, Representative Reid, resumed his argument as soon as the judge advocate sat down.

"If you men can try Colonel Mitchell," Reid shouted to the court, "the court-martial is greater than God."

Reid, tall, angular, was deadly serious. The court leaned forward in earnest attention.

"Col. Moreland based his whole argument on tradition," Reid continued. "How can any soldier be guilty of a crime if he violates tradition? I say there is no law, no statute or any common law to cover the question.

"If anybody will bring me proof that there ever has been a case parallel to this, I will admit my client's guilt.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of 26 Forbes St., Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free of rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenrhu, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed Liverpool druggists, Mathews Original Cut Rate and druggists everywhere to dispense Allenrhu with the understanding that if his prescription does not banish every sign and symptom of the disease he will gladly refund your money without comment.

Tri-State Highway

(Continued from Page One)

Chippewa and Brighton townships gives wonderful grades and alignment. It seems to be the logical location of this side of the line. The road passing through Negley to intersect with the state line would strike a dirt road which was taken over as a state road during the last session of our legislature but which I do not think would be improved in the near future, as its value compared to the one mentioned is not nearly as important. The Highway map of Columbiana county and vicinity has been a great aid to me and I do not like to part with it and if possible would appreciate if you could send me another copy or two, of same keeping this one which has been marked up."

"I have also indicated on this map the general location of the new state route L-238, which is spoken of as the Lincoln highway, which will give you a general idea of its connection with the recently built concrete road from Laughlin's Corners to the West Virginia line and which furnishes a direct northwest-southeast line from Lisbon into Pittsburgh. The state corps are working on this alignment at the present time. There is also shown a section of state route L-254 which will be placed under construction during the coming year. Some of the roads in blue I have marked so that this copy of the map will be fairly up to date. I am enclosing a map of Beaver county which may be of value to you."

None Hurt in Accident

(Continued from Page One)

The slush became ice by morning and a number of minor automobile accidents resulted.

Vessels on the Great Lakes scurried to the shelter of nearby ports to get out of the way of the gale that lashed the waters of the lake into waves almost mountain high. Many ships were hours late in reaching port.

With the arly advent of winter the Cleveland city council ordered the Cleveland Railway company immediately to heat all cars.

The northern section of the state got more snow today. Late in the morning flakes began peppering down, at times becoming blinding.

Three Clevelanders were seriously hurt when they collided with automobiles while crossing streets with heads down ducking the wind and driving snow.

A human derelict, shivering in a tattered waistcoat, became desperate early today. He wrapped a brick in newspapers and crashed a window of a clothing store, grabbing half a dozen overcoats. Police and pedestrians pursued, but the cold spurred him to a Nurmi sprint and he outdistanced them easily.

WASHINGTON, Oct. 29.—The capital shivered today in coldest October weather in 40 years. Freezing temperature was driven into the city by a heavy gale, accompanied by a small flurry of snow.

MARYSVILLE, O., Oct. 29.—A temperature of 12 degrees above zero was reached here early today. This, local weather forecasters believe, was the coldest in the state. All creeks froze over.

Hint Anti-Soviet Plot in Red Army; Arrest is Made

LENINGRAD, Oct. 29.—An alleged anti-soviet plot, having wide ramifications throughout the Red army, was announced by the authorities here today, following the arrest of Captain Frank, who is said to be a secret service agent of "one of the great powers."

The authorities do not identify specifically the nation which the arrested Captain Frank is alleged to have served, but they state that they have discovered there are scores of espionage agents of the neighboring countries involved in a spy plot which has penetrated the Red army. Many Czarist officers are said to be involved.

Documents which were seized are said to have revealed plans for blowing up railroads, bridges and arsenals.

Other portfolios are unchanged except for the ministry of war and the ministry of colonies.

M. Bonnet, the new minister of budget, has been under secretary of state in the prime minister's office.

REPORTS FROM STOCK MARKET

NEW YORK, Oct. 29.—Not since Mexican Petroleum disappeared from the board in 1922 have such wild variations been witnessed in speculative stocks as those which accompanied frenzied buying of Chrysler Motor since Monday. The stock bumped to above 240 in the early trading today, completing a 40-point gain since Saturday on buying which Wall street attributed in large measure to the merry game of "squeezing the short." General Motors has registered almost as spectacular a come-back since the break of October 17 and 19, selling above 140, against its reecnt low of 121. President Alfred Sloan released today the most favorable earnings statement in the post-war period, as well as reports of heavily increasing orders for subsidiary companies. Hudson topped its best previous record following reports of its 100 per cent stock dividend; Dupont pushed through to higher price levels and Fisher Body was up a few points.

Stocks of the mercantile, independent steel and utility companies were in the forefront of another brisk upward movement of prices. Woolworth jumped 6 points to a new high at 220.

Grandmother, 52, Plans To Conquer Channel; Constantly Training

WEYMOUTH, England — Although 52 years old and a grandmother, Mrs. Craven proposes to try her luck in conquering the English Channel, and is constantly training here for her attempt, scheduled to take place in July or August, 1926.

She practices every morning in all kinds of weather, and her latest feat on a cold October morning with a very high and chilly sea running was to swim a distance of seven and a half miles. When not practicing Mrs. Craven is employed as a nurse in a local hospital.

CROP REPORTING BOARD SILENT

WASHINGTON, Oct. 29.—In the face of criticism and threats of a congressional investigation of the methods of the crop reporting board in estimating the cotton crop, officials of the department of agriculture today remained silent, refusing to comment on the charge made by Gen. T. H. Caraway (D.) of Arkansas, that the last cotton report "cost southern cotton planters $350,000,000."

TODAY

(Continued from Page One)

Line. Warfield, ahead of all others, saw what was coming and in record time built his new road across Florida, building and extending other lines on the east and west coasts. Luckily for Florida he is still building.

Hughes, former secretary of state, warns the country that it is not providing the railroads it needs. There will be 200,000,000 of us in 50 years, according to Hughes, and the nation should get ready.

The warning is needed, although the flying machine will solve a great part of the problem in less than 50 years. The country needs half a dozen more such men as Warfield, that really build while others talk.

Dr. E. A. Jenkins, of Kansas City, advises clergymen to imitate the Hebrew prophets and P. T. Barnum and advertise. The ancients certainly knew how to attract attention. Daniel in the lions' den, Elijah with his chariot of fire and trained ravens, the pious, incombustible three in the fiery furnace, etc. You could not ignore them.

Dr. Jenkins tells clergymen to select snappier titles for their sermons, imitating newspaper headline writers.

It is not easy, however, to be snappy and reverent at the same time. The Salvation Army does it, Talmadge, Beecher and Spurgeon did it. It is not easy.

Big business gets bigger every month, as it should do. The day of small enterprises is waning with nations competing for world business. The New York Central railroad releases orders for rails in 1926 amounting to 206,745 gross tons.

The Gold Dust company has sold of its product 100,000,000 pounds in the last year. And when you read Judge Gary's statement that steel mills are running at 80 per cent of capacity, remember that the "capacity" is increasing every year.

Business and prosperity in this country have only just begun. For every dollar's worth of enterprises developed there are $1,000 in plain sight, waiting to be developed.

Since Yale university started, 224 years ago, books in the library have doubled in number every 20 years. The total now is 1,390,000 and every year 50,000 books are added, others being put in storage to make room.

This proves that organization and condensation are lacking in education. Buckle is said to have read 60,000 books. Voltaire apologized for his "small" library of 6,000 volumes, each with notes in Voltaire's own hand.

GREEK TROOPS QUIT BULGARIA

PARIS, Oct. 29.—"The Greek evacuation of Bulgarian territory is proceeding normally and we hope to be able to report that Bulgaria has been cleared of Greek soldiers on Friday morning."

This report, received from the French military attache at Belgrade, who has acted as one of the league of nations council investigators on the Bulgarian frontier, was laid before the council when it met this afternoon.

Two Break Legs as They Jump From Burning Building

CLEVELAND, Oct. 29. — Thomas Calvert and his son both suffered broken legs today when they ,with seven others, were forced to jump from the window of a burning building to the ice-covered sidewalk.

The building caught fire while several roomers were still abed and they were forced to the wind-swept street in their night clothes.

RIFFS BOMBARD SPANISH LINES

PARIS, Oct. 29.—Spanish positions dominating the former Riff stronghold of Ajdir were the objective of a violent attack of Riffian tribesmen, according to dispatches received here today. The Riffs were repulsed with heavy losses.

KLAN OPPOSES STATE ISSUES

Ordered to Vote "No" on Proposed Amendments.

COLUMBUS, Oct. 29. — The Ohio Ku Klux Klan vote, estimated by officials of the Invisible Empire to be 250,000 strong, has been ordered thrown against the three proposed amendments to the Ohio constitution.

Grand Dragon Clyde W. Osborn of the realm of Ohio, announced here today that word has gone to every Ohio Klansman to vote "no" on the tax classification, debt limitation and office extender amendments at the election on Nov. 3.

"I believe our action assures the defeat of the three constitutional amendments," said Grand Dragon Osborn.

Wife Takes Poison After Asking Police To Arrest Husband

CLEVELAND, Oct. 29.—Refused a warrant for the arrest of her husband, a wheelsman on an ore boat, on a charge of non-support, Mrs. Frances Bernard, 23, of Chicago, a trained nurse, attempted to commit suicide in the hospital ward at city prison today.

When Mrs. Bernard was told by authorities that her evidence against her husband was insufficient to authorize the warrant, she became violent, authorities said, and declared she would kill him, then threw a paste pot at one of the detectives who had been questioning her. She was placed under arrest.

Mrs. Bernard took a viol of poison from her handbag, and drank part of its contents. The dose, however, was too small to endanger her life, the jail physician said.

Bernard, called by police, visited his wife in the jail. Officers said no reconciliation was effected.

Five-year-old Lad Disappears; Four Cities Aid Search

NEW YORK, Oct. 29.—The whereabouts of five-year-old Frank Mackin, Jr., last seen near his home in West Thirty-ninth street, was as much a mystery as when he disappeared last Sunday night.

Police of four cities—New York, Newark, Jersey City and Hoboken—were conducting a vigorous search for the boy.

A "well dressed, stocky, swarthy-faced man," said by neighbors to have been seen in the boy's company since his disappearance was being sought.

Police released Eugene Hilderbrand, 50, of this city, a retired farmer, after they questioned him and became satisfied he had no connection with the case.

America Protests French Attack on Ancient Damascus

WASHINGTON, Oct. 29. — The American government has lodged an official protest with the French government over the bombardment of Damascus by French artillery and the unnecessary jeopardy to American lives that such a procedure entailed it was admitted today at the state department.

In setting forth its displeasure over the summary action of the French administration in Damascus, the United States has ranged alongside the British government, which also has protested, it is understood.

There are many Americans in Syria, many of them naturalized citizens, but a good many native born.

DEATH ROLL

Leake Funeral Services.

Funeral services for Mrs. Mary Helen Leake, wife of John R. Leake, who died Wednesday at her home, 1011 Ohio avenue, East End, will be held at 2 o'clock tomorrow afternoon in the home of her mother, Mrs. T. W. McCain, 513 Jefferson street. Rev. Freedrick A. Dean, pastor of the Second Presbyterian church will be in charge, assisted by Rev. D. W. MacLeod, pastor of the First Presbyterian church.

Mrs. Leake is survived by her husband, her mother, Mrs. T. W. McCain, one sister, Miss Ethel McCain, and one brother, James Wilbur McCain, of Rochester, Pa. She was a member of the Second Presbyterian church, Tribe of Ben Hur and Ceramic Rebekah lodge No. 286.

Friends may view the body from 7 to 10 this evening.

John P. Goddard.

John P. Goddard, 47 years old, potter, died yesterday at his home, Wedgewood street, East End, following a long illness of complication of diseases.

He is survived by his wife and two sisters, Mrs. Arthur Stanbach and Mrs. William Sylvester, both of Pittsburgh, Pa.

Funeral services will be held in the home tomorrow afternoon at 2:30. Rev. John Douglass, pastor of the Oakland Free Methodist church, will have charge. Burial will be made in Riverview cemetery.

Friends can view the body this evening.

MOTION PICTURE DIRECTOR JAILED

LOS ANGELES, Oct. 29.—King Baggot, prominent motion picture director, was arrested today by police on charges of being intoxicated, after his wife complained to the authorities. Mrs. Baggot told the officers she wanted Baggot arrested because she feared he would become abusive. William Desmond, screen star, placed $20 bail for Baggot but police said the director would not be released from jail until later in the day.

Kiwanis O. K.'s Levy

John Newell won the attendance prize, donated by Charles Pilgrim.

C. C. Cline, chairman of the committee named recently to encourage negotiations between East Liverpool and Wellsville high schools looking toward a resumption of athletic relations, reported that he had taken the matter up with C. J. Vogel, of the Wellsville Kiwanis club and later with Superintendent S. E. Daw, of Wellsville. The Wellsville school head pointed out, Mr. Cline asserted, that a game with Steubenville had already been scheduled for the coming Thanksgiving date.

President Lewis announced that Dr. Percival H. Barker, pastor of the Point Breeze Presbyterian church, of Pittsburgh, known to thousands of radio users, especially, will address the club at next week's meeting.

Discussing the county road bond issue, Van Voorles pointed out particularly that electors of Columbiana county, expressing themselves at the polls Tuesday, will not be voting a lump sum of $950,000 to the commissioners for road building purposes, but merely the authority to expend up to that amount in road building purposes.

This is done, he explained, a job at a time, and under a new law passed in July, bond issues for each road improvement will be passed after the contract is awarded, so that the issue will be for the exact amount of the cost and not merely an estimate.

He also brought to light the fact that the federation had been of great assistance to the traveling public in bringing about state action on the temporary improvement of "The Narrows," the almost impassable piece of the Ohio river road below Yellow Creek.

In referring to the bond issue be asserted that the gaps now unimproved between sections of main highways and improved roads are probably more important than the other sections of the thoroughfares.

And yet, if a husband does say: "Thank you," she thinks he's being sarcastic.—Akron Beacon-Journal.

SCHOOL FUNDS HIT LOW MARK

Balance of $42,093.60 to Pay Bills for Four Months.

The East Liverpool board of education will not have sufficient funds to pay operating expenses during the remainder of the school year unless the proposed three-mill tax levy is approved at the polls on Nov. 3, it was pointed out today.

Clerk Emmett J. Gaston today called attention to a transposition of figures in a report given out at Lisbon yesterday, in which it was stated the school district had a balance of $346,527.50 at the close of the fiscal year on June 10, last.

The balance in all funds on that date totalled only $42,093.60, according to Gaston. This is needed to pay expenses for the remainder of the fall term.

"As a matter of fact," said Gaston, "the board's entire receipts last year were but $290,000."

Canadian People Go to Polls; Tariff Is Campaign Issue

OTTAWA, Canada, Oct. 29.—After a heated campaign, with tariff as the main issue, the Canadian people went to the polls today in a general parliamentary election.

Liberals and Conservatives are both confident, but it is admitted that the result will be close, with the decision probably resting with the progressive party.

There are nearly 600 candidates contesting the 241 seats in the house of commons.

Premier MacKenzie King, Liberal, has taken a middle of the road stand on tariff, favoring neither a high protective tariff nor free trade.

The Conservatives demand a high protective tariff.

The progressive party has a strong ticket in the field and hopes to maintain its strength in parliameent.

Col. Mitchell Loses

(Continued from Page One)

Mitchell is just as liable to trial for critising his superiors, Moreland said, as the man in the theater who cries "fire" and precipitates a panic. Surely, Moreland said, the right of "free speech" could not be advanced as a reason why such a man should not be tried for his act.

Moreland declared that Mitchell was subject to trial on any act that would bring "discredit to the military establishment."

Mitchell's Attorney Serious.

Mitchell was silent while Moreland spoke but brightened when his counsel, Representative Reid, resumed his argument as soon as the judge advocate sat down.

"If you men can try Colonel Mitchell," Reid shouted to the court, "the court-martial is greater than God."

Reid, tall, angular, was deadly serious. The court leaned forward in earnest attention.

"Col. Moreland based his whole argument on tradition," Reid continued. "How can any soldier be guilty of a crime if he violates tradition? I say there is no law, no statute or any common law to cover the question.

"If anybody will bring me proof that there ever has been a case parallel to this, I will admit my client's guilt.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of 26 Forbes St., Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free of rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenrhu, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed Liverpool druggists, Mathews Original Cut Rate and druggists everywhere to dispense Allenrhu with the understanding that if his prescription does not banish every sign and symptom of the disease he will gladly refund your money without comment.

Tri-State Highway

(Continued from Page One)

Chippewa and Brighton townships gives wonderful grades and alignment. It seems to be the logical location of this side of the line. The road passing through Negley to intersect with the state line would strike a dirt road which was taken over as a state road during the last session of our legislature but which I do not think would be improved in the near future, as its value compared to the one mentioned is not nearly as important. The Highway map of Columbiana county and vicinity has been a great aid to me and I do not like to part with it and if possible would appreciate if you could send me another copy or two, of same keeping this one which has been marked up."

"I have also indicated on this map the general location of the new state route L-238, which is spoken of as the Lincoln highway, which will give you a general idea of its connection with the recently built concrete road from Laughlin's Corners to the West Virginia line and which furnishes a direct northwest-southeast line from Lisbon into Pittsburgh. The state corps are working on this alignment at the present time. There is also shown a section of state route L-254 which will be placed under construction during the coming year. Some of the roads in blue I have marked so that this copy of the map will be fairly up to date. I am enclosing a map of Beaver county which may be of value to you."

None Hurt in Accident

(Continued from Page One)

The slush became ice by morning and a number of minor automobile accidents resulted.

Vessels on the Great Lakes scurried to the shelter of nearby ports to get out of the way of the gale that lashed the waters of the lake into waves almost mountain high. Many ships were hours late in reaching port.

With the arly advent of winter the Cleveland city council ordered the Cleveland Railway company immediately to heat all cars.

The northern section of the state got more snow today. Late in the morning flakes began peppering down, at times becoming blinding.

Three Clevelanders were seriously hurt when they collided with automobiles while crossing streets with heads down ducking the wind and driving snow.

A human derelict, shivering in a tattered waistcoat, became desperate early today. He wrapped a brick in newspapers and crashed a window of a clothing store, grabbing half a dozen overcoats. Police and pedestrians pursued, but the cold spurred him to a Nurmi sprint and he outdistanced them easily.

WASHINGTON, Oct. 29.—The capital shivered today in coldest October weather in 40 years. Freezing temperature was driven into the city by a heavy gale, accompanied by a small flurry of snow.

MARYSVILLE, O., Oct. 29.—A temperature of 12 degrees above zero was reached here early today. This, local weather forecasters believe, was the coldest in the state. All creeks froze over.

Hint Anti-Soviet Plot in Red Army; Arrest is Made

LENINGRAD, Oct. 29.—An alleged anti-soviet plot, having wide ramifications throughout the Red army, was announced by the authorities here today, following the arrest of Captain Frank, who is said to be a secret service agent of "one of the great powers.'

The authorities do not identify specifically the nation which the arrested Captain Frank is alleged to have served, but they state that they have discovered there are scores of espionage agents of the neighboring countries involved in a spy plot which has penetrated the Red army. Many Czarist officers are said to be involved.

Documents which were seized are said to have revealed plans for blowing up railroads, bridges and arsenals.

CROP REPORTING BOARD SILENT

WASHINGTON, Oct. 29.—In the face of criticism and threats of a congressional investigation of the methods of the crop reporting board in estimating the cotton crop, officials of the department of agriculture today remained silent, refusing to comment on the charge made by Gen. T. H. Caraway (D.) of Arkansas, that the last cotton report "cost southern cotton planters $350,000,000."

Line. Warfield, ahead of all others, saw what was coming and in record time built his new road across Florida, building and extending other lines on the east and west coasts. Luckily for Florida he is still building.

Hughes, former secretary of state, warns the country that it is not providing the railroads it needs. There will be 200,000,000 of us in 50 years, according to Hughes, and the nation should get ready.

The warning is needed, although the flying machine will solve a great part of the problem in less than 50 years. The country needs half a dozen more such men as Warfield, that really build while others talk.

Dr. E. A. Jenkins, of Kansas City, advises clergymen to imitate the Hebrew prophets and P. T. Barnum and advertise. The ancients certainly knew how to attract attention. Daniel in the lions' den, Elijah with his chariot of fire and trained ravens, the pious, incombustible three in the fiery furnace, etc. You could not ignore them.

Dr. Jenkins tells clergymen to select snappier titles for their sermons, imitating newspaper headline writers.

It is not easy, however, to be snappy and reverent at the same time. The Salvation Army does it, Talmadge, Beecher and Spurgeon did it. It is not easy.

Big business gets bigger every month, as it should do. The day of small enterprises is waning with nations competing for world business. The New York Central railroad releases orders for rails in 1926 amounting to 206,745 gross tons.

The Gold Dust company has sold of its product 100,000,000 pounds in the last year. And when you read Judge Gary's statement that steel mills are running at 80 per cent of capacity, remember that the "capacity" is increasing every year.

Business and prosperity in this country have only just begun. For every dollar's worth of enterprises developed there are $1,000 in plain sight, waiting to be developed.

Since Yale university started, 224 years ago, books in the library have doubled in number every 20 years. The total now is 1,390,000 and every year 50,000 books are added, others being put in storage to make room.

This proves that organization and condensation are lacking in education. Buckle is said to have read 60,000 books. Voltaire apologized for his "small" library of 6,000 volumes, each with notes in Voltaire's own hand.

GREEK TROOPS QUIT BULGARIA

PARIS, Oct. 29.—"The Greek evacuation of Bulgarian territory is proceeding normally and we hope to be able to report that Bulgaria has been cleared of Greek soldiers on Friday morning."

This report, received from the French military attache at Belgrade, who has acted as one of the league of nations council investigators on the Bulgarian frontier, was laid before the council when it met this afternoon.

Two Break Legs as They Jump From Burning Building

CLEVELAND, Oct. 29. — Thomas Calvert and his son both suffered broken legs today when they ,with seven others, were forced to jump from the window of a burning building to the ice-covered sidewalk.

The building caught fire while several roomers were still abed and they were forced to the wind-swept street in their night clothes.

RIFFS BOMBARD SPANISH LINES

PARIS, Oct. 29.—Spanish positions dominating the former Riff stronghold of Ajdir were the objective of a violent attack of Riffian tribesmen, according to dispatches received here today. The Riffs were repulsed with heavy losses.

KLAN OPPOSES STATE ISSUES

Ordered to Vote "No" on Proposed Amendments.

COLUMBUS, Oct. 29. — The Ohio Ku Klux Klan vote, estimated by officials of the Invisible Empire to be 250,000 strong, has been ordered thrown against the three proposed amendments to the Ohio constitution.

Grand Dragon Clyde W. Osborn of the realm of Ohio, announced here today that word has gone to every Ohio Klansman to vote "no" on the tax classification, debt limitation and office extender amendments at the election on Nov. 3.

"I believe our action assures the defeat of the three constitutional amendments," said Grand Dragon Osborn.

Wife Takes Poison After Asking Police To Arrest Husband

CLEVELAND, Oct. 29.—Refused a warrant for the arrest of her husband, a wheelsman on an ore boat, on a charge of non-support, Mrs. Frances Bernard, 23, of Chicago, a trained nurse, attempted to commit suicide in the hospital ward at city prison today.

When Mrs. Bernard was told by authorities that her evidence against her husband was insufficient to authorize the warrant, she became violent, authorities said, and declared she would kill him, then threw a paste pot at one of the detectives who had been questioning her. She was placed under arrest.

Mrs. Bernard took a viol of poison from her handbag, and drank part of its contents. The dose, however, was too small to endanger her life, the jail physician said.

Bernard, called by police, visited his wife in the jail. Officers said no reconciliation was effected.

Five-year-old Lad Disappears; Four Cities Aid Search

NEW YORK, Oct. 29.—The whereabouts of five-year-old Frank Mackin, Jr., last seen near his home in West Thirty-ninth street, was as much a mystery as when he disappeared last Sunday night.

Police of four cities—New York, Newark, Jersey City and Hoboken—were conducting a vigorous search for the boy.

A "well dressed, stocky, swarthy-faced man," said by neighbors to have been seen in the boy's company since his disappearance was being sought.

Police released Eugene Hilderbrand, 50, of this city, a retired farmer, after they questioned him and became satisfied he had no connection with the case.

America Protests French Attack on Ancient Damascus

WASHINGTON, Oct. 29. — The American government has lodged an official protest with the French government over the bombardment of Damascus by French artillery and the unnecessary jeopardy to American lives that such a procedure entailed it was admitted today at the state department.

In setting forth its displeasure over the summary action of the French administration in Damascus, the United States has ranged alongside the British government, which also has protested, it is understood.

There are many Americans in Syria, many of them naturalized citizens, but a good many native born.

DEATH ROLL

Leake Funeral Services.

Funeral services for Mrs. Mary Helen Leake, wife of John R. Leake, who died Wednesday at her home, 1011 Ohio avenue, East End, will be held at 2 o'clock tomorrow afternoon in the home of her mother, Mrs. T. W. McCain, 513 Jefferson street. Rev. Freedrick A. Dean, pastor of the Second Presbyterian church will be in charge, assisted by Rev. D. W. MacLeod, pastor of the First Presbyterian church.

Mrs. Leake is survived by her husband, her mother, Mrs. T. W. McCain, one sister, Miss Ethel McCain, and one brother, James Wilbur McCain, of Rochester, Pa. She was a member of the Second Presbyterian church, Tribe of Ben Hur and Ceramic Rebekah Lodge No. 286.

Friends may view the body from 7 to 10 this evening.

John P. Goddard.

John P. Goddard, 47 years old, potter, died yesterday at his home, Wedgewood street, East End, following a long illness of complication of diseases.

He is survived by his wife and two sisters, Mrs. Arthur Stanbach and Mrs. William Sylvester, both of Pittsburgh, Pa.

Funeral services will be held in the home tomorrow afternoon at 2:30. Rev. John Douglass, pastor of the Oakland Free Methodist church, will have charge. Burial will be made in Riverview cemetery.

Friends can view the body this evening.

MOTION PICTURE DIRECTOR JAILED

LOS ANGELES, Oct. 29.—King Baggot, prominent motion picture director, was arrested today by police on charges of being intoxicated, after his wife complained to the authorities. Mrs. Baggot told the officers she wanted Baggot arrested because she feared he would become abusive. William Desmond, screen star, placed $20 bail for Baggot but police said the director would not be released from jail until later in the day.

John Newell won the attendance prize, donated by Charles Pilgrim.

C. C. Cline, chairman of the committee named recently to encourage negotiations between East Liverpool and Wellsville high schools looking toward a resumption of athletic relations, reported that he had taken the matter up with C. J. Vogel, of the Wellsville Kiwanis club and later with Superintendent S. E. Daw, of Wellsville. The Wellsville school head pointed out, Mr. Cline asserted, that a game with Steubenville had already been scheduled for the coming Thanksgiving date.

President Lewis announced that Dr. Percival H. Barker, pastor of the Point Breeze Presbyterian church, of Pittsburgh, known to thousands of radio users, especially, will address the club at next week's meeting.

Discussing the county road bond issue, Van Voorles pointed out particularly that electors of Columbiana county, expressing themselves at the polls Tuesday, will not be voting a lump sum of $950,000 to the commissioners for road building purposes, but merely the authority to expend up to that amount in road building purposes.

This is done, he explained, a job at a time, and under a new law passed in July, bond issues for each road improvement will be passed after the contract is awarded, so that the issue will be for the exact amount of the cost and not merely an estimate.

He also brought to light the fact that the federation had been of great assistance to the traveling public in bringing about state action on the temporary improvement of "The Narrows," the almost impassable piece of the Ohio river road below Yellow Creek.

In referring to the bond issue he asserted that the gaps now unimproved between sections of main highways and improved roads are probably more important than the other sections of the thoroughfares.

And yet, if a husband does say: "Thank you," she thinks he's being sarcastic.—Akron Beacon-Journal.

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting and operations fail?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by C. G. Anderson and druggists everywhere, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It will do the same for you.

Endured Misery of Piles for Years

In Agony Most All the Time—Writes This Grateful Letter.

202 Carolina Street, Buffalo, N. Y. Gentlemen—I was afflicted with the worst case of piles that you can imagine. For years I tried remedy after remedy without obtaining any lasting benefits, and when the Hamadala Pile Tablets were recommended to me I felt it would be only another useless experiment, but I was willing to take another chance as I had got to where I was in agony about all the time.

After I commenced taking the second box I began to see results, and today I am absolutely cured of my trouble, and have almost forgotten that I ever had the piles. Hamadala Tablets have made a new man of me, and I want to do everything I can to bring them to the attention of those who are suffering as I was.

Very truly yours, W. STEDMON.

The Hamadala treatment is an inexpensive internal constitutional treatment for blind, bleeding or protruding piles that comes in tablet form. It is dispensed under refund guarantee by C. G. Anderson, Carnahan's Drug Stores, J. D. Holloway and all good druggists.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

CLIP THIS PROGRAM FOR REFERENCE. TOMORROW

In a recent report of a Bolshevist "Congress of Press Workers' it was disclosed that there were, last year, "about 150,000 newspaper correspondents from the masses of workers and peasants,' and that measures are to be taken to "equip this multitude of new writers for regular and systematic work on the press."

Shouts the Glad Tidings to All Friends!

Grateful Ka-di-ok User Wants All to Know of His Improvement

What a wonderful feeling of gladness and gratefulness enters the minds of those who, after suffering for years, find surcease from all aches and pains in Ka-di-ok, the wonderful herbal tonic and system builder. Read this excerpt from the statement of one of the large army of grateful Ka-di-ok users:

Sold and recommended by all Druggists JOHN R. SNYDER

"For eight years I suffered from indigestion, gas on stomach, poor heart action, kidney trouble, with pains across the back, and calls four and five times every night. From the first Ka-di-ok began to relieve me, and after the second bottle I gained four pounds, have no more trouble at all, and feel like a new man now. I am grateful to Ka-di-ok."—John R. Snyder, 21½ Pine Street, Warren, O.

HUDSON-ESSEX PRICES DROP

Reduction Announced by Dealer Ray R. Birch.

Hudson and Essex cars were substantially reduced in prices in an announcement to the public this week by Ray R. Birch, distributor for the East Liverpool area. No comment was made with the reduction, on the Hudson-Essex theory that the public is more interested in the fad than in explanations.

But the presumption in motor circles was that it is a further step in the aggressive Hudson-Essex program of making their cars available to a still wider circle of buyers.

Along with the reduction in the list price came cuts also in war taxes and other expenses, so that the delivered prices in this city are now even more favorable than the mere reduction in list price would have effected.

"Now the question among automobile men," said Mr. Birch, "is, how does Hudson do it? The public has seen Hudson-Essex make this and other price announcements when least expected. The buyers are asking what there is different about Hudson-Essex manufacturing and selling methods which have made these cuts possible.

"The answer is this: No one method or stunt either in manufacturing or selling can be held responsible. Rather, there is a general cooperation all along the line to make the cars as carefully and as economically as possible, and to merchandise them to the public in the same way.

"Of course Hudson-Essex has basic advantages in being the largest manufacturer of six-cylinder cars in the world and in being the greatest closed car specialists, with over 95 per cent of their volume in this type of business. But these advantages are augmented by so many detailed methods that the reason is highly complicated and many-sided.

"The theory in every department of Hudson-Essex business is that the cars must be continued as 'the world's greatest values'—with this phrase considered as to mere generality but as a truth fully backed by facts."

Watchman Damages Rare Onyx Treasure At National Museum

NAPLES—The Tazza Farnese, an Alextandrian work of the Greek period, and one of the most treasured works of art in the world, has been damaged by a watchman at the National Museum because he was reprimanded for negligence. The watchman struck the cup with an umbrella, but luckily only broke it into two parts, which renders repair possible. Specialists have been summoned from Florence to do the necessary work, and the vindictive watchman has been arrested.

The Tazza Farnese is cut from a single piece of onyx considered the largest in the world. It is decorated with exquisite cameo work. It formerly belonged to the Vatican, but passed into the possession of the Farnese family after many vicissitudes.

Bridge is now being taught by radio. What a splendid alibi that will afford—any poor play can be blamed on static.—Bellefontaine Examiner.

NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

This Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy — Feel Your Very Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleansed and Toned and the System is working normally again.

Why This Gives Relief.

When working as Nature intended your Liver does three things necessary to keep you feeling your best. First, it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your liver becomes sluggish it cannot do these three things; consequently, you suffer from one or more of the symptoms above described.

Share It With Family!

Just to prove to you that you CAN get quick RELIEF, druggists are giving away FREE liberal trial size bottles of Dr. Thacher's Liver and Blood Syrup. It is a syrup of PURELY VEGETABLE ingredients known to Physicians for their CORRECTIVE and HEALTH-BUILDING properties. Each ingredient is chosen to help Nature to cleanse and tone the Liver—to correct this cause of Constipation—to improve Digestion and Appetite—to Nourish and Strengthen the System—to tone the Tired and Overtaxed Nerves, and to send purer, Healthier Blood coursing through your veins

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting and operations fail?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by C. G. Anderson and druggists everywhere, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It will do the same for you.

Endured Misery of Piles for Years

In Agony Most All the Time—Writes This Grateful Letter.

202 Carolina Street, Buffalo, N. Y.

Gentlemen—I was afflicted with the worst case of piles that you can imagine. For years I tried remedy after remedy without obtaining any lasting benefits, and when the Hamadala Pile Tablets were recommended to me I felt it would be only another useless experiment, but I was willing to take another chance as I had got to where I was in agony about all the time.

After I commenced taking the second box I began to see results, and today I am absolutely cured of my trouble, and have almost forgotten that I ever had the piles. Hamadala Tablets have made a new man of me, and I want to do everything I can to bring them to the attention of those who are suffering as I was.

Very truly yours, W. STODMON.

The Hamadala treatment is an inexpensive internal constitutional treatment for blind, bleeding or protruding piles that comes in tablet form. It is dispensed under refund guarantee by C. G. Anderson, Carnahan's Drug Stores, J. D. Holloway and all good druggists.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

HUDSON-ESSEX PRICES DROP

Reduction Announced by Dealer Ray R. Birch.

Hudson and Essex cars were substantially reduced in prices in an announcement to the public this week by Ray R. Birch, distributor for the East Liverpool area. No comment was made with the reduction, on the Hudson-Essex theory that the public is more interested in the fad than in explanations.

But the presumption in mofor circles was that it is a further step in the aggressive Hudson-Essex program of making their cars available to a still wider circle of buyers.

Along with the reduction in the list price came cuts also in war taxes and other expenses, so that the delivered prices in this city are now even more favorable than the mere reduction in list price would have effected.

"Now the question among automobile men," said Mr. Birch, "is, how does Hudson do it? The public has seen Hudson-Essex make this and other price announcements when least expected. The buyers are asking what there is different about Hudson-Essex manufacturing and selling methods which have made these cuts possible.

"The answer is this: No one method or stunt either in manufacturing or selling can be held responsible. Rather, there is a general cooperation all along the line to make the cars as carefully and as economically as possible, and to merchandise them to the public in the same way.

"Of course Hudson-Essex has basic advantages in being the largest manufacturer of six-cylinder cars in the world and in being the greatest closed car specialists, with over 95 per cent of their volume in this type of business. But these advantages are augmented by so many detailed methods that the reason is highly complicated and many-sided.

"The theory in every department of Hudson-Essex business is that the cars must be continued as 'the world's greatest values'—with this phrase considered as to mere generality but as a truth fully backed by facts."

Watchman Damages Rare Onyx Treasure At National Museum

NAPLES—The Tazza Farnese, an Alextandrian work of the Greek period, and one of the most treasured works of art in the world, has been damaged by a watchman at the National Museum because he was reprimanded for negligence. The watchman struck the cup with an umbrella, but luckily only broke it into two parts, which renders repair possible. Specialists have been summoned from Florence to do the necessary work, and the vindictive watchman has been arrested.

The Tazza Farnese is cut from a single piece of onyx considered the largest in the world. It is decorated with exquisite cameo work. It formerly belonged to the Vatican, but passed into the possession of the Farnese family after many vicissitudes.

NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

This Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy — Feel Your Very Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleansed and Toned and the System is working normally again.

Why This Gives Relief.

When working as Nature intended your Liver does three things necessary to keep you feeling your best. First, it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your liver becomes sluggish it cannot do these three things; consequently, you suffer from one or more of the symptoms above described.

Share It With Family!

Just to prove to you that you CAN get quick RELIEF, druggists are giving away FREE liberal trial size bottles of Dr. Thacher's Liver and Blood Syrup. It is a syrup of PURELY VEGETABLE ingredients known to Physicians for their CORRECTIVE and HEALTH-BUILDING properties. Each ingredient is chosen to help Nature to cleanse and tone the Liver—to correct this cause of Constipation—to improve Digestion and Appetite—to Nourish and Strengthen the System—to tone the Tired and Overtaxed Nerves, and to send purer, Healthier Blood coursing through your veins

FREE! This Coupon is Good for One Sample Bottle of Dr. Thacher's Liver & Blood Syrup

If presented before the supply for free distribution is already given away. Read the full details above, then act at once, as this offer is limited. Get a trial size now by presenting this coupon to Carnahan Drug Co., East Liverpool, Ohio.

FIVE BALLOTS TO MARK HERE

Mayoralty Fight Continues to Claim Interest.

Wellsville electors will mark five ballots at the general election on next Tuesday.

They are: Municipal ticket, state amendments, county road bond issue, board of education and the half-mill light levy.

From the standpoint of political interest, chief interest centers on the mayoralty battle with four contestants seeking votes. Mayor James S. Barnes, independent, asks re-election. The Republican candidate is Wallace L. Fogo; the Democratic nominee M. K. Duty and Solicitor George D. Ingram, an independent.

The half-mill tax levy occupies a place of importance, also, in the eyes of voters here. Upon the result of the vote depends, it is said, whether the city will have street lights, inasmuch as the money received from the levy will be necessary to continue the system.

The vote on the three proposed state constitutional amendments and the county road bond issue will be counted first here as elsewhere in the 104 precincts of the county after the polls close Tuesday evening, according to instructions to presiding judges.

Healthy Hair

Gleamy, Thick, Wavy -Full of Life

Modern style in hair dress, particularly constant curling and waving, is slowly burning the color, lustre and very life from the hair, leaving it dry, faded, brittle, streaked with gray; often the hair roots shrink, then the hair falls out fast.

A 35-cent bottle of refreshing, fragrant "Danderine" will do wonders for any girl's hair. This vitalizing beauty-tonic acts on the hair like fresh showers of rain and sunshine act on vegetation. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant.

Try this for one week! While combing and dressing your hair, moisten your hair brush with a little "Danderine" and brush it through your hair—the effect is startling! Your hair immediately takes on new life and that healthy, youthful lustre, becomes incomparably soft, wavy and appears twice as thick and abundant.

I. C. C. HANDS DOWN FREIGHT RULINGS

Two decisions affecting freight rates in the Pittsburgh industrial district have been announced by the interstate commerce commission.

In an award under a complaint brought by the American Shipbuilding company against the director general of railroads and the Baltimore & Ohio railroad, the commission declared rates on iron and steel products from Pittsburgh and nearby shipping points to Cleveland and Lorain, via Youngstown or Wellsville, to be unreasonable to the extent that they exceeded the aggregate of intermediate rates via Youngstown. The ruling applies to shipments from Pittsburgh, Economy, Beaver Falls, Morado and Midland and other points in western Pennsylvania, taking the same or related rates.

In the case of the United Zinc Smelting Corporation against Pennsylvania Railroad, the commission ruled that the rate on coke dust or breeze coke in carloads from Pittsburgh and the Pittsburgh district to Moundsville were unreasonable and fixed the rate at $1.60 per net ton. The complainant was awarded reparation. The new rate was not opposed by the carrier.

In addition, there will be games and contests appropriate to the occasion, the chief feature of which will be the parcel post sale. Refreshments will be served. A small admission fee will be charged.

TO INVESTIGATE MAIL SERVICE

That the postoffice department intends to secure action in the matter of mail service for the lower end of Jefferson county, recently curtailed by the removal of two trains from the C. & P. division is seen in a letter received by Congressman Frank Murphy, of this district, in which an investigation is promised.

Mr. Murphy, several days ago, protested the condition resulting from the removal of the mail service. He addressed a letter to the Second Assistant General, asking that he send an inspector to visit the cities most affected by the change.

W. I. Glover, the official to whom Mr. Murphy wrote, replied that he will have the matter investigated by field officers of the department. He also wrote that especial attention will be given the suggestion that mail service be established over the line of the Steubenville, East Liverpool and Beaver Valley Traction company, in an effort to better the service.

Facts about Child-Birth

FOR the expectant mother's comfort and well being, there is nothing that equals Mother's Friend. Its highly refined oils and other ingredients quickly commends it to the thoughtful mother. It is known that plain oils only penetrate the skin, whereas Mother's Friend penetrates deeper and soothes the broad muscles and ligaments; making them soft and pliable—thus aiding Nature to do her part without the unnecessary discomfort and pain. This is why Mother's Friend has proven such a blessing to expectant mothers for over three generations. Mother's Friend is the formula of an eminent physician. It is safe and free from harmful drugs.

"I will tell all my friends about Mother's Friend," Writes Mrs. Ben Shraham, Princeton, Ill. "It is a wonderful help all through the period."

Needless to say the mothers who praise Mother's Friend the most, are those who did not use it with their first baby and through its use with the second, realized its almost unbelievable results.

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 35, Atlanta, Ga., for free valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—everywhere.

EAGLES TO HOLD BALL TOMORROW

Arrangements have been completed for the masquerade ball to be held tomorrow night in the city hall auditorium under auspices of Eagles' lodge No. 772, of this city.

The ticket sale thus far gives every indication of a large attendance, according to William Dalby, chairman of the committee in charge of the affair.

Prizes will be awarded to the persons wearing the most comic and the best costumes.

Dorsey Mann and his Swanee Serenaders will furnish music for the dancing.

Empire Woman Dead.

Mrs. Jesse Penman Mushrush, aged 48 years, died at the family home in Empire on Tuesday morning at 5 o'clock. The funeral services will be held from her late home on Friday afternoon at 2 o'clock. Canary Saves Man Who Was Overcome By Escaping Gas

NEWARK, N. J.—You can't give a medal to a canary, so all that "Jackie" pet canary of Mrs. Mary Coburn, has is a place in the sun. "Jackie" saved the life of Mrs. Coburn's 80-year-old father-in-law.

When Mrs. Coburn returned to her home at No. 75 Court street from a shopping tour she noted the canary did not welcome her with his customary chirp. Sensing something was wrong she hurried through the house and found her father-in-law overcome by escaping gas.

He was hurried to the hospital and revived.

Finding of Skeleton West of Greenville Causes Speculation

GREENVILLE—Great interest has been aroused by the unearthing of the skeleton of a man in a gravel pit on the Bishop Crossing road, about a mile west of here by James Cashman and his son, Robert.

County authorities who have inspected the bones believe the remains were those of an Indian.

The skeleton was found under a foot of ground and was in perfect alignment when unearthed. The owner of the remains once must have been a powerful man at least seven feet in height, as suggested by the long thigh bones.

The bones had a rusty appearance showing they were buried may years ago.

Dr. Frank Clear, after examining the teeth in the skull, gave it as his opinion that skeleton was that of a man of about 30 years of age. The skull back sharply from the forehead, another evidence that tends to indicate the remains are those af an Indian.

The bones were brought to this city.

Much speculation has been expressed as to whether the Indian was killed in a fight hereabouts during the days when this country was part of the "dark and bloody battleground of the frontier."

To further aid building in Italy, the government has extended to 1928 the regulation that dwellings, hotels, stores and offices aer subject to only a small fraction of the normal tax.

Jesse D. Holloway Offer To All Who Suffer Stomach Agony, Gas and Indigestion

Money Back If One Bottle of Dare's Mentha-Pepsin Doesn't Do You More Good Than Anything You Ever Used.

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and gaspy.

You think perhaps you are suffocating.

You are dizzy and pray for quick relief—what's to be done?

Just one dessert spoonful of Dare's Mentha-Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe deep and naturally.

Oh! What blessed relief; but why not get rid of such attacks altogether? Why have chronic indigestion at all? With this wonderful medicine you can banish indigestion or dyspepsia; catarrh of stomach or any abnormal condition that keeps the stomach in constant rebellion and one bottle will prove it.

And how happy you will be when your stomach is as good as new for then dizziness, nervousness, sleeplessness, headache dull eyes and other ailments caused by a disordered stomach will disappear and you will be your old happy, contented self again. Jesse D. Holloway and every regular pharmacist guarantees one bottle of Dare's Mentha-Pepsin to show the way to stomach comfort.

Over 6,000 bottles sold in one small New Jersey town last year—ask yourself why?

FIVE BALLOTS TO MARK HERE

Mayoralty Fight Continues to Claim Interest.

Wellsville electors will mark five ballots at the general election on next Tuesday.

They are: Municipal ticket, state amendments, county road bond issue, board of education and the half-mill light levy.

From the standpoint of political interest, chief interest centers on the mayoralty battle with four contestants seeking votes. Mayor James S. Barnes, independent, asks re-election. The Republican candidate is Wallace L. Fogo; the Democratic nominee M. K. Duty and Solicitor George D. Ingram, an independent.

The half-mill tax levy occupies a place of importance, also, in the eyes of voters here. Upon the result of the vote depends, it is said, whether the city will have street lights, inasmuch as the money received from the levy will be necessary to continue the system.

The vote on the three proposed state constitutional amendments and the county road bond issue will be counted first here as elsewhere in the 104 precincts of the county after the polls close Tuesday evening, according to instructions to presiding judges.

Healthy Hair

Gleamy, Thick, Wavy -Full of Life

Modern style in hair dress, particularly constant curling and waving, is slowly burning the color, lustre and very life from the hair, leaving it dry, faded, brittle, streaked with gray; often the hair roots shrink, then the hair falls out fast.

A 35-cent bottle of refreshing, fragrant "Danderine" will do wonders for any girl's hair. This vitalizing beauty-tonic acts on the hair like fresh showers of rain and sunshine act on vegetation. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant.

Try this for one week! While combing and dressing your hair, moisten your hair brush with a little "Danderine" and brush it through your hair—the effect is startling! Your hair immediately takes on new life and that healthy, youthful lustre, becomes incomparably soft, wavy and appears twice as thick and abundant.

I. C. C. HANDS DOWN FREIGHT RULINGS

Two decisions affecting freight rates in the Pittsburgh industrial district have been announced by the interstate commerce commission.

In an award under a complaint brought by the American Shipbuilding company against the director general of railroads and the Baltimore & Ohio railroad, the commission declared rates on iron and steel products from Pittsburgh and nearby shipping points to Cleveland and Lorain, via Youngstown or Wellsville, to be unreasonable to the extent that they exceeded the aggregate of intermediate rates via Youngstown. The ruling applies to shipments from Pittsburgh, Economy, Beaver Falls, Morado and Midland and other points in western Pennsylvania, taking the same or related rates.

In the case of the United Zinc Smelting Corporation against Pennsylvania Railroad, the commission ruled that the rate on coke dust or breeze coke in carloads from Pittsburgh and the Pittsburgh district to Moundsville were unreasonable and fixed the rate at $1.60 per net ton. The complainant was awarded reparation. The new rate was not opposed by the carrier.

CHURCH PARTY PLANS COMPLETE

Plans have been perfected for the Hallowe'en party and parcel post sale which will be held Friday evening in the basement of the First Christian church.

The program which will begin at 7:30 o'clock has been arranged as follows:

Selection—Spring's orchestra.
Piano duet—Mary Campbell and Ruth Henthorne.
Reading—Grattan Dugan.
Solo—Betty Piatt.
Trombone and cornet duet—Sherman Spring and son, Francis.
Reading—Doris Maxine Miller.
Orchestra selection.
Ladies' quartet—Mrs. George Crowl, Mrs. T. C. McClelland, Miss Deanie Golden and Mrs. Charles Montgomery.
Reading—Mrs. W. E. Weldon.
Vocal duet—Ludlle Crawford and Ruth Henthorne.

In addition, there will be games and contests appropriate to the occasion, the chief feature of which will be the parcel post sale. Refreshments will be served. A small admission fee will be charged.

TO INVESTIGATE MAIL SERVICE

That the postoffice department intends to secure action in the matter of mail service for the lower end of Jefferson county, recently curtailed by the removal of two trains from the C. & P. division is seen in a letter received by Congressman Frank Murphy, of this district, in which an investigation is promised.

Mr. Murphy, several days ago, protested the condition resulting from the removal of the mail service. He addressed a letter to the Second Assistant General, asking that he send an inspector to visit the cities most affected by the change.

W. I. Glover, the official to whom Mr. Murphy wrote, replied that he will have the matter investigated by field officers of the department. He also wrote that especial attention will be given the suggestion that mail service be established over the line of the Steubenville, East Liverpool and Beaver Valley Traction company, in an effort to better the service.

Facts about Child-Birth

FOR the expectant mother's comfort and well being, there is nothing that equals Mother's Friend. Its highly refined oils and other ingredients quickly commends it to the thoughtful mother. It is known that plain oils only penetrate the skin, whereas Mother's Friend penetrates deeper and soothes the broad muscles and ligaments; making them soft and pliable—thus aiding Nature to do her part without the unnecessary discomfort and pain. This is why Mother's Friend has proven such a blessing to expectant mothers for over three generations. Mother's Friend is the formula of an eminent physician. YESTERDAY'S PUZZLE ANSWERED

Says--Now Stiff Joints Must Go!

New Discovery Limbers 'Em Up and Even the Creaking Ceases.

Yes; it's true—the world progresses. All you have to do nowadays to limber up that old stiff, creaky knee joint is to squeeze a half inch of miracle-working substance from a tube.

Then rub it on the offending part for about a quarter of a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspaper and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease: They call this wonder-working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, stainless prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in knee, elbow, ankle, hip, shoulder, spine or finger, and for that purpose its sale, at 60 cents a tube, is immense.

All druggists sell dozens of tubes of it every week, and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint agony gets out—quick.

Radio Information On Weather Means Dollars to Farmer

NEW YORK.—Information obtained over the radio means dollars and cents to the farmer, said General J. G. Harbord.

"Weather reports are very valuable when perishable crops are being gathered," asserted Gen. Harbord. "Then there are many uses of radio broadcasting in connection with the securing of labor in time of scarcity; in coping with epidemic among farm animals; in battling against insect pests; in furthering the mission of farmers' organizations, and in developing better methods of farming.

"In rush seasons broadcasting may well call attention to the availability of labor supply. It may contribute to the fluidity of such supply by enabling one region to draw on the labor surplus of another."

TAX INJUNCTION CASE IS HEARD

Actions Instituted by Big Gas Companies Before Court.

A section of the gross sales tax law saying injunctions to restrain its operation shall not be granted except on certain conditions, furnished the stumbling block yesterday in arguments on the petition of three natural gas companies for such an injunction.

The cases, brought by the Hope Natural Gas company, the Reserve Gas company and the United Fuel Gas company, were before Judge Morgan Owen of the common pleas court of Kanawha county on motion of the companies for a temporary injunction to restrain State Tax Commissioner Grant P. Hall and Attorney General Howard B. Lee from enforcing the provisions of the business-profession or gross sales tax against those companies. During the arguments H. D. Rummell, speaking for the three companies, contended the act was unconstitutional under both federal and state constitutions, while T. C. Townsend and Fred O. Blue, special counsel for the state, argued that the occasion did not call for a temporary injunction.

"No injunction shall be awarded by any court or judge to restrain the collection of the taxes imposed by this or any part of them due from any person upon the ground that the assessment thereof was in violation of the constitution of the United States, or of this state, or that the same were fraudulenly assessed, or that there was a mistake made in the amount of taxes assessed upon such persons," reads a paragraph of section 10 of the act, upon which Judge Owen asked further enlightenment.

The court inquired of Mr. Blue whether he understood that granting of an injunction would prevent collection on the assessments at the present time and the state counsel pointed out that the gas companies in this case announce that they do not intend to make the required returns to the tax commissioner and that assessment of the tax does not come until after the time for making the returns, Mr. Rummell, however, replied that the companies charge the act invades their constitutional rights and that therefore even had the act forbidden all injunctions, the provision would be void as depriving them of due process of law.

Millions of Dead Fish Delay Ship at Sea

Tampa, Fla.—Millions of dead fish covered the surface of the water for more than 20 miles between Manasopo and Boca Grande recently, causing the steamer Royal Palm, en route from Fort Myer to Tampa, to reduce its speed and arrive in this port several hours late. Ship officers immediately reported the matter to the federal authorities, and an investigation is being made.

Lamar Walker, first assistant engineer of the Royal Palm, said the surface of the water about eight to ten miles offshore was clogged with dead fish, ranging from small minnows to large groupers. The officers expressed the belief that dynamite might have been used.

Navy Feels It Has Even Chance With Strong Michigan Team

CHAPPIE FINLEY TOPS CITY LEAGUE HITTERS

Diminutive K. T. K. Shortstop Clouts Horsehide for Mark of .402 in 39 Industrial Loop Battles; A. Bayley Finishes Second With .359; "Buck" Wilson and Briggle Show Power With Stick in Games They Played.

CHAPPIE FINLEY, diminutive, but sturdy shortstop of the K. T. K. team, who, for a number of seasons, has been taking down honors in industrial baseball circles, was the City Industrial league's premier hitter for 1925, with a mark of .402 in 39 contests. He had 41 safe swats in his 102 times at bat, and scored 25 runs, according to T. T. Jones, league statistician.

Because the game did not go the requisite number of innings to be regarded as a contest, Finley lost a perfect record with home run laurels to top it off, when, off M. Cebula at Columbian park, he landed two safe drives in two chances.

In addition to his general clubbing leadership, he topped his rivals in two-baggers by a wide margin, headed the triple column and was tied with five others in having two home runs.

Finley, apparently following the belief of Hans Wagner and Roger Peckinpaugh that shortstops are supposed to have more errors than any other player on the club, came through with the most miscues of the season.

His record shows him second in total hits made and assists, and fourth in run getting. All in all, the sometimes fiery and impetuous young infielder stands out as an impressive performer of the national pastime.

Whether Finley would have come through with the distinction that is now his had Raymond Buzzard, B. & W. star, who now belongs to the Cleveland Americans, played regularly, is problematical. For this brilliant Klondyke lad had a better percentage than Finley with .423 mark. But he played in only 11 games.

And the veteran "Buck" Wilson, Laughlin backstop, in nine games clubbed out a .438 figure during the dog days of the season. Briggle, of Laughlin, in six games of the first half, smote the ball at a .456 clip.

And seven others, playing in one or two games, hit .500 and 1.000. But, of course, they infringe in no wise upon the honor role of the ubiquitous Newell lad.

Second honors belong rightfully to A. Bayley, of Trotter, with a .359 mark in 39 games. Indeed, the auto gardener beat Finley in total number of hits, with 42, to the potter's 41.

A. Bayley came along strong during the second period. He faltered in the trying moments of the crucial race and failed to connect safely in three games, which fact, perhaps, cost his club first place and himself the personal triumph of leading his fellow players with the bludgeon. But his hefty stick did yeoman service, notwithstanding his temporary slump. His work at bat, in the field and on the paths was above par all season.

Tabulations for third place in the biffing column go to the brilliant Chester captain, L. McMath, who finished with .344 in 34 games. The second sacker was out of the lineup for several contests in the second half due to a bad foot. McMath swatted exactly .300 in 13 games of the first section and an even .400 in 16 contests of the second.

He was up 50 times in the initial period and smashed out 15 safe drives. In the second half he gathered in 16 bingles in 40 attempts.

Moran, of Laughlin, may have led all, had he played the entire season. He was in 19 games of the second time of play and laced out 21 hits in 55 times at bat for a mark of .382, which was quite a bit of stick work, too.

And Reese, the ant reliable pitcher, of Laughlin, had no mean record. In 16 games of both halves he bingled out a mark of .394. He had 13 safe whacks in 33 chances. His work is another reason for Laughlin leading the league at bat.

Myers, of Laughlin, was right behind McMath, with .341, the result of 29 swats in 85 efforts out of 29 contests.

Simcox, K. T. K. infielder, was next to Myers with .336.

The leading hitters of each club were: Chester, L. McMath, .344; Laughlin, Myers, .341; K. T. K., Finley, .402; Trotter, A. Bayley, .359; B. & W., R. Manning, .342.

Perhaps the greatest splurge in batting during the second half was made by F. and C. Marshall of the Chester team. In the initial section the former hit at a .211 clip, but made it .280 in the second. The latter hit .259 in the first half and .317 in the second. And another who spurted in the last section was E. Bayley, of Trotter, who laced 'em out for .333 as against .217 in the first period.

Shaw, playing second and doing backstop work, went through the entire season with but three errors. These he made in two games. In the first half he had two miscues on June 23, and then he played accurately until August 27, when he erred once.

The best run getter in the circuit was E. Bayley, of Trotter, who scored 30 times, with Parsons, of the same club, second with 27, and McShane, of K. T. K., third with 26.

For putouts, the honors go to Merchant, of K. T. K., with 165, followed by Dustman, of K. T. K. and Wellsville, with 161, while McGeehan, of B. & W., was third with 152.

E. Bayley led in assists, with 83; Finley, K. T. K., led in errors, with 26, led in triples with seven, topped the two bag hitters, with 12, and tied with Simcox, McGonigal, McGeehan, Heckathorne and M. Cebula with home runs, each having two.

A. Bayley was the premier base stealer of the circuit. He swiped 17 and McShane, of K. T. K., and E. Bayley, of Trotter, second with 14.

J. Strobel and Parsons of Trotters were first and second in the matter of free transportation to first, the former walking 25 times and the latter 18.

The annual all-star hitting club composed of players in 25 or more games would size up as follows:

Catchers—DeLong, Laughlin, .279 and W. McMath, Chester, .273.

Pitchers—Pollock, Trotter .301; Salnor, K. T. K. and McGeehan, B. & W., .280 and M. Cebula .278.

First base—Jackson, Chester .315; second base—L. McMath, Chester .344; third base—Myers, Laughlin .341; left field—R. Manning, Wellsville .324; middle field—A. Bayley, Trotter .354; right field—Tisher, Laughlin .327. Substitute infielders would include P. Cebula, Chester .308, and utility gardener, C. Marshall, Chester .309.

This tar fielding club of the circuit would include: Catcher—Shaw, K. T. K. .977; W. McMath, Chester .968; pitchers—Riser, Laughlin 1.000; Stofel, K. T. K. 1.000; Bucher, K. T. K. 1.000; M. Cebula, Chester .967.

First base—W. Mundy, Chester .988; or Heckathorne, Trotter .986; second base—Sayers, Laughlin .957; third base—Myers, Laughlin .899; left field—Pager, Wellsville 1.000; middle field—H. Strobel, Laughlin 1.000; right field—Young, K. T. K., 1.000.

MIDDIES SHOW REAL ATTACK

Fullback Shapley Develops Into Great Ground Gainer.

(This is the ninth of a series of articles by Davis J. Walsh on some of the leading football teams of the east and middle west. Others will follow.)

By Davis J. Walsh.

BALTIMORE, Md., Oct. 29.—"We think we have something,' said Jack Owsley this morning as the Navy made ready to entrain for Ann Arbor for the intersectional game with Michigan on Saturday. "Yes, Sir. We think we have something."

Nothing original about this. From time to time, various people have thought they had something and some of them proved to be right. They had diphtheria. However, Mr. Owsley thinks he has a first class football team.

It has been Mr. Owsleys first chance to do much thinking of any kind and he is making the most of it. For years, he had been called the unseen force behind Yale football and his appointment to the Naval academy this season afforded him the opportunity to come into the open for the first time.

The result was of mutual beneficience. The Navy gave Owsley 750 men playing football and a lot of them were big, fast and altogether adequate. Owsley, in turn, has given the Navy an attack for the first time in years, using his adaptation of the Yale system with Folwell's Pennsylvania defense as a ground work.

Navy Has Answer.

In consequence, a lot of push-overs have been thoroughly pushed over during the early season and the single big game with Princeton ended in a tie. Not the most impressive record on the books, yet the Navy has an answer.

It says the team was "short" for the Princeton affair, yet should have won by two touchdowns on the run of the game.

"Just an off day," Owsley declared. "But that tie was the best thing that could have happened to us. It convinced the boys that everything is not bedded down with rose petals."

The Navy also says that it only wantedto win two games, anyhow. The other one is with Michigan.

Rated as the best team in the conference, the Wolverines have been more heavily scouted than the Army to date and the middies apparently think they have seen enough to convince them that they have at least an even chance in the west.

Owsley Shows Results.

Eastern football critics seem to agree with them. There is little doubt that prevalent opinion is to the effect that Owsley has taken over a competitive pomeranian and made it into a competitive wolfhound.

Players like Lentz, at guard, Shapley at fullback, Hamilton at quarterback, and Banks and Flippin at the halfbacks, have been around and about for some time without getting anywhere—until the present season. This has seen Shapley develop into one of the best running and kicking backfield men in this section with Flippin, a former Center college man of slight repute, also coming along to his best.

There is no outstanding line plunger in this quartet but the foundation of a staunch Navy running attack off tackle was laid at Annapolis some years ago by Bob Folwell. To this Owsley has added deception and, in consequence, Shapley and Flippin have come into their own.

Reserve Material Strong.

Lentz, an ex-Rutgers man, probably will never be any better than he is but his running mate, Edwards, has remarkable possibilities. He is surprisingly fast for a big man, giving Caulkins, Princeton quarterback, a running start and then catching him in the open field. Bernstein and Eddy, tackles, and Hardwick and Bernet, ends, have come on very rapidly in recent weeks and right now are said to be as good as the next and better than most.

Wittenberg Squad is Weakened by Injuries

SPRINGFIELD, Oct. 28.—What with goblins and legendary witches frolicking Hallowe'en, Wittenberg's football team Saturday will engage Wesleyan at Delaware in the sixth conference game of the season for Coach E. R. Godfrey's Lutherans.

Sad the truth may be, but it is well known in the Cardinal headquarters: Whatever Godfrey's green team has profited by experience, the team has lost in injuries.

DEMPSEY DOES OWN TALKING

Speaks to Students in Mexico City Schools.

MEXICO CITY, Oct. 29.—Jack Dempsey appeared in the new role of self-spokesman and self-manager today, then went into retirement in an ancient hacinda where he may be free from the attention of crowds and can do intensive training for his exhibition bouts here. Three sparring partners will absorb the energy he put into his training.

Before his retirement, the American heavyweight went before the American and British schools and addressed the pupils on sports. His change since he undertook his own management was a matter of comment to his friends here.

The fighter appeared to quite good advantage as a talker in his extemporaneous speeches before the school children.

"There's no reason why a fighter with ability to reach the top should have somebody to do his talking and thinking for him,' he explained afterward. "I am manager of the Dempsey firm now and I find that I get along better that way.'

Joerner at center is very steady and by some is said to be the keystone of the defense.

The strength of the line, however, seems to be found in the number and quality of its secondary men. Williamson and Kaufman being rated almost on a par with Hardwick at one end position, while Truslow and Kirk have been battling Bernstein for the old tackle post right merrily. Incidentally, Cross is making Lentz step out with his best in order to hold his place at gard.

All in all, it should be quite a spacious occasion at Ann Arbor on Saturday.

SMITHS TRIM E. M. KNOWLES

News Duckpin Squad Cops Two Out of Three Games.

Leading their rivals in total pins and games, the Smith News quint of the Industrial Duckpin league last night copped their opening performance at the Liberty alleys, defeating the E. M. Knowles squad, which, however, was weakened to some extent by the absence of regulars.

The News bowlers went over the 600 mark in the first two games, copping by easy margins, but slackened up in the windup tilt and the E. M. Knowles quintet spurted to win this one by an edge of 118 pins.

Smith, of Knowles, barely got over the 100 mark in the opening frame, but wound up strong with a score of 166, which was good for high.

Gilchrist led the Smith News attack, banging the pins for a total count of 405 in the three games. He finished three pins ahead of Smith for high average.

Pollock mowed them down desperately in an effort to nudge the 400 mark, but fell short four pins. The star pitcher of the Trotter Industrial baseball club mixed up his offerings, using, instead of the fast one he sizzles across in the summer time, a tantalizing curve that kept the hardwood bouncing.

The effect of Herbert's whistle from the foul line was very disconcerting to Scoops Cunningham, especially in the final frame. Scoops, after rolling 112 and 123, fell away to a meagre 61, and as a result his total dropped below the desirable 300 ranking.

NEW YORK, Oct. 29.—Coupled with the announcement that Jim Thorpe had been released by the New York Professional Football club because of failure to get into condition was coupled with the disclosure that the famous Indian athlete had wed for the second time. His bride is Miss Freda Kirkoatrick, of Endicott, W. Va.

MAJORS MUST WAIVE ON PITTSBURGH PLAYERS

EAST LIVERPOOL baseball fans are more or less interested in the deal between the Pittsburgh National league club and the San Francisco Pacific Coast team in which Waner and Rhyne, coast sluggers, are to go to the Smoky City as a part of the obvious plan of the world's champions to strengthen the outfit for the 1926 campaign.

It was at first reported that the Pirates were to part with Second Baseman Eddie Moore, Pitcher Culloton, Outfielder Carson Bigbee and a cash payment in return for the coast players.

However, before either Moore or Bigbee can go to the minor league organization, they must first be waived on by the 15 other major league clubs. This has not been done, and according to Owner Barney Dreyfuss of the Pittsburgh club, no immediate steps have been taken toward this end.

According to Dreyfuss, there is an $83,000 agreement with the San Francisco club, and under terms of the agreement there will be no payment of any kind until Dec. 15, 1926, when the Pittsburgh club can ask for waivers on players or pay over the cash.

No major league club can interfere with the release of a 10-year player, but none of the Pittsburgh trio can be classifield as such.

Inasmuch as the transaction will not be completed until December of next year, Manager Bill McKechnie will have ample time to pass on the major league ability of both Waner and Rhyne.

BROTHERS on the same college football eleven are not uncommon. This year Harvard has its Bradford twins. Bucknell has its Earl and Myrl Goodwin.

But Iowa State probably has the most distinguished pair—from the standpoint of value to the team. They are the Behm boys of Cleveland, O. John Behm captains the team and stars at quarter. His brother, Norton, plays lefthalf.

Johnnie is rated as one of the greatest broken field runners in the Missouri valley conference, if not in the west in general. His brother, Norton, drew almost nation-wide attention last year by tearing off an 80-yard run against the powerful Minnesota eleven.

NORTON BEHM SAM WILLAMAN CAPT. JOHNNIE BEHM

By an odd coincidence these two lads were the mainstays of a Cleveland coached team. Sam Willaman, tutor of the Iowa Staters, was coach at East Tech high school, Cleveland, before joining the Iowa institution. It was at East Tech that the Behm boys learned their football under Willaman's diligent tutoring.

"Spike" Nave, another member of the team, is also a Cleveland product.

And Willaman, by the way, to go back still further in his football history, is a Columbiana county product, with Salem claiming the honors. A connection may be seen in the report that "Slippery" Seeds, one-time Salem high school halfback and erstwhile backfield star for the Toronto Tigers, was to show Willman his gridiron ability.

Navy Feels It Has Even Chance With Strong Michigan Team

CHAPPIE FINLEY TOPS CITY LEAGUE HITTERS

Diminutive K. T. K. Shortstop Clouts Horsehide for Mark of .402 in 39 Industrial Loop Battles; A. Bayley Finishes Second With .359; "Buck" Wilson and Briggle Show Power With Stick in Games They Played.

CHAPPIE FINLEY, diminutive, but sturdy shortstop of the K. T. K. team, who, for a number of seasons, has been taking down honors in industrial baseball circles, was the City Industrial league's premier hitter for 1925, with a mark of .402 in 39 contests. He had 41 safe swats in his 102 times at bat, and scored 25 runs, according to T. T. Jones, league statistician.

Because the game did not go the requisite number of innings to be regarded as a contest, Finley lost a perfect record with home run laurels to top it off, when, off M. Cebula at Columbian park, he landed two safe drives in two chances.

In addition to his general clubbing leadership, he topped his rivals in two-baggers by a wide margin, headed the triple column and was tied with five others in having two home runs.

Finley, apparently following the belief of Hans Wagner and Roger Peckinpaugh that shortstops are supposed to have more errors than any other player on the club, came through with the most miscues of the season.

His record shows him second in total hits made and assists, and fourth in run getting. All in all, the sometimes fiery and impetuous young infielder stands out as an impressive performer of the national pastime.

Whether Finley would have come through with the distinction that is now his had Raymond Buzzard, B. & W. star, who now belongs to the Cleveland Americans, played regularly, is problematical. For this brilliant Klondyke lad had a better percentage than Finley with .423 mark. But he played in only 11 games.

And the veteran "Buck" Wilson, Laughlin backstop, in nine games clubbed out a .438 figure during the dog days of the season. Briggle, of Laughlin, in six games of the first half, smote the ball at a .456 clip.

And seven others, playing in one or two games, hit .500 and 1.000. But, of course, they infringe in no wise upon the honor role of the ubiquitous Newell lad.

Second honors belong rightfully to A. Bayley, of Trotter, with a .359 mark in 39 games. Indeed, the auto gardener beat Finley in total number of hits, with 42, to the potter's 41.

A. Bayley came along strong during the second period. He faltered in the trying moments of the crucial race and failed to connect safely in three games, which fact, perhaps, cost his club first place and himself the personal triumph of leading his fellow players with the bludgeon. But his hefty stick did yeoman service, notwithstanding his temporary slump. His work at bat, in the field and on the paths was above par all season.

Tabulations for third place in the biffing column go to the brilliant Chester captain, L. McMath, who finished with .344 in 34 games. The second sacker was out of the lineup for several contests in the second half due to a bad foot. McMath swatted exactly .300 in 13 games of the first section and an even .400 in 16 contests of the second.

He was up 50 times in the initial period and smashed out 15 safe drives. In the second half he gathered in 16 bingles in 40 attempts.

Moran, of Laughlin, may have led all, had he played the entire season. He was in 19 games of the second time of play and laced out 21 hits in 55 times at bat for a mark of .382, which was quite a bit of stick work, too.

And Reese, the all reliable pitcher, of Laughlin, had no mean record. In 16 games of both halves he bingled out a mark of .394. He had 13 safe whacks in 33 chances. His work is another reason for Laughlin leading the league at bat.

Myers, of Laughlin, was right behind McMath, with .341, the result of 29 swats in 85 efforts out of 29 contests.

Simcox, K. T. K. infielder, was next to Myers with .336.

The leading hitters of each club were: Chester, L. McMath, .344; Laughlin, Myers, .341; K. T. K., Finley, .402; Trotter, A. Bayley, .359; B. & W., R. Manning, .342.

Perhaps the greatest splurge in batting during the second half was made by F. and C. Marshall of the Chester team. In the initial section the former hit at a .211 clip, but made it .280 in the second. The latter hit .259 in the first half and .317 in the second. And another who spurted in the last section was E. Bayley, of Trotter, who laced 'em out for .333 as against .217 in the first period.

Shaw, playing second and doing backstop work, went through the entire season with but three errors. These he made in two games. In the first half he had two miscues on June 23, and then he played accurately until August 27, when he erred once.

The best run getter in the circuit was E. Bayley, of Trotter, who scored 30 times, with Parsons, of the same club, second with 27, and McShane, of K. T. K., third with 26.

For putouts, the honors go to Merchant, of K. T. K., with 165, followed by Dustman, of K. T. K. and Wellsville, with 161, while McGeehan, of B. & W., was third with 152.

E. Bayley led in assists, with 83; Finley, K. T. K., led in errors, with 26, led in triples with seven, topped the two bag hitters, with 12, and tied with Simcox, McGonigal, McGeehan, Heckathorne and M. Cebula with home runs, each having two.

A. Bayley was the premier base stealer of the circuit. He swiped 17 and McShane, of K. T. K., and E. Bayley, of Trotter, second with 14.

J. Strobel and Parsons of Trotters were first and second in the matter of free transportation to first, the former walking 25 times and the latter 18.

The annual all-star hitting club composed of players in 25 or more games would size up as follows:

Catchers—DeLong, Laughlin, .279 and W. McMath, Chester, .273.

Pitchers—Pollock, Trotter .391; Salnor K. T. K. and McGeehan, B. & W., .280 and M. Cebula .278.

First base—Jackson, Chester .315; second base—L. McMath, Chester .344; third base—Myers, Laughlin .341; left field—R. Manning, Wellsville .324; middle field—A. Bayley, Trotter .354; right field—Tisher, Laughlin .327. Substitute infielders would include P. Cebula, Chester .308, and utility gardener, C. Marshall, Chester .309.

This far fielding club of the circuit would include: Catcher—Shaw, K. T. K. .977; W. McMath, Chester .968; pitchers—Riser, Laughlin 1.000; Stofel, K. T. K. 1.000; Pucher, K. T. K. 1.000; M. Cebula, Chester .967.

First base—W. Mundy, Chester .988; or Heckathorne, Trotter .986; second base—Sayers, Laughlin .957; third base—Myers, Laughlin .899; left field—Pager, Wellsville 1.000; middle field—H. Strobel, Laughlin 1.000; right field—Young, K. T. K., 1.000.

Thorpe Fired, Wed.

NEW YORK, Oct. 29.—Coupled with the announcement that Jim Thorpe had been released by the New York Professional Football club because of failure to get into condition was coupled with the disclosure that the famous Indian athlete had wed for the second time. His bride is Miss Freda Kirkoatrick, of Endicott, W. Va.

MAJORS MUST WAIVE ON PITTSBURGH PLAYERS

EAST LIVERPOOL baseball fans are more or less interested in the deal between the Pittsburgh National league club and the San Francisco Pacific Coast team in which Waner and Rhyne, coast sluggers, are to go to the Smoky City as a part of the obvious plan of the world's champions to strengthen the outfit for the 1926 campaign.

It was at first reported that the Pirates were to part with Second Baseman Eddie Moore, Pitcher Culloton, Outfielder Carson Bigbee and a cash payment in return for the coast players.

However, before either Moore or Bigbee can go to the minor league organization, they must first be waived on by the 15 other major league clubs. This has not been done, and according to Owner Barney Dreyfuss of the Pittsburgh club, no immediate steps have been taken toward this end.

According to Dreyfuss, there is an $83,000 agreement with the San Francisco club, and under terms of the agreement there will be no payment of any kind until Dec. 15, 1926, when the Pittsburgh club can ask for waivers on players or pay over the cash.

No major league club can interfere with the release of a 10-year player, but none of the Pittsburgh trio can be classifield as such.

Inasmuch as the transaction will not be completed until December of next year, Manager Bill McKechnie will have ample time to pass on the major league ability of both Waner and Rhyne.

BROTHERS on the same college football eleven are not uncommon. This year Harvard has its Bradford twins. Bucknell has its Earl and Myrl Goodwin.

But Iowa State probably has the most distinguished pair—from the standpoint of value to the team. They are the Behm boys of Cleveland, O. John Behm captains the team and stars at quarter. His brother, Norton, plays lefthalf.

Johnnie is rated as one of the greatest broken field runners in the Missouri valley conference, if not in the west in general. His brother, Norton, drew almost nation-wide attention last year by tearing off an 80-yard run against the powerful Minnesota eleven.

NORTON BEHM SAM WILLAMAN CAPT. JOHNNIE BEHM

By an odd coincidence these two lads were the mainstays of a Cleveland coached team. Sam Willaman tutor of the Iowa Staters, was coach at East Tech high school, Cleveland, before joining the Iowa institution. It was at East Tech that the Behm boys learned their football under Willaman's diligent tutoring.

"Spike" Nave, another member of the team, is also a Cleveland product.

And Willaman, by the way, to go back still further in his football history, is a Columbiana county product, with Salem claiming the honors. A connection may be seen in the report that "Slippery" Seeds, one-time Salem high school halfback and erstwhile backfield star for the Toronto Tigers, was to show Willman his gridiron ability.

Compare ... these Better BUICK Sedans with "Coaches"

These finer closed cars are built on the famous Buick chassis with the 21-year-proved, 60 and 75 horsepower Buick Valve-in-Head engines. Extra power!

And they have the famous "Sealed Chassis" and the new "Triple Sealed Engine." No other car, regardless of price, furnishes this completeness of protection for driving parts.

And these Buicks have the characteristic Buick charm of body profile. They are finished in Duco. They seat five full-grown people in roomy comfort. They have the Fisher VV one-piece, ventilating windshield, automatic windshield wiper, and a host of like necessities. Buick's exacting closed car standards prevail in their Fisher-built bodies.

Come in and see how much superior these Better Buick Sedans are to "Coaches", before you spend your money!

PANTHERS WILL QUIT BASEBALL

PITTSBURGH, Pa., Oct. 28. — The University of Pittsburgh has decided to abolish baseball as a varsity sport, formal action just having been taken by the university athletic council. The reason for abolishing baseball was that is was found impossible to arrange a schedule. When the Pitt stadium was constructed it was decided to try to boost baseball, playing the games in the stadium, which provided an excellent field. As there were few teams in the western Pennsylvania district which supported baseball, communications were sent to every school within a radius of 400 or 500 miles, asking them to take trips into the Pittsburgh district. It was impossible to get any of these teams on the schedule; the month of May being a poor time for college teams to go on the road. A schedule was finally arranged consisting of about 14 games, four with West Virginia, four with Carnegie Tech and two with Penn State as the nucleus. The bottom dropped out of the entire baseball situation when Carnegie Tech announced its intention of giving up baseball. This took four games away from the very meagre schedule, and when the facts were presented to the athletic council, it was decided it was foolhardy to try and continue the sport.

With baseball abolished, special attention will be given to the development of lacrosse and track during the spring. The Pitt stadium provides a wonderful quarter-mile track and 220 straightaway and with Frank J. Shea of 47 3-5 second quarter mile fame as coach, the Panthers will eventually be a national figure in that very important branch of intercollegiate athletics. Shea had 150 men out for the track team last year, even with the poor facilities furnished. It is expected to have the crowd increased to 400 or 500 for this spring.

Welter Champ Wins.

COLUMBUS, Oct. 29.—Jack Reynolds, world's welterweight wrestling champion, defeated Bobby Roscoe in a two-fall match here Wednesday night. Reynolds won the first fall in 22 minutes with the crab hold and the other in 21 minutes using a reverse headlock.

George Walker, Canadian heavyweight, outwrestled George Eckter, 215 pound European wrestler who failed to carry out his promise to throw Walker and Eugene Poquette in 30 minutes.

Yale Tackle Injured.

NEW HAVEN, Conn., Oct. 29.—Ben Butterworth, Yale right tackle, was injured in yesterday's scrimmage and probably will be unable to play Saturday in the Army game.

Daring Woman Spans Darkest Africa Alone

Mrs. Delia J. Akeley, of Brooklyn Museum of Arts and Sciences, is first white woman to cross darkest Africa alone. With only credentials and travel papers she entered the jungle at Kasinyi, on Lake Albert, arriving at Matadi, on Congo river, with three of her 12 cartridges left and five specimens of jungle animals unknown to science.

PANTHERS WILL QUIT BASEBALL

PITTSBURGH, Pa., Oct. 28. — The University of Pittsburgh has decided to abolish baseball as a varsity sport, formal action just having been taken by the university athletic council. The reason for abolishing baseball was that is was found impossible to arrange a schedule. When the Pitt stadium was constructed it was decided to try to boost baseball, playing the games in the stadium, which provided an excellent field. As there were few teams in the western Pennsylvania district which supported baseball, communications were sent to every school within a radius of 400 or 500 miles, asking them to take trips into the Pittsburgh district. It was impossible to get any of these teams on the schedule; the month of May being a poor time for college teams to go on the road. A schedule was finally arranged consisting of about 14 games, four with West Virginia, four with Carnegie Tech and two with Penn State as the nucleus. The bottom dropped out of the entire baseball situation when Carnegie Tech announced its intention of giving up baseball. This took four games away from the very meagre schedule, and when the facts were presented to the athletic council, it was decided it was foolhardy to try and continue the sport.

With baseball abolished, special attention will be given to the development of lacrosse and track during the spring. The Pitt stadium provides a wonderful quarter-mile track and 220 straightaway and with Frank J. Shea of 47 3-5 second quarter mile fame as coach, the Panthers will eventually be a national figure in that very important branch of intercollegiate athletics. Shea had 150 men out for the track team last year, even with the poor facilities furnished. It is expected to have the crowd increased to 400 or 500 for this spring.

Welter Champ Wins.

COLUMBUS, Oct. 29.—Jack Reynolds, world's welterweight wrestling champion, defeated Bobby Roscoe in a two-fall match here Wednesday night. Reynolds won the first fall in 22 minutes with the crab hold and the other in 21 minutes using a reverse headlock.

George Walker, Canadian heavyweight, outwrestled George Eckter, 215 pound European wrestler who failed to carry out his promise to throw Walker and Eugene Poquette in 30 minutes.

Yale Tackle Injured.

NEW HAVEN, Conn., Oct. 29.—Ben Butterworth, Yale right tackle, was injured in yesterday's scrimmage and probably will be unable to play Saturday in the Army game.

Daring Woman Spans Darkest Africa Alone

Mrs. Delia J. Akeley, of Brooklyn Museum of Arts and Sciences, is first white woman to cross darkest Africa alone. With only credentials and travel papers she entered the jungle at Kasinyi, on Lake Albert, arriving at Matadi, on Congo river, with three of her 12 cartridges left and five specimens of jungle animals unknown to science.

Battery Important In Hearing Range Of Radio Receiving

According to an executive of one of the companies most extensively interested in the new art of giving entertainment, instruction and news by means of the wireless telephone, one of the commonest of questions is: "Over how great a distance can this music be heard?"

"We all admit," said this experienced radio man, "that there is much we do not know about radio telephony, and the distance our concerts travel without becoming inaudible is one of them."

Because of the great importance of the battery in this field, there have been special types of batteries built, which are different from the ordinary automobile storage battery as the automobile battery is different from one used to supply current for the lighting of Pullman cars. One of these special Radio batteries known as the All-Rubber Battery is the product of the Willard Storage Battery company and is sold by the Tri-State Battery company. This battery is entirely contained in a one-pieced rubber case, which effectively prevents the leakage of current and therefore stops all ground noises. of the well-known Threaded Rubber The insulators between the plates are type, which permit each part of every plate to do an equal portion of the work of supplying current and thereby prevent what is known as "spotting" or the wearing out of one portion while the rest of the plate is in good condition. Because of these improvements and the consequent addition to quiet operation, the hearing range of a radio receiving set is considerably increased.

The dress styles used to come out of New York, but now they seem to originate in the "Show Me" state.—Canton News.

Battery Important In Hearing Range Of Radio Receiving

According to an executive of one of the companies most extensively interested in the new art of giving entertainment, instruction and news by means of the wireless telephone, one of the commonest of questions is: "Over how great a distance can this music be heard?"

"We all admit," said this experienced radio man, "that there is much we do not know about radio telephony, and the distance our concerts travel without becoming inaudible is one of them."

Because of the great importance of the battery in this field, there have been special types of batteries built, which are different from the ordinary automobile storage battery as the automobile battery is different from one used to supply current for the lighting of Pullman cars. One of these special Radio batteries known as the All-Rubber Battery is the product of the Willard Storage Battery company and is sold by the Tri-State Battery company. This battery is entirely contained in a one-pieced rubber case, which effectively prevents the leakage of current and therefore stops all ground noises. of the well-known Threaded Rubber The insulators between the plates are type, which permit each part of every plate to do an equal portion of the work of supplying current and thereby prevent what is known as "spotting" or the wearing out of one portion while the rest of the plate is in good condition. Because of these improvements and the consequent addition to quiet operation, the hearing range of a radio receiving set is considerably increased.

Murder in all branches is developed to unpleasant perfection. Mr. Brown, farmer, called on a young lady. Her father objected. Brown killed the father and mother, shot the young lady in the abdomen and a little later shot and killed himself. His farewell note said, "This would never have happened if conditions had been different at home."

John F. Macking, Jr., aged 24, who lives in New York, shot his young wife —also in the abdomen—as she entered the breakfast room. He killed himself later. A farewell note to his father-in-law said, "By the time you will read this letter, dad, I'll be with mamma and Nanna. I will tell them everything is O. K." His wife will probably die.

The Duchess of Richelieu was knocked down by a boy on a bicycle. Dr. Worcester went to her assistance, and rebuked the boy for carelessness. For that offense against the freedom of youth, a gang of young hoodlums set upon the doctor, fractured his skull with a baseball bat, knocked him down, kicked in several of his ribs. He will recover.

It is a crime wave of considerable height. Some blame it on the war, some on prohibition. England, where there is no prohibition, has today less crime than before the war.

Bootlegging, lawbreaking by "respectable" people, not by cafes but by millions, seems to call for attention.

Freight embargoes on all but perishable goods and live stock prevail in Florida. The congestion, unheard of, would have been infinitely worse but for the foresight and daring of S. Davies Warfield, of the Seaboard Air

BUFFALO, N. Y., BANDITS SEIZE $93,000 IN GRIP, THEN ESCAPE IN AUTO

Driver of Truck, Transporting $117,000 From Reserve Bank to Marine Trust Company's Institution, is Shot Through Head as Robbery is Staged in Heart of City.

YOUNG MESSENGER, WOUNDED IN ARM, DROPS SATCHEL CONTAINING $24,000

Passer-by Picks up Second Money Bag and Turns it Over to Officers of Bank as Seven or Eight Men in Outlaw Gang Terrorize Pedestrians During Pistol Battle.

BUFFALO, N. Y., Oct. 29.—One man is dead, another wounded and $93,000 in currency locked in a grip was stolen by bandits who staged a sensational hold-up today at the entrance of the Marine Trust company in the heart of Buffalo's down town section. The bandits escaped in an automobile.

The dead man is Charles Clifford, driver of the Marine Trust company truck, who was transporting $117,000 from the federal reserve bank. He was shot through the head.

Joseph H. Meyers, bank messenger, was shot in the arm. He dropped a grip containing $24,000 on the sidewalk as he staggered into a doorway. A passerby picked up the grip and turned it over to officers of the bank.

Witnesses told police there were seven or eight men in the bandit gang.

Open Fire on Employes.

The bandit car arrived at the bank a moment after the bank truck. Three men got out and began firing as they left their car. The shots were directed at the bank employes who had just taken the money bags from the truck.

Clifford was the first to fall. He died on the way to a hospital. He was carrying the grip containing $93,000 in currency.

Meyers had the other grip. When he was hit in the arm by a bullet he released his hold on the bag and cried out as he staggered into the doorway: "I'm shot, so is Clifford. Take care of him."

Crabbe Refuses To Launch Akron Probe at Once

COLUMBUS, Oct. 29.—Attorney Geenral C. C. Crabbe, today announced his decision not to comply with the request of the Non-Partisan league at Akron that he launch immediately his grand jury probe at Akron into charges of graft and of violation of the anti-vice and other laws. The attorney general also rejected the league's request that he appoint county Prosecutor Booth of Summit county and two Akron attorneys, favored by the league, to take charge of the proposed investigation.

Woman is Victim Of $17,000 Robbery At Dinner Party

SAN FRANCISCO, Oct. 29.—Details of a $17,000 jewel robbery were revealed by San Francisco police today after they had been led in an all-night search by Mrs. Eva May Fleming, wealthy San Francisco business woman, for a married couple and two men alleged by Mrs. Fleming to have drugged her and robbed her of the jewels at a dinner party in a downtown apartment house here Monday night.

KIWANIS O. K.'S SCHOOL LEVY

Carl Van Voories Discusses Good Roads.

Indorsement of the three-mill school levy for a period of five years was unanimously voted by members of the Kiwanis club at their noon luncheon meeting today in Larkins' annex.

Action was taken on the proposal, which will go before electors next Tuesday, after the request of President George Lewis for an expression of opinion. A motion to indorse the levy was made by R. C. Heddleston and the vote was unanimous.

Carl L. Van Voories, secretary of the Ohio Good Roads federation, was the club's honor guest. He discussed work of the federation, roads in general and Columbia county's propcsed $950,000 road bond issue in particular.

RELIEF PROMISED FROM COLD WAVE

COLUMBUS, Oct. 29. — Relief from Ohio's coldest October weather, coldest in the history of the bureau, was due by late tonight, Government Meteorologist W. H. Alexander announced here today.

The lowest temperature recorded in Columbus was 21 degrees, which was six degrees below the record cold snap of October, 1891.

Increasing cloudiness with snow for the western portion tonight, and snow or rain in the southern and central portions, and snow in the northern portions, Friday, was the weatherman's hand-out today.

The weatherman said he hoped the bad weather would pass before Saturday afternoon—the football hour.

NONE HURT AS AUTOS SKID ON ICY STREETS

Police Grog Lisbon Hill and St. Clair Avenue.

MERCURY DROPS

Ohio Cities Shiver in Season's First Cold Spell.

Automobiles skidded on hilly streets and pedestrians found footing rather precarious last night, as a result of the advent of October's record-breaking cold spell.

The slippery condition of St. Clair avenue and the Lisbon street hill prompted Street Commissioner Oliver Buzzard to haul grog to points on these thoroughfares after several automobiles skidded against the street curbs.

Instructions to grog the streets were given by Service Director A. G. Ellis.

Police were stationed on upper St. Clair avenue early last night, warning drivers of chainless cars not to attempt to descend the grade. No one was injured, according to police reports.

The temperature dropped to 22 degrees early this morning, with no relief promised today by the weather man.

CLEVELAND, Oct. 29.—With the mercury hovering below the freezing point, going to 28 above zero during the night, no relief was promised by the weather bureau today from the unprecedented cold weather that struck Cleveland late yesterday after a day of snow squalls and slush-covered streets.

Suspected Slayer Saved by Heroism Of His Sweetheart

CHICAGO, Oct. 29.—Martin J. Durkin, alleged slayer of United States department of justice agent Edwin C. Shanahan, who has been sought by dozens of government detectives in New York, Pennsylvania and Indiana cities for many weeks, was at large in Chicago today following a gun battle with police last night in which three were wounded. Durkin escaped with his life only through the hero'sm and loyalty of his sweetheart, Miss Betty Warner, who threw herself between Durkin and the guns of the police.

COL. MITCHELL LOSES SECOND ROUND OF HIS COURT-MARTIAL

"Free Speech" Plea Overruled by Jury of Generals.

RULING EXPECTED

Opinion Rendered by Col. Blanton Winship is Sustained.

WASHINGTON, Oct. 29.—Col. Wm. Mitchell lost the second round of his battle against army tradition nad custom today when the jury of nine generals that is trying him for "conduct prejudicial to good order and military discipline" overruled his plea that to try him for criticising his superiors was taking away his constitutional rights of "free speech."

It took the jury of generals but comparatively few minutes to throw out Mitchell's unorthodox defense of "free speech" and to decide that they were eminently qualified by law and tradition to pass upon Mitchell's conduct.

The verdict caused little surprise, as it had been a foregone conclusion that the court would decide as it did. To have decided otherwise would have been a death blow to the army system of court-martial.

No Surprise to Mitchell

Mitchell himself had not expected any other decision, but he decided to put the issue up to them, if for no other purpose than to complete the record against the time when it is possible the ultimate verdict will be appealed to the civil courts.

The "jury of generals" sustained an opinion rendered a few moments earlier by Col. Blanton Winship, law member of the court. Winship held that the court was within its powers in trying Mitchell.

With a meticulous regard for "red tape," Winship and the "jury of generals" ruled separately on each of the eight specifications set forth in the court martial citation against Mitchell. In each instance, a member of the court objected to Winship's ruling and the generals filed out to render their own verdict. The court upheld all of Winship's rulings.

Army's Answer

To Mitchell's contention that "muzzling" of officers violated the fundamental principles of the constitution, the army replied, in effect:

"When a man enters the army his status is changed."

Unless soldiers observe army traditions and military custom, Col. Sherman Moreland, the judge advocate declared, "the whole army would be left to rot on its own soil."

STRUCK BY AUTO, SKULL FRACTURED

COLUMBUS, Oct. 29.—His skull believed fractured Chester Whitman, 33, Columbus, is in White Cross hospital today. He was struck by an auto at a street intersection Wednesday night. The unknown driver of the car did not stop. W. J. Hall, 78, also is critically ill, due to a fractured skull sustained when the auto he was driving collided with two other machines at a street corner. A half dozen other traffic victims during the past 12 hours received broken limbs, cuts and bruises.

RECORD ALIMONY GIVEN OHIOAN

CLEVELAND, Oct. 29. — Mrs. Maud Lucas, 50, who watched her husband study nights and work himself into a fortune, was granted a divorce yesterday in common pleas court, today was the recipient of what is believed to be the largest alimony settlement in the history of this section.

A settlement of $175,000 was made by attorneys after the divorce had been granted to Mrs. Lucas from Henry M. Lucas, 56, manager of the Lucas Machine & Tool company on the ground of gross neglect. Settlements were made out of court for two grown children.

Mrs. Lucas may draw $800 a month and is allowed $20,000 to purchase a home.

PAINLEVE HAS TWO POSTS IN NEW CABINET

Premier Takes Difficult Place of Finance Minister.

MANY OLD FACES

Decidedly More Radical Flavor Marks Appointment.

PARIS, Oct. 29.—Premier Painleve announced his new cabinet today.

While in many respects the new cabinet resembles the one dissolved on Tuesday, it was decidedly more radical in flavor and is apparently intended to meet the demands for radical and socialist deputies for a financial policy in keeping with their views.

Premier Painleve, besides heading the cabinet, has himself taken on the difficult portfolio of finance minister.

The new portfolio has been created —minister of the budget. This position will be held by Georges Bonnet and will remove some of the burdens of the finance ministry from the shoulders of the premier.

The new Painleve cabinet is as follows:

Premier—Paul Painleve.
Minister of finance—Paul Painleve.
Minister of foreign affairs—Aristide Briand.
Minister of justice—M. Schrameck.
Minister of war—M. Daladier.
Minister of marine—M. Morel.
Minister of Agriculture—M. Durand.
Minister of public works—M. De Monzie.
Minister of public instruction—M. Delbos.
Minister of commerce—M. Vincent.
Minister of Labor—M. Furafour.

Salineville Club Plans Community Hallowe'en Party

The Salineville Kiwanis club will stage a community Hallowe'en celebration in Addison's hall in the village Friday evening, when dancing and other diversions will feature the program.

Frank P. Judge was chairman of a party for club members and their guests held last night in the First Methodist Episcopal church community hall. Special stunts were given by Mrs. Sarah Hart and Kiwanis ladies.

Dinner was served by the ladies of the church.

HAMMER SLAYER USES GASOLINE TO MAKE TORCH OF HIS VICTIM

Match Applied to Clothing of Aged Akron Man.

POLICE BAFFLED

Murder Occurs in Garage; Firemen Discover Crime.

AKRON, Oct. 29.—Akron police were confronted today with the mystery of one of the most brutal murders in Akron during recent years.

Joseph Obermeier, 50, watchman at the Hudson-Essex garage of J. Grant Hyde, was beaten to death with a heavy hammer, gasoline poured over the body and a match applied to it.

According to police the murder occurred about 11:45 last night. Two men passing the garage saw the interior lighted by a high flame. They sounded an alarm and firemen responding discovered the crime.

STORK OUTRUNS GRIM REAPER

Reports are Submitted at Health Board Meeting.

The stork outpaced the grim reaper here during the past month, according to figures announced by Dr. John Fraser, city health commissioner, at last night's meeting of the health board.

There were 43 births—17 male and 26 female and 28 deaths were reported.

The board, after investigation, ordered the closing of a well owned by Mrs. Samuel Breakstone, and located in Oak street. Water from wells owned by William Rogers and James Hall, Lisbon street, while not condemned, were said to be unfit for use.

The clinic reported nine new cases and 110 treatments, and a total of 823 cases since the work was first begun.

Five cases of scarlet fever were reported and in connection with this report Dr. Fraser issued warning to guard against the disease, especially in cases of sore throat and during changing weather conditions.

Two Killed When Train Wrecks Auto At Kenmore Crossing

KENMORE, Oct. 29.—Clyde Swinehart, 30, married, and Miss Mayme L. Greenwold 18, both of this city, were instantly killed last night when their automobile was struck by a fast Erie passenger train. Mrs. Grace Stamm, 28, also in the car, was seriously injured. The bodies of Swinehart and Miss Greenwold were cut to pieces and strewn along the track for a hundred yards.

The accident happened at the Manchester road crossing.

TRI-STATE HIGHWAY FROM FT. WAYNE, IND., TO BEAVER, PA., VIA LISBON, LOOMS IF $950,000 COLUMBIANA COUNTY BOND IS UE IS VOTED

A new trunk line inter-county and inter-state highway has been designated by the Pennsylvania state highway department from Ft. Wayne, Ind., throught Ohio, east through Lisbon to the Ohio-Pennsylvania state line, thence either into Beaver or Beaver Falls, Pa., according to information received today by County Surveyor Lloyd C. Kirk, of Lisbon, from E. T McIlvain, assistant engineer of the Pennsylvania highway bureau.

The Keystone state proposes to build a 16-foot concrete road from Rowestown, Beaver county, over Pennsylvania state route 204 to tap Columbiana county, according to McIlvain.

As Chippewa and South Beaver township, Beaver county, have sold bonds for this purpose, to which will be added state aid, construction of this six-mile link into Ohio will be under way during 1926.

The Lisbon-East Liverpool road designation hearing, to be held in Lisbon at 10 a. m. November 13, has direct bearing on the Pennsylvania highway program. The Columbiana county route to be improved under the proposed $950,000 bond issue to be voted upon next Tuesday.

State Highway Director G. F. Schlesinger, of Columbus, notified the commissioners today that the hearing, which was scheduled for tomorrow morning, had been postponed. No reason was given for the postponement.

Improvement Program.

McIlvain's letter, outling the tri-state program, follows:

"I am in receipt of your interesting letter of October 24 in reference to certain contemplated improvements of the Ohio state highway department and have noted the same with interest.

"It was a rather odd coincidence but I was on the point of writing to you in reference to this matter due to the developments that have come up in Beaver county within the last six months. I am indicating by a yellow arrow on the map you sent me, the point where Beaver county has contemplated meeting the Ohio state line, but to give you a better idea of the whole situation I have marked up the highway map of Columbiana county and vicinity which you very kindly sent me some time ago and I am forwarding it to you. This gives you a better idea of what is going on.

"You will note on this map that there is indicated by a red line from state route L-204 in Chippewa township, a road ending at a red cross, which is known as Rowestown. This red line represents approximately six miles of road for which the townships, Chippewa and South Beaver, have passed a bond issue and on which they are securing state reward and also county aid. This road will no doubt be put under construction during the season of 1926 and will be 16 feet reinforced concrete built under the specifications and direction of the Pennsylvania department of highways.

From the red cross over to the Ohio state line at a place called Achor, I have indicated by yellow the future development and extension of this road. You will note also coming out from Beaver a red line, State Route, L-278, and I might add that three miles of this will probably be placed under construction during the season of 1926, being a 16-foot reinforced concrete road. From a red cross mark indicated by the letter "A", I have shown a relocation of this road in yellow westward and then northward intersecting with the road spoken of above, a short distance west of Rowestown. It seems to be the opinion and wish of the county commissioners to change the present location of this State Route L-278 to that indicated by the yellow line."

Suggests Connection at Achor.

"You spoke of meeting the state line by passing through Negley, but I have been wondering if it would not be possible with the above information before you, to meet the state line a short distance south of Negley at Achor so as to connect with this through route which will be completed within the course of the next few years. Possible along the line indicated by the dotted red line which would run directly west from the state line at Achor and intersecting improved road between Rogers and Clarkson. I do not know the topographical features of the country and merely offer this suggestion in view of the lay-out of the roads in Pennsylvania, as this is apparently giving a direct trunk line from Fort Wayne through Canton and Lisbon into Pittsburgh and connecting with the improved concrete road system and leading you directly south into the Beaver valley and Pittsburgh, or by bearing to the left would intersect State Rout L-204 and you could there turn to the north or northeast.

"I might further add that this red and yellow line through South Beaver,

Murder in all branches is developed to unpleasant perfection. Mr. Brown, farmer, called on a young lady. Her father objected. Brown killed the father and mother, shot the young lady in the abdomen and a little later shot and killed himself. His farewell note said, "This would never have happened if conditions had been different at home."

John F. Macking, Jr., aged 24, who lives in New York, shot his young wife —also in the abdomen—as she entered the breakfast room. He killed himself later. A farewell note to his father-in-law said, "By the time you will read this letter, dad, I'll be with mamma and Nanna. I will tell them everything is O. K." His wife will probably die.

The Duchess of Richelieu was knocked down by a boy on a bicycle. Dr. Worcester went to her assistance, and rebuked the boy for carelessness. For that offense against the freedom of youth, a gang of young hoodlums set upon the doctor, fractured his skull with a baseball bat, knocked him down, kicked in several of his ribs. He will recover.

It is a crime wave of considerable height. Some blame it on the war, some on prohibition. England, where there is no prohibition, has today less crime than before the war.

Bootlegging, lawbreaking by "respectable" people, not by criminals but by millions, seems to call for attention.

Freight embargoes on all but perishable goods and live stock prevail in Florida. The congestion, unheard of, would have been infinitely worse but for the foresight and daring of S. Davies Warfield, of the Seaboard Air

Are You Serving Well-Balanced Meals To Your Children?

The problem of food selection for children is not an easy one. Adequacy, wholesomeness, attractiveness and cost must all be considered.

A new booklet, entitled "Food for Young Children," has been prepared by the Bureau of Home Economics of the Department of Agriculture. This booklet covers thoroughly every detail of food selection for children between three and ten years of age tells what kinds of food are needed, gives the proportions and amounts of food required, and suggests a number of menus for nutritious meals.

Every woman who has the care of a child should have a copy of this book. Send for yours today. Fill out and mail the coupon below, enclosing two cents in stamps for return postage.

BUFFALO, N. Y., BANDITS SEIZE $93,000 IN GRIP, THEN ESCAPE IN AUTO

Driver of Truck, Transporting $117,000 From Reserve Bank to Marine Trust Company's Institution, is Shot Through Head as Robbery is Staged in Heart of City.

YOUNG MESSENGER, WOUNDED IN ARM, DROPS SATCHEL CONTAINING $24,000

Passer-by Picks up Second Money Bag and Turns it Over to Officers of Bank as Seven or Eight Men in Outlaw Gang Terrorize Pedestrians During Pistol Battle.

BUFFALO, N. Y., Oct. 29.—One man is dead, another wounded and $93,000 in currency locked in a grip was stolen by bandits who staged a sensational hold-up today at the entrance of the Marine Trust company in the heart of Buffalo's down town section. The bandits escaped in an automobile.

The dead man is Charles Clifford, driver of the Marine Trust company truck, who was transporting $117,000 from the federal reserve bank. He was shot through the head.

Joseph H. Meyers, bank messenger, was shot in the arm. He dropped a grip containing $24,000 on the sidewalk as he staggered into a doorway. A passerby picked up the grip and turned it over to officers of the bank.

Witnesses told police there were seven or eight men in the bandit gang.

Open Fire on Employes.

The bandit car arrived at the bank a moment after the bank truck. Three men got out and began firing as they left their car. The shots were directed at the bank employes who had just taken the money bags from the truck.

Clifford was the first to fall. He died on the way to a hospital. He was carrying the grip containing $93,000 in currency.

Meyers had the other grip. When he was hit in the arm by a bullet he released his hold on the bag and cried out as he staggered into the doorway: "I'm shot, so is Clifford. Take care of him."

Crabbe Refuses To Launch Akron Probe at Once

COLUMBUS, Oct. 29.—Attorney Geenral C. C. Crabbe, today announced his decision not to comply with the request of the Non-Partisan league at Akron that he launch immediately his grand jury probe at Akron into charges of graft and of violation of the anti-vice and other laws. The attorney general also rejected the league's request that he appoint county Prosecutor Booth of Summit county and two Akron attorneys, favored by the league, to take charge of the proposed investigation.

Woman is Victim Of $17,000 Robbery At Dinner Party

SAN FRANCISCO, Oct. 29.—Details of a $17,000 jewel robbery were revealed by San Francisco police today after they had been led in an all-night search by Mrs. Eva May Fleming, wealthy San Francisco business woman, for a married couple and two men alleged by Mrs. Fleming to have drugged her and robbed her of the jewels at a dinner party in a downtown apartment house here Monday night.

KIWANIS O. K.'S SCHOOL LEVY

Carl Van Voories Discusses Good Roads.

Indorsement of the three-mill school levy for a period of five years was unanimously voted by members of the Kiwanis club at their noon luncheon meeting today in Larkins' annex.

Action was taken on the proposal, which will go before electors next Tuesday, after the request of President George Lewis for an expression of opinion. A motion to indorse the levy was made by R. C. Heddleston and the vote was unanimous.

Carl L. Van Voories, secretary of the Ohio Good Roads federation, was the club's honor guest. He discussed work of the federation, roads in general and Columbia county's propcsed $950,000 road bond issue in particular.

RELIEF PROMISED FROM COLD WAVE

COLUMBUS, Oct. 29. — Relief from Ohio's coldest October weather, coldest in the history of the bureau, was due by late tonight, Government Meteorologist W. H. Alexander announced here today.

The lowest temperature recorded in Columbus was 21 degrees, which was six degrees below the record cold snap of October, 1891.

Increasing cloudiness with snow for the western portion tonight, and snow or rain in the southern and central portions, and snow in the northern portions, Friday, was the weatherman's hand-out today.

The weatherman said he hoped the bad weather would pass before Saturday afternoon—the football hour.

NONE HURT AS AUTOS SKID ON ICY STREETS

Police Grog Lisbon Hill and St. Clair Avenue.

MERCURY DROPS

Ohio Cities Shiver in Season's First Cold Spell.

Automobiles skidded on hilly streets and pedestrians found footing rather precarious last night, as a result of the advent of October's record-breaking cold spell.

The slippery condition of St. Clair avenue and the Lisbon street hill prompted Street Commissioner Oliver Buzzard to haul grog to points on these thoroughfares after several automobiles skidded against the street curbs.

Instructions to grog the streets were given by Service Director A. G. Ellis.

Police were stationed on upper St. Clair avenue early last night, warning drivers of chainless cars not to attempt to descend the grade. No one was injured, according to police reports.

The temperature dropped to 22 degrees early this morning, with no relief promised today by the weather man.

CLEVELAND, Oct. 29.—With the mercury hovering below the freezing point, going to 28 above zero during the night, no relief was promised by the weather bureau today from the unprecedented cold weather that struck Cleveland late yesterday after a day of snow squalls and slush-covered streets.

Suspected Slayer Saved by Heroism Of His Sweetheart

CHICAGO, Oct. 29.—Martin J. Durkin, alleged slayer of United States department of justice agent Edwin C. Shanahan, who has been sought by dozens of government detectives in New York, Pennsylvania and Indiana cities for many weeks, was at large in Chicago today following a gun battle with police last night in which three were wounded. Durkin escaped with his life only through the heroism and loyalty of his sweetheart, Miss Betty Warner, who threw herself between Durkin and the guns of the police.

COL. MITCHELL LOSES SECOND ROUND OF HIS COURT-MARTIAL

"Free Speech" Plea Overruled by Jury of Generals.

RULING EXPECTED

Opinion Rendered by Col. Blanton Winship is Sustained.

WASHINGTON, Oct. 29.—Col. Wm. Mitchell lost the second round of his battle against army tradition nad custom today when the jury of nine generals that is trying him for "conduct prejudicial to good order and military discipline" overruled his plea that to try him for criticising his superiors was taking away his constitutional rights of "free speech."

It took the jury of generals but comparatively few minutes to throw out Mitchell's unorthodox defense of "free speech" and to decide that they were eminently qualified by law and tradition to pass upon Mitchell's conduct.

The verdict caused little surprise, as it had been a foregone conclusion that the court would decide as it did. To have decided otherwise would have been a death blow to the army system of court-martial.

No Surprise to Mitchell

Mitchell himself had not expected any other decision, but he decided to put the issue up to them, if for no other purpose than to complete the record against the time when it is possible the ultimate verdict will be appealed to the civil courts.

The "jury of generals" sustained an opinion rendered a few moments earlier by Col. Blanton Winship, law member of the court. Winship held that the court was within its powers in trying Mitchell.

With a meticulous regard for "red tape," Winship and the "jury of generals" ruled separately on each of the eight specifications set forth in the court martial citation against Mitchell. In each instance, a member of the court objected to Winship's ruling and the generals filed out to render their own verdict. The court upheld all of Winship's rulings.

Army's Answer

To Mitchell's contention that "muzzling" of officers violated the fundamental principles of the constitution, the army replied, in effect:

"When a man enters the army his status is changed."

Unless soldiers observe army traditions and military custom, Col. Sherman Moreland, the judge advocate declared, "the whole army would be left to rot on its own soil."

STRUCK BY AUTO, SKULL FRACTURED

COLUMBUS, Oct. 29.—His skull believed fractured Chester Whitman, 33, Columbus, is in White Cross hospital today. He was struck by an auto at a street intersection Wednesday night. The unknown driver of the car did not stop. W. J. Hall, 78, also is critically ill, due to a fractured skull sustained when the auto he was driving collided with two other machines at a street corner. A half dozen other traffic victims during the past 12 hours received broken limbs, cuts and bruises.

RECORD ALIMONY GIVEN OHIOAN

CLEVELAND, Oct. 29. — Mrs. Maud Lucas, 50, who watched her husband study nights and work himself into a fortune, was granted a divorce yesterday in common pleas court, today was the recipient of what is believed to be the largest alimony settlement in the history of this section.

A settlement of $175,000 was made by attorneys after the divorce had been granted to Mrs. Lucas from Henry M. Lucas, 56, manager of the Lucas Machine & Tool company on the ground of gross neglect. Settlements were made out of court for two grown children.

Mrs. Lucas may draw $800 a month and is allowed $20,000 to purchase a home.

PAINLEVE HAS TWO POSTS IN NEW CABINET

Premier Takes Difficult Place of Finance Minister.

MANY OLD FACES

Decidedly More Radical Flavor Marks Appointment.

PARIS, Oct. 29.—Premier Painleve announced his new cabinet today.

While in many respects the new cabinet resembles the one dissolved on Tuesday, it was decidedly more radical in flavor and is apparently intended to meet the demands for radical and socialist deputies for a financial policy in keeping with their views.

Premier Painleve, besides heading the cabinet, has himself taken on the difficult portfolio of finance minister.

The new portfolio has been created —minister of the budget. This position will be held by Georges Bonnet and will remove some of the burdens of the finance ministry from the shoulders of the premier.

The new Painleve cabinet is as follows:

Premier—Paul Painleve.
Minister of finance—Paul Painleve.
Minister of foreign affairs—Aristide Briand.
Minister of justice—M. Schrameck.
Minister of war—M. Daladier.
Minister of marine—M. Morel.
Minister of Agriculture—M. Durand.
Minister of public works—M. De Monzie.
Minister of public instruction—M. Delbos.
Minister of commerce—M. Vincent.
Minister of Labor—M. Furafour.

POLICE BAFFLED

Murder Occurs in Garage; Firemen Discover Crime.

AKRON, Oct. 29.—Akron police were confronted today with the mystery of one of the most brutal murders in Akron during recent years.

Joseph Obermeier, 50, watchman at the Hudson-Essex garage of J. Grant Hyde, was beaten to death with a heavy hammer, gasoline poured over the body and a match applied to it.

According to police the murder occurred about 11:45 last night. Two men passing the garage saw the interior lighted by a high flame. They sounded an alarm and firemen responding discovered the crime.

STORK OUTRUNS GRIM REAPER

Reports are Submitted at Health Board Meeting.

The stork outpaced the grim reaper here during the past month, according to figures announced by Dr. John Fraser, city health commissioner, at last night's meeting of the health board.

There were 43 births—17 male and 26 female and 28 deaths were reported.

The board, after investigation, ordered the closing of a well owned by Mrs. Samuel Breakstone, and located in Oak street. Water from wells owned by William Rogers and James Hall, Lisbon street, while not condemned, were said to be unfit for use.

The clinic reported nine new cases and 110 treatments, and a total of 823 cases since the work was first begun.

Five cases of scarlet fever were reported and in connection with this report Dr. Fraser issued warning to guard against the disease, especially in cases of sore throat and during changing weather conditions.

Two Killed When Train Wrecks Auto At Kenmore Crossing

KENMORE, Oct. 29.—Clyde Swinehart, 30, married, and Miss Mayme L. Greenwold 18, both of this city, were instantly killed last night when their automobile was struck by a fast Erie passenger train. Mrs. Grace Stamm, 28, also in the car, was seriously injured. The bodies of Swinehart and Miss Greenwold were cut to pieces and strewn along the track for a hundred yards.

The accident happened at the Manchester road crossing.

TRI-STATE HIGHWAY FROM FT. WAYNE, IND., TO BEAVER, PA., VIA LISBON, LOOMS IF $950,000 COLUMBIANA COUNTY BOND IS VOTED

A new trunk line inter-county and inter-state highway has been designated by the Pennsylvania state highway department from Ft. Wayne, Ind., throught Ohio, east through Lisbon to the Ohio-Pennsylvania state line, thence either into Beaver or Beaver Falls, Pa., according to information received today by County Surveyor Lloyd C. Kirk, of Lisbon, from E. T McIlvain, assistant engineer of the Pennsylvania highway bureau.

The Keystone state proposes to build a 16-foot concrete road from Rowestown, Beaver county, over Pennsylvania state route 204 to tap Columbiana county, according to McIlvain.

As Chippewa and South Beaver township, Beaver county, have sold bonds for this purpose, to which will be added state aid, construction of this six-mile link into Ohio will be under way during 1926.

The Lisbon-East Liverpool road designation hearing, to be held in Lisbon at 10 a. m. November 13, has direct bearing on the Pennsylvania highway program. The Columbiana county route to be improved under the proposed $950,000 bond issue to be voted upon next Tuesday.

State Highway Director G. F. Schlesinger, of Columbus, notified the commissioners today that the hearing, which was scheduled for tomorrow morning, had been postponed. No reason was given for the postponement.

Improvement Program.

McIlvain's letter, outling the tri-state program, follows:

"I am in receipt of your interesting letter of October 24 in reference to certain contemplated improvements of the Ohio state highway department and have noted the same with interest.

"It was a rather odd coincidence but I was on the point of writing to you in reference to this matter due to the developments that have come up in Beaver county within the last six months. I am indicating by a yellow arrow on the map you sent me, the point where Beaver county has contemplated meeting the Ohio state line, but to give you a better idea of the whole situation I have marked up the highway map of Columbiana county and vicinity which you very kindly sent me some time ago and I am forwarding it to you. This gives you a better idea of what is going on.

"You will note on this map that there is indicated by a red line from state route L-204 in Chippewa township, a road ending at a red cross, which is known as Rowestown. This red line represents approximately six miles of road for which the townships, Chippewa and South Beaver, have passed a bond issue and on which they are securing state reward and also county aid. This road will no doubt be put under construction during the season of 1926 and will be 16 feet reinforced concrete built under the specifications and direction of the Pennsylvania department of highways.

From the red cross over to the Ohio state line at a place called Achor, I have indicated by yellow the future development and extension of this road. You will note also coming out from Beaver a red line, State Route, L-278, and I might add that three miles of this will probably be placed under construction during the season of 1926, being a 16-foot reinforced concrete road. From a red cross mark indicated by the letter "A", I have shown a relocation of this road in yellow westward and then northward intersecting with the road spoken of above, a short distance west of Rowestown. It seems to be the opinion and wish of the county commissioners to change the present location of this State Route L-278 to that indicated by the yellow line."

Suggests Connection at Achor.

"You spoke of meeting the state line by passing through Negley, but I have been wondering if it would not be possible with the above information before you, to meet the state line a short distance south of Negley at Achor so as to connect with this through route which will be completed within the course of the next few years. Possible along the line indicated by the dotted red line which would run directly west from the state line at Achor and intersecting improved road between Rogers and Clarkson. I do not know the topographical features of the country and merely offer this suggestion in view of the lay-out of the roads in Pennsylvania, as this is apparently giving a direct trunk line from Fort Wayne through Canton and Lisbon into Pittsburgh and connecting with the improved concrete road system and leading you directly south into the Beaver valley and Pittsburgh, or by bearing to the left would intersect State Rout L-204 and you could there turn to the north or northeast.

"I might further add that this red and yellow line through South Beaver,

The Story Of A Girl Who Dared

By Edgar Doe Norris

CHAPTER 81.

Robinson, butler and master of the household of old Mrs. Thomas Q. Ainsley, was having a bad time of it. Grandma Ainsley was in one of her dark moods.

"No, Robinson, I will not permit you to discharge Maggie. Why can't you two get along? Get married or something, so you can have your brawls in your own home instead of mine."

Robinson, a humorless individual, was never certain when his mistress was making light of him. He shifted from one foot to another, face immutable. "But, m'dam——."

"I know what you're going to say, Robinson. You haven't the slightest amount of gallantry in your make-up. You'd have me believe that Maggie is some terrible demon, some——."

The butler bodly cut in. "But, moddom, she carries off things. A basket every day. You'd be surprised how many eggs we have to buy. She——."

"Don't, 'moddom' me, Robinson, it's foolish affection. You know how to speak properly.

Poor Robinson was beginning to perspire.

"You never can get along with the women employed in this house, Robinson, although I permit you to employ them and supervise their work. No wonder you have never acquired a wife. No woman except some pos. weak one like me would ever tolerate you more than a minute."

"Yes, moddom—Mrs. Ainsley," he said in a tone of resignation. "If you think——."

"Now, Robinson,' his inquisitor said severely, "You are going to give notice, and you know that I won't allow you to do it. You must marry Maggie, and that will end all these arguments. She'll throw a rolling pin at you then, instead of listening to you."

The voice of a newcomer caused them both to turn. "Quit picking on Robinson, grandma." Amoura strode into the room, kissed her grandmother and turned to the butler. "Don't allow her to rag you, Robinson, when she gets in one of her moods. Don't stand for it. No one else does."

Robinson, wearing a worried frown, looked from one to the other of the women, then cast his eyes down.

"You may go now, Robinson," said the old lady. "And,' she added, with a twinkle in her eye, "tell Maggie she musn't SUOIL so many eggs.'

When they were alone, Grandma Ainsley took off her glasses and made herself comfortable in the only straight-back chair in the room. "I didn't think you were ever coming to see me."

"I haven't felt much like going anywhere," Amoura replied, indefinitely. "I was over here the other morning and they wouldn't let me awaken you."

"Yes, they think I should sleep the sleep of the dead, quite ignoring the fact that soon I'll be sleeping forever."

"Ah, granny, you're in a dark mood today. What's the matter? Has Trossy been a bad cat?" Amoura looked around for her grandmother's pet."

The old lady ignored the question, and asked one. "Well WHAT are you going to do next, young lady?"

"Oh, grandma, I have the swellest idea! Let me tell you about it." She elaborated on the details of her plan to uplift the downtrodden of Stone and Green streets.

The queen-mother of the Ainsley family heard her in silence, nodding her head and then.

"What do you think?"

"Well, I've always believed in letting people mind their own business."

Amoura shifted uncomfortably, her spirits dampened by her grandmother's remark, uttered in a deprecating tone.

"What you'd better be doing, young lady, is getting a husband and babies.'

"I don't think I'll ever marry, Grandma."

"Nonsense, of course you will!"

"No, I'm determined to go ahead with my plans for the mothers' institute. I——."

"Wait until you have three or four children yourself, then you'll know how to conduct it.'

"Aw, ——." Amoura was at a loss for words. She had come to her grandmother expecting aid.

"Well, I'm going ahead anyway. I'll get the money somehow. I have some in a Chicago bank, and if necessary I'll go back there and work for a while to get more." She was thinking of La Houbierre, and Hans Van Pugh's offer.

Tunnel Construction Work to Connect Nations Approved

CONSTANTINOPLE. — The construction of a tunnel connecting Europe and Asia beneath the Bosphorus has received the approval of the Turkish government and the initial work has been authorized to begin early next year. The necessity of such a tunnel was first pointed out by engineers attached to the Near East Relief, who proposed three years ago that the work be done largely with refugee labor as a relief measure. At that time the political situation was so unstable that the project was dropped.

The tunnel will permit through transport of freight and passengers by railroad or automobile, and will facilitate the opening up of Asia Minor to western influence. It is calculated that the neterprise will pay for itself in three years through savings which it will effect in unloading, ferrying and reloading.

Correct weight can be yours

be shapely!

"I DO NOT want to be thin! I just want to be my right weight! I want these hollows filled out. I just want enough firm, plump flesh on my bones to fill out my figure."

Of course you do. You want a figure that you can drape your clothes on—not just hang them on! What's the use of having pretty clothes, if they just hang on you?

And what would you say if you were told you could have the figure you want? A graceful, well rounded body—firm, solid flesh—just enough—just your right weight? You'd be mighty happy, wouldn't you?

Well, then, be happy—because you can have it! Put plenty of red cells in your blood and watch your weight go up to where you want it! That's what's the matter with you! Your blood is impoverished. You need more rich, red blood. S. S. S. is the thing to put red blood in your system. S. S. S. helps Nature build red blood cells by the millions.

You just try S. S. S. and watch how quickly you begin to fill out your clothes. Notice your skin clear of unsightly blemishes—your appetite increase—strength come to flabby muscles and vim and vigor fill your whole system. It's red blood that does it. And S. S. The Biggest Thrill in Music is Playing it *Yourself*

And now even untrained persons can do it

Only Piano of Its Kind

IN MUSIC as in every human activity, it's your own participation that rouses your emotions most.

It's the ball you drive down the fairway yourself that stirs your blood.

It's the song that you sing yourself that touches your heart.

It's the number that you dance yourself that entrances you.

And this human trait is even more pronounced in the music that you play.

There is rapture in listening to the playing of others; but in playing yourself there's the thrill of personal creation, the hush of ineffable sweetness, and the flight of joy to heights no other music can attain. It is here you find your supreme inspiration.

We admit that it seems incredible that untrained persons can play like this—can play by roll, equal to playing by hand. Indeed it would be impossible were it not for the Gulbransen Registering Piano, the only instrument of its kind in the world.

For neither ordinary player-pianos, nor reproducing pianos can give you complete control of the keys, the tempo as in hand playing. The Gulbransen alone does this.

Hence you can play not "mechanical" music, but human music, with the human expression—the Time, the Touch and the Tone Volume that you yourself impart to it.

The Story Of A Girl Who Dared

By Edgar Doc Norris

CHAPTER 81.

Robinson, butler and master of the household of old Mrs. Thomas Q. Ainsley, was having a bad time of it. Grandma Ainsley was in one of her dark moods.

"No, Robinson, I will not permit you to discharge Maggie. Why can't you two get along? Get married or something, so you can have your brawls in your own home instead of mine."

Robinson, a humorless individual, was never certain when his mistress was making light of him. He shifted from one foot to another, face immutable. "But, madam——."

"I know what you're going to say, Robinson. You haven't the slightest amount of gallantry in your make-up. You'd have me believe that Maggie is some terrible demon, some——."

The butler bodly cut in. "But, moddom, she carries off things. A basket every day. You'd be surprised how many eggs we have to buy. She——."

"Don't, 'moddom' me, Robinson, it's foolish affection. You know how to speak properly.

Poor Robinson was beginning to perspire.

"You never can get along with the women employed in this house, Robinson, although I permit you to employ them and supervise their work. No wonder you have never acquired a wife. No woman except some poor, weak one like me would ever tolerate you more than a minute."

"Yes, moddom—Mrs. Ainsley," he said in a tone of resignation. "If you think——."

"Now, Robinson,' his inquisitor said severely, "You are going to give notice, and you know that I won't allow you to do it. You must marry Maggie, and that will end all these arguments. She'll throw a rolling pin at you then, instead of listening to you."

The voice of a newcomer caused them both to turn. "Quit picking on Robinson, grandma." Amoura strode into the room, kissed her grandmother and turned to the butler. "Don't allow her to rag you, Robinson, when she gets in one of her moods. Don't stand for it. No one else does."

Robinson, wearing a worried frown, looked from one to the other of the women, then cast his eyes down.

"You may go now, Robinson," said the old lady. "And,' she added, with a twinkle in her eye, "tell Maggie she musn't SUOIL so many eggs.'

When they were alone, Grandma Ainsley took off her glasses and made herself comfortable in the only straight-back chair in the room. "I didn't think you were ever coming to see me."

"I haven't felt much like going anywhere," Amoura replied, indefinitely. "I was over here the other morning and they wouldn't let me awaken you."

"Yes, they think I should sleep the sleep of the dead, quite ignoring the fact that soon I'll be sleeping forever."

"Ah, granny, you're in a dark mood today. What's the matter? Has Trossy been a bad cat?" Amoura looked around for her grandmother's pet."

The old lady ignored the question, and asked one. "Well WHAT are you going to do next, young lady?"

"Oh, grandma, I have the swellest idea! Let me tell you about it." She elaborated on the details of her plan to uplift the downtrodden of Stone and Green streets.

The queen-mother of the Ainsley family heard her in silence, nodding her head and then.

"What do you think?"

"Well, I've always believed in letting people mind their own business."

Amoura shifted uncomfortably, her spirits dampened by her grandmother's remark, uttered in a deprecating tone.

"What you'd better be doing, young lady, is getting a husband and babies.'

"I don't think I'll ever marry, Grandma."

"Nonsense, of course you will!"

"No, I'm determined to go ahead with my plans for the mothers' institute. I——."

"Wait until you have three or four children yourself, then you'll know how to conduct it.'

"Aw, ——." Amoura was at a loss for words. She had come to her grandmother expecting aid.

"Well, I'm going ahead anyway. I'll get the money somehow. I have some in a Chicago bank, and if necessary I'll go back there and work for a while to get more." She was thinking of La Houbierre, and Hans Van Pugh's offer.

Tunnel Construction Work to Connect Nations, Approved

CONSTANTINOPLE. — The construction of a tunnel connecting Europe and Asia beneath the Bosphorus has received the approval of the Turkish government and the initial work has been authorized to begin early next year. The necessity of such a tunnel was first pointed out by engineers attached to the Near East Relief, who proposed three years ago that the work be done largely with refugee labor as a relief measure. At that time the political situation was so unstable that the project was dropped.

The tunnel will permit through transport of freight and passengers by railroad or automobile, and will facilitate the opening up of Asia Minor to western influence. It is calculated that the neterprise will pay for itself in three years through savings which it will effect in unloading, ferrying and reloading.

Correct weight can be yours

be shapely!

"I DO NOT want to be thin! I just want to be my right weight! I want these hollows filled out. I just want enough firm, plump flesh on my bones to fill out my figure."

Of course you do. You want a figure that you can drape your clothes on—not just hang them on! What's the use of having pretty clothes, if they just hang on you?

And what would you say if you were told you could have the figure you want? A graceful, well rounded body—firm, solid flesh—just enough—just your right weight? You'd be mighty happy, wouldn't you?

Well, then, be happy—because you can have it! Put plenty of red cells in your blood and watch your weight go up to where you want it! That's what's the matter with you! Your blood is impoverished. You need more rich, red blood. S. S. S. is the thing to put red blood in your system. S. S. S. helps Nature build red blood cells by the millions.

You just try S. S. S. and watch how quickly you begin to fill out your clothes. Notice your skin clear of unsightly blemishes—your appetite increase—strength come to flabby muscles and vim and vigor fill your whole system. It's red blood that does it. And S. S. S. surely helps Nature build that red blood.

S. S. S. is sold by all drug stores. The larger bottle is more economical.

The Biggest Thrill in Music is Playing it *Yourself*

And now even untrained persons can do it

IN MUSIC as in every human activity, it's your own participation that rouses your emotions most.

It's the ball you drive down the fairway yourself that stirs your blood.

It's the song that you sing yourself that touches your heart.

It's the number that you dance yourself that entrances you.

And this human trait is even more pronounced in the music that you play.

There is rapture in listening to the playing of others; but in playing yourself there's the thrill of personal creation, the hush of ineffable sweetness, and the flight of joy to heights no other music can attain. It is here you find your supreme inspiration.

Only Piano of Its Kind

We admit that it seems incredible that untrained persons can play like this—can play by roll, equal to playing by hand. Indeed it would be impossible were it not for the Gulbransen Registering Piano, the only instrument of its kind in the world.

For neither ordinary player-pianos, nor reproducing pianos can give you complete control of the keys, the tempo as in hand playing. The Gulbransen alone does this.

Hence you can play not "mechanical" music, but human music, with the human expression—the Time, the Touch and the Tone Volume that you yourself impart to it.

THIS WOMAN'S REMARKABLE RECOVERY

Entirely Due To Lydia E. Pinkham's Vegetable Compound

Forest City, Iowa. — "My first child lived only a short time and I was sick for a year after. When I bent over and raised myself up again I could almost scream with pain in my back. One day I was so bad that I had to leave my washing and get ready to go to the doctor. He gave me medicine but it did no more good than if I drank just water.

Once when we had been in town a little book telling about Lydia E. Pinkham's Vegetable Compound was left in our car. I have taken five bottles of the Vegetable Compound now and I do all my housework and help with the milking and taking care of chickens and garden. Besides I have a fine baby girl eight months old, just the picture of health and I am feeling fine myself. You may use this letter as a testimonial and I will answer any letters asking about the Vegetable Compound." —Mrs. Oscar F. Borgelin, Route No. 5, Forest City, Iowa.

World's Shipping Trade Working at Big Loss; Heavy Ship Surplus

GLASGOW.—Five per cent of the world's shipping is today working at a loss, according to expert evidence given to the Glasgow Valuation Appeal Court by Sir W. S. Abell, of Lloyd's.

Sir Wilcott told the court that six million tons of shipping were at present laid up all over the world, and that due to the preesnt stagnation in the shipping trade this tonnage would very likely considerably increase. He estimated that there was a surplus of ten million tons of shipping throughout the world. The present capacity of the world was now about ten million tons, compared with about five millions before the war.

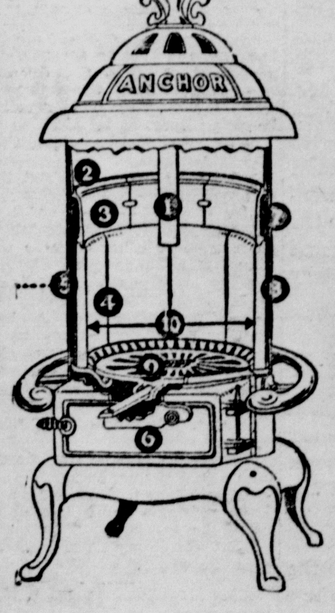
Save 1/3 Fuel With This Heater

Hundreds of these Anchor Hot Blasts are in use in the homes of our customers and we have yet to receive our first complaint of any kind.

We've sold this heater for the past five years and up to this time we have not heard of a fire-bowl having to be replaced. This is a long life stove and costs less for repairs than any other coal heater we know of.



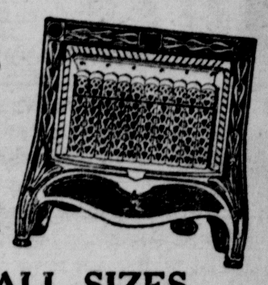
14, 16, 18, 20 Inch Firebowl.

We have a size here suitable for heating any space and they are priced lower than any heater of equal merit.

Adams Radiant Gas Heaters

After very careful trial in the past five years we believe the Adams Radiant Heater (all things considered) to be the most efficient and economical of any we have seen—for that reason we specialize on them notwithstanding the fact that we could make a larger margin of profit on other lines.

10 Radiant Adams Heaters, Just as Pictured, $25.00 on Credit, $22.50 Cash



Other radiant heaters $12.25 to $50 on credit or 10% less if you prefer to pay cash.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

THURSDAY, OCTOBER 29, 1925.

Two Partisan Ballots

Two partisan ballots will be handed to East Liverpool electors when they go to the polls next Tuesday. They are:

First—City ticket, on which Republican and Democratic candidates appear.

Second—Municipal court clerkship on which the names of nominees of the two major parties as well as an independent are printed.

Six other ballots include the non-partisan judicial ticket, on which Solicitor Harry Brokaw and ex-Prosecuting Attorney Jesse C. Hanley, both Republicans, are the rival candidates; the non-partisan township and board of education tickets, proposed three-mill school tax levy, $950,000 county road bond issue and three state constitutional amendments.

The Republican candidates on the party tickets are:

Mayor—J. S. Wilson, former city executive.

President of Council—N. P. Kerr, now serving as councilman-at-large.

Auditor—W. M. McGraw, seeking re-election.

Treasurer—A. Earl Edwards, nominee for a second term.

Solicitor—Attorney Frank H. Hoover.

Councilman-at-Large—Thomas Farrall, now serving his first term; Charles Hayes, also a member of the present councilmanic assembly, and Oliver J. Herrington, butter merchant.

Ward Councilmen—First, J. Raymond Chambers, seeking re-election; Second, Edgar Heddleston, pottery worker; Third, L. M. Poole, pottery employe; Fourth, George A. Hughes, pottery worker and former councilman.

Miss Ruth Finnie is the Republican candidate for the municipal court clerkship.

The Republican nominees have recognized ability, and in most instances are equipped with experience by reason of their knowledge of municipal affairs. No mistake will be made in placing the city's business in their charge.

Must Have Waterways

The railroads, Secretary Hoover observers, are busy to capacity carrying today's freight. In another quarter-century the United States will have 40,000,000 more people, adding their freight requirements to those of the present time. A tremendous amount of new transportation is going to be needed.

How shall it be provided? Either by more railroads or more waterways. Or by both.

There is virtually no railroad-building now in progress. There has been little for many years. There is little contemplated. New railroad activity consists mostly in mergers of competing lines and in improvement of rolling stock and handling methods, to increase efficiency. That is good, but does not go far enough.

There must be some new railroads, where water transportation is impossible.

But where water transportation is possible, as the secretary points out, it is the obvious solution because it is immensely cheaper than railroad transportation. Figures prove that beyond a doubt, especially on the Great Lakes, and to a less but still convincing extent on the Mississippi and in the long haul from coast to coast through the Panama canal.

Railroads and waterways in the past have fought each other. Or rather, the railroads have fought the waterways—too often with fatal effect to the latter. Now waterways are beginning to fight the railroads. There is no need of either fighting the other. The obvious need of the country is to develop both as complementary systems, according to a plan broad enough to embrace the needs of the entire country. Development of the Mississippi and the Great Lakes-St. Lawrence deep waterways, as Secretary Hoover suggests, would make a good beginning.

Spending and Saving

Salesmanship is the new gospel, and America is its prophet. Selling things seems sometimse the end and aim of our existence. And since for every sale there must be a buyer, there are people who fear that there is too much buying—that people part too easily with their money—that they spend too much.

Figures do not support this fear. It is shown that in America as a whole, and in nearly every American community, with all the expenditure, Americans are putting more money into the savings banks and taking out more life insurance. While the right hand spends, the left hand saves. Each hand knows what the other is doing.

The improvement of late years is undeniable. It is thrift, not stinginess. Everywhere there are families banking money, taking out inurance policies, acquiring land and building homes. The country is getting ahead none the less surely, because it is enjoying life at the same time.

And now, is Europe does go ahead and live up to the peace of Locarno, there are some Americans who will never forgive her for it.

The perfect automobilist has trouble nowadays when he reads a telegram. It's full of "stop" signals, with no starts.

The most intolerable thing about those ruffian Riffians is that they keep right on fighting the French and Spaniards after they've been licked.

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Oct. 29. — Ladies of Broadway whose lives fail to click with conventions are usually given a false glitter. They appear to lead a manicured and coiffured life of ease. They have their apartments, their limousines and charge accounts.

And yet most of them are humble Nancys to a thousand one one Bill Sykeses. They live in constant turmoil and fear of the inevitable end—abandonment. Love or what passes for it, subsides to a pretense and then harshness and brutality. A black eye is not uncommon.

They find the quicksilvery sheen to their pampered lives may vanish overnight and leave only stark reality. Stage beauties are particularly sought in these vagarious loves. The glamour of the spotlight is about them.

Then they quit their jobs and a skimped sort of existence is bloated to proportions of grandeur. Dissipation exacts its toll, and when the break comes they find the stage closed to them. There are scores of girls along Broadway shunted to such tragic tedium today.

They have been beautiful and they think they can be even more beautiful, but thew swing across that few years' gap—the dividing line separating the pulchritudinous from the passe. Broadfay feeds only on youth and beauty, and neither can be called back.

So they plunge into the gay whirlpool—sometimes drink and sometimes drugs. If they marry, their husbands soon desert them. Such women rarely fit into the domestic scheme. The reward for being exploited is social ostracism.

New York is overwhelmingly big but not too big to escape the light gossips that covers and destroys reputations. And the mirror is always before them to recall those haunting lines:

"The cruel looking glass, that can always hurt a lass
More hard than any ghost there is or any man there was!"

Personally I doubt everybody at some time or other tries to write a play. Many have gone along without the birth pangs of the histrionic brain throb. Yet I heard of this wager the other day. A business man and an actress argued about the matter, the actress claiming every one was trying to fashion the great American drama. They decided to try out the first five people they met. They boarded a Fifth Avenue bus.

"How's the play coming along?" the man asked the conductor.

"That's funyy. How did you know I was writing a play? I've almost finished the second act," he replied.

That was enough. The business man paid the wager.

Most men given to day-dreaming, I imagine, have pictured themselves as prizefighters and knocked Jack Dempsey cold for the cheering multitudes. I walked behind an aged messenger "boy" on a deserted street recently. He was jabbing the air, ducking and muttering in a loud tone: "Take that and that and that!" And after a pause he said: "So you thought Jack Dempsey couldn't be licked, eh?"

Gov. Al Smith's former home on Oliver street is now an undertaking establishment, and his neighborly contact with the East Side seems definitely broken. When the governor comes to town now, he occupies a suite at the Biltmore.

Oh, yes, speaking of prizefighters, I notice that they are almost invariably marvelously agile dancers. And they are nearly always to be seen in the dance places. It is noticeable, too, that they are not jostled.

HASKIN'S LETTER

By FREDERIC J. HASKIN

WASHINGTON, Oct. 28.—Has the president of the United States the constitutional right to remove from office any federal executive official whose appointment has once been confined by the senate?

This question which, according to former Solicitor General James M. Beck, is of such profound importance that it concerns the very foundation of the government, will be decided by the supreme court sometime during the present session.

Since the earliest days of the American government, sharp discussion has arisen several times over the point of whether or not the Constitution, in making the president the chief executive of the nation and responsible for the enforcing of the laws, also tacitly conferred upon him the prerogative of removing from office an official whom he felt to be incompetent.

Although this subject has never been touched upon in a number of Supreme Court decisions, it has never been brought to an issue in a clear cut test case until the present time.

The case now awaiting decision is in itself relatively unimportant, but as an example of a constitutional problem that has never been decided it is extremely significant.

In 1917 President Wilson appointed Frank S. Myers postmaster at Portland, Oregon, for a term of four years, under the act of July 12, 1876, which provides:

"Postmasters of the first, second, and third class shall be appointed and may be removed by the president by and with the advice and consent of the senate and shall hold their offices for four years unless sooner removed or suspended according to law."

The appointment was confirmed by the senate, and in January, 1920, without referring the matter to the senate, the president removed Myers from office. Myers protested that his removal was contrary to law and refused to vacate his office until a postal inspector was placed in charge.

The following year he brought suit against the government for $8,838.71, the amount of salary he would have received if he had served the full term for which he had been appointed.

Plaintiff is Now Dead.

Since the original filing of the suit Myers has died, but the case has been carried on by his estate, the last arguments being held before the Supreme Court last April. Beck, who was then Solicitor General, presented the government's case, defending the rights of the president, while George Wharton Pepper, the senior senator from Pennsylvania, was invited by the court to argue for the appellant. The arguments of these two authorities on constitutional law represent what is probably the most comprehensive study ever made of the executive rights of the president in removing federal officials.

This point of removal from office is important because, if the court denies the Myers suit, not only will the clause in the postal law requiring senatorial sanction for the removal of postmasters be declared unconstitutional, but also a precedent will be set, restraining further legislation which would tend to limit the removal powers of the president.

Some authorities contend that a Supreme Court decision of this character may bring to a head the storm which has long been raging about the General Accounting office and Comptroller General McCarl.

McCarl's office was created by the budget law of 1921, the most recent statute containing a clause definitely taking the power of removal out of the hands of the president and giving it to congress.

This law gave the comptroller general power to adjust "all claims and demands whatever by the government of the United States or against it, and all accounts whatever in which the government of the United States is concerned, either as debtor or creditor."

This means that the vouchers for all federal expenditures pass through the General Accounting office and receive the sanction of Comptroller General McCarl.

In creating the offices of comptroller general and assistant comptroller general, the law also provided that these officials should serve for fifteen years and might be removed "at any time by joint resolution of congress after notice and hearing, when, in the judgment of congress, the comptroller general or assistant comptroller general has become permanently incapacitated, or has been inefficient, or guilty of neglect of duty, or of malfeasance in office, or of any felony or conduct involving moral turpitude, and for no other cause and in no other manner except by impeachment."

Independent of the President.

Under this statute the comptroller general conducts his office entirely independent of the president, although the General Accounting office is a part of the executive branch of the government and the president is the chief executive.

In the past few months the heads of several departments have had disagreements over rulings of the comptroller general, but as this officer is answerable to congress alone, there can be no appeal to the White House for intervention on the disputed questions.

In addition to the postal law and the budget law, there have been several other statutes enacted by Congress tending to limit the president's power to remove officials at his own discretion.

According to former Solicitor General Beck, in his argument in the Myers Case, the power to remove officials is purely an executive function and not a legislative one, belonging to the president and not to congress.

He asserted that congress is empowered to create an office, abolish one, or limit the duration, but in passing a law under which the legislative body retains the privilege of removal congress "takes from the president a part of his constitutional power and divides it with the senate.' Such a law, he declared, is not the declaration of a legislative policy, but is a redistribution of the powers of government.

He said that the framers of the Constitution intended the three branches of the American government, the legislative, the executive, and the judicial, to be separate, and that the adoption of the power to remove by the senate would be an encroachment upon the executive rights of the president. He stresses the point that the power to remove is necessary for the president to perform his function of executing the laws.

"If the president cannot do this," he said, "and remove officials, however unfit or unworthy they may prove to be, without the consent of congress, then the president has neither the independence nor the power which has hitherto been attributed to his great office and which has given the government its efficiency and stability. In such event, the president is deprived of one of his greatest powers, and is important to see that the laws are faithfully executed."

Senator Pepper, speaking for the appellant, argued that while the act of removal is itself an executive act, the prescribing of the conditions under which that act may be performed is a legislative power, incident to the legislative power to create the office, to prescribe the duties of the office, to fix the salary, and to specify the term. He said that congress, in prescribing the conditions under which a removal may be made, is performing a legislative and not an executive function.

Senator Pepper also cited the fact that most of the laws now on the statute books, which have limited the president's power of removal, were signed by the president rather than passed over the executive veto.

FOR ITCHING TORTURE
Use Antiseptic Liquid Zemo
There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.
Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases quickly give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid that may be applied at any time, for it does not show.

Constipation
—the penalty of civilization
RAVENOUS eaters that they were, our primitive ancestors were not bothered much with failure of the digestive or eliminative organs to function properly. Their vigorous, active habits took care of that.
But under modern living conditions we require another means of avoiding and dispelling constipation. And so more people every year are turning to Pluto Water, the safe, quick-action physic that flushes all harmful accumulations out of the bowel tract.
Ward off dangerous appendicitis, pneumonia and influenza. Don't trust to overnight cathartics that interrupt sleep or interfere with business when they work at all. Time counts when you need a physic. Pluto Water acts in 30 minutes to two hours and never gripes.
Keep a bottle of this harmless family physic in your home always. Physicians prescribe it. Druggists everywhere sell it. Bottled at famous French Lick Springs in Indiana.

HASKIN'S LETTER

By FREDERIC J. HASKIN

WASHINGTON, Oct. 28.—Has the president of the United States the constitutional right to remove from office any federal executive official whose appointment has once been confined by the senate?

This question which, according to former Solicitor General James M. Beck, is of such profound importance that it concerns the very foundation of the government, will be decided by the supreme court sometime during the present session.

Since the earliest days of the American government, sharp discussion has arisen several times over the point of whether or not the Constitution, in making the president the chief executive of the nation and responsible for the enforcing of the laws, also tacitly conferred upon him the prerogative of removing from office an official whom he felt to be incompetent.

Although this subject has never been touched upon in a number of Supreme Court decisions, it has never been brought to an issue in a clear cut test case until the present time.

The case now awaiting decision is in itself relatively unimportant, but as an example of a constitutional problem that has never been decided it is extremely significant.

In 1917 President Wilson appointed Frank S. Myers postmaster at Portland, Oregon, for a term of four years, under the act of July 12, 1876, which provides:

"Postmasters of the first, second, and third class shall be appointed and may be removed by the president by and with the advice and consent of the senate and shall hold their offices for four years unless sooner removed or suspended according to law."

The appointment was confirmed by the senate, and in January, 1920, without referring the matter to the senate, the president removed Myers from office. Myers protested that his removal was contrary to law and refused to vacate his office until a postal inspector was placed in charge.

The following year he brought suit against the government for $8,838.71, the amount of salary he would have received if he had served the full term for which he had been appointed.

Plaintiff is Now Dead.

Since the original filing of the suit Myers has died, but the case has been carried on by his estate, the last arguments being held before the Supreme Court last April. Beck, who was then Solicitor General, presented the government's case, defending the rights of the president, while George Wharton Pepper, the senior senator from Pennsylvania, was invited by the court to argue for the appellant. The arguments of these two authorities on constitutional law represent what is probably the most comprehensive study ever made of the executive rights of the president in removing federal officials.

This point of removal from office is important because, if the court denies the Myers suit, not only will the clause in the postal law requiring senatorial sanction for the removal of postmasters be declared unconstitutional, but also a precedent will be set, restraining further legislation which would tend to limit the removal powers of the president.

Some authorities contend that a Supreme Court decision of this character may bring to a head the storm which has long been raging about the General Accounting office and Comptroller General McCarl.

McCarl's office was created by the budget law of 1921, the most recent statute containing a clause definitely taking the power of removal out of the hands of the president and giving it to congress.

This law gave the comptroller general power to adjust "all claims and demands whatever by the government of the United States or against it, and all accounts whatever in which the government of the United States is concerned, either as debtor or creditor."

This means that the vouchers for all federal expenditures pass through the General Accounting office and receive the sanction of Comptroller General McCarl.

In creating the offices of comptroller general and assistant comptroller general, the law also provided that these officials should serve for fifteen years and might be removed "at any time by joint resolution of congress after notice and hearing, when, in the judgment of congress, the comptroller general or assistant comptroller general has become permanently incapacitated, or has been inefficient, or guilty of neglect of duty, or of malfeasance in office, or of any felony or conduct involving moral turpitude, and for no other cause and in no other manner except by impeachment."

Independent of the President.

Under this statute the comptroller general conducts his office entirely independent of the president, although the General Accounting office is a part of the executive branch of the government and the president is the chief executive.

In the past few months the heads of several departments have had disagreements over rulings of the comptroller general, but as this officer is answerable to congress alone, there can be no appeal to the White House for intervention on the disputed questions.

In addition to the postal law and the budget law, there have been several other statutes enacted by Congress tending to limit the president's power to remove officials at his own discretion.

According to former Solicitor General Beck, in his argument in the Myers Case, the power to remove officials is purely an executive function and not a legislative one, belonging to the president and not to congress.

He asserted that congress is empowered to create an office, abolish one, or limit the duration, but in passing a law under which the legislative body retains the privilege of removal congress "takes from the president a part of his constitutional power and divides it with the senate.' Such a law, he declared, is not the declaration of a legislative policy, but is a redistribution of the powers of government.

He said that the framers of the Constitution intended the three branches of the American government, the legislative, the executive, and the judicial, to be separate, and that the adoption of the power to remove by the senate would be an encroachment upon the executive rights of the president. He stresses the point that the power to remove is necessary for the president to perform his function of executing the laws.

"If the president cannot do this," he said, "and remove officials, however unfit or unworthy they may prove to be, without the consent of congress, then the president has neither the independence nor the power which has hitherto been attributed to his great office and which has given the government its efficiency and stability. In such event, the president is deprived of one of his greatest powers, and is important to see that the laws are faithfully executed."

Senator Pepper, speaking for the appellant, argued that while the act of removal is itself an executive act, the prescribing of the conditions under which that act may be performed is a legislative power, incident to the legislative power to create the office, to prescribe the duties of the office, to fix the salary, and to specify the term. He said that congress, in prescribing the conditions under which a removal may be made, is performing a legislative and not an executive function.

Senator Pepper also cited the fact that most of the laws now on the statute books, which have limited the president's power of removal, were signed by the president rather than passed over the executive veto.

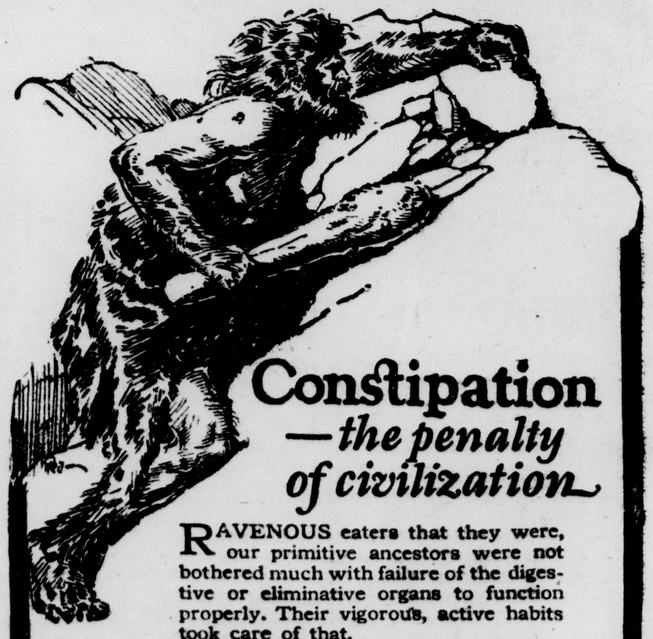
FOR ITCHING TORTURE
Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases quickly give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid that may be applied at any time, for it does not show.



Constipation
—the penalty of civilization

RAVENOUS eaters that they were, our primitive ancestors were not bothered much with failure of the digestive or eliminative organs to function properly. Their vigorous, active habits took care of that.

But under modern living conditions we require another means of avoiding and dispelling constipation. And so more people every year are turning to Pluto Water, the safe, quick-action physic that flushes all harmful accumulations out of the bowel tract.

Ward off dangerous appendicitis, pneumonia and influenza. Don't trust to overnight cathartics that interrupt sleep or interfere with business when they work at all. Time counts when you need a physic. Pluto Water acts in 30 minutes to two hours and never gripes.

Keep a bottle of this harmless family physic in your home always. Physicians prescribe it. Druggists everywhere sell it. Bottled at famous French Lick Springs in Indiana.

Q. How much cream does it take to make a pound of butter? C. R. I.

A. Approximately 1 1-3 quarts of cream are necessary to make one pound of butter provided the cream tests 30 per cent butter fat.

Q. How many passenger and freight cars are there in this country? H. P. S.

A. The latest figures available are: Passenger cars, 54,719; box cars, 1 048,231; coal cars, 949,791.

Q. How does the number of men in the United States navy compare with that of other nations? S. A. N.

A. As of May 1, 1925, the regular establishment of the treaty powers was: United States, officers 8,148, men 86,000; British Empire, officers 9 347, men 98,552; Japanese Empire, officers 7,128, men, 65,404; France, officers, 3.496, men, 55 000; Italy, officers 2,177, men 40,591.

Q. Tell me how and where Roquefort cheese is made. M. R. R.

A. Roquefort comes from the town of Roquefort perched high on a mountain in the Department of Aveyron. French historians tell us that, as far back as "Bibles times" cheese was carried from Roquefort to the Mediterranean Sea. The peasant people used to carry cheese to the top of the mountain and hide it in caves, which were found to be especially fitted by nature for the storing of cheese. The cool temperature of the caves made them excellent storehouses. This cheese is made of sheep's milk. Every morning the milk is skimmed, strained and warmed almost to the boiling point. Then it is put into pans and stirred with willow wythes. A little rennet is used to curdle the milk. After the curds are formed they are mixed with a specially prepared barley bread, which starts the green mould always to be seen in Roquefort cheese and helps to give it its distinctive flavor. The cheese is allowed to remain in the press several days and is then taken to the caves and sold. There it is cured with salt. The outside of the cheese is rubbed with salt until the pores are filled. The cheeses are cured in the caves for about four months when they are shipped to nearly all parts of the world.

Q. How did state and county fairs originate? P. M. G.

A. The origin of the state and county fair may be traced to the convenience of bringing together at stated times the buyers and sellers of the stock produce of a district. In Europe in the middle ages these fairs were generally connected with festivals of the church, this considered an appropriate time for bringing a large number of people together.

Q. Why was Beatrice Cenci executed? S. A. M.

A. Beatrice Cenci was the daughter of a Roman patrician. She was born in Rome, February 12, 1577. Her father for many years abused his wife and family in the most cruel way and as a result the family procured his murder. They were tried and sentenced to death. Beatrice was executed Sept. 11, 1599. The circumstances of her life have long caused her to be considered a martyr and her history has been the theme of several poems.

Q. Who was Mrs. Partington? C. M. K.

A. She was an anecdotal character of Sidmouth, England, who attempted to stem the incoming tide of the Atlantic Ocean with a mop during a great storm in 1824, and referred to by Sidney Smith in a speech delivered at Taunton, England, in 1831, to point out the futility of the opposition of the House of Lords to the reform movement. Mrs. Partington is also the name of a character noted for her laughable misuse of words in many sketches by B. P. Shillaber, an American humorist. He published the first of Mrs. Partington's sayings in the Boston Post in 1847.

Rub the Chest

For Deep, Heavy Colds

Here is the best way to get rid of a bad cold. First apply hot wet towels over throat and chest to open the pores of the skin.

Then massage briskly with Vicks for five minutes, spread on thickly and cover with two thicknesses of hot flannel cloths. Leave the bedclothing loose about the neck so that the vapors arising may be freely inhaled. These vapors, inhaled with each breath, carry the medication directly to the affected parts.

At the same time Vicks is absorbed through and stimulates the skin, helping the vapors inhaled to relieve tightness and soreness.

Stops That Tough Hang-On Cough That Racks Your Whole Body

For simple coughs any simple sweet sugary cough syrup will probably do.

But when you want to throw out of your system one of those old timers, that simply won't be conquered, but lingers on and on causing sleepless nights and days of torment then you've just got to have a real cough medicine.

Then you must ask your druggist for a bottle of Bronchuline Emulsion for the harder and tougher and tighter they come the more joy Bronchuline gets in knocking them out.

Bronchuline isn't a cheap cough conquerer, mind you, for first raters are never cheap. But if you are one of the unlucky ones that a persistent, health destroying cough is pushing towards the grave, get a bottle today and notice how the first dose takes right hold and soothes the terrible soreness.

Often three or four doses bring blessed relief and half a bottle forces the most stubborn cough into submission.

"A bottle of magic," one old man calls Bronchuline Emulsion. He was all worn out and ready to give up when a friend brought him the good news about Bronchuline.

Don't let a cough hang on—it's dangerous company—Get rid of it quick. Ask Carnahan's Drug Stores and Jesse D. Holloway or any up to the times druggist for a bottle of Bronchuline Emulsion.

COCO-COD

(The cod liver oil flavored with chocolate)

A VIGOROUS body—an alert mind! They go together. Coco-Cod makes both. It feeds sinewy strength and energy into the blood and nerves—it builds the vital body which produces the active mind. So through Coco-Cod, youth finds a new power to resist diseases and infections—to meet the world and carry on to success.

A B C and D vitamins (derived from vegetables, eggs and yeast) blend their body-building, vitalizing qualities to pure cod liver oil and chocolate flavoring, to make Coco-Cod. Thus you have a preparation with *more* than the tonic qualities of Cod Liver Oil, prescribed by doctors generally for rickets, anaemia, nervous disorders, undernourishment, general run-down and convalescent conditions. You have these tonic qualities plus the four vitamins essential to the system—in a form that's really good to take.

Results are surprisingly prompt, too, as Stephen Apted, Monadnock Block, Chicago, testifies: "I had no idea that a tonic could act as promptly as Coco-Cod did in my case. Lost my appetite and usual liking for work. Thanks to Coco-Cod, I had both back in two weeks."

OVERLAND CARS ARE IN DEMAND

Record Sales are Reported for 10 Months of Year.

Some idea of how greatly this fall's motor business exceeds that of a year ago is seen in the sales and production figures of Willys-Overland, Inc., for October and for the period from January 1 to October 20, 1925.

For the year to October 20 Willys-Overland shipments totaled more than 174,840 cars as compared with 130,971 for the corresponding period of last year. In addition, company production for the first 20 days of October totalled approximately 13,000 cars, indicating that between 20,500 and 21,000 cars will be built during this month, a figure that will break all production records for October shipments and production in company history. This figure compares with the October production of 1924 which totaled approximately 10,000 cars.

Orders for more than 15,000 cars for November delivery are now on hand and, after a careful checkup with dealers and distributors, factory officials declared there will probably be produced and shipped between 17,000 and 18,000 cars during November, as compared with the 5,000 cars produced in November of 1924.

Cable advices from London indicate that orders for more than $250,000 worth of cars were taken during the Olympia Motor exhibition, just closed, Great Britain's greatest automobile show, while other sections of the world report unusual sales activities for the fall months.

OVERLAND CARS ARE IN DEMAND

Record Sales are Reported for 10 Months of Year.

Some idea of how greatly this fall's motor business exceeds that of a year ago is seen in the sales and production figures of Willys-Overland, Inc., for October and for the period from January 1 to October 20, 1925.

For the year to October 20 Willys-Overland shipments totaled more than 174,840 cars as compared with 130,971 for the corresponding period of last year. In addition, company production for the first 20 days of October totalled approximately 13,000 cars, indicating that between 20,500 and 21,000 cars will be built during this month, a figure that will break all production records for October shipments and production in company history. This figure compares with the October production of 1924 which totaled approximately 10,000 cars.

Orders for more than 15,000 cars for November delivery are now on hand and, after a careful checkup with dealers and distributors, factory officials declared there will probably be produced and shipped between 17,000 and 18,000 cars during November, as compared with the 5,000 cars produced in November of 1924.

Cable advices from London indicate that orders for more than $250,000 worth of cars were taken during the Olympia Motor exhibition, just closed, Great Britain's greatest automobile show, while other sections of the world report unusual sales activities for the fall months.

Poor Average.

MINNEAPOLIS.—Half the children of Minnesota are in poor physical condition. Dr. L. R. Critchfield, health service officer, declared after a statewide investigation. Even this record is better than the country's general average, he said.

Foods That Children Love

Appetizing Ways to Impart Necessary Energy Food Element to System

Children just dote on these foods. The craving of their appetites—whetted by constant play and action—is for "fat" foods; and these foods furnish it in plenty.

Layer cake, cookies, pastry—each take lots of shortening. You can spread bread just as thick as you want. Thus each of these foods imparts a good quota of food fat to the diet. Each is an appetizing way for mothers to get children to eat enough fat foods.

Jelke GOOD LUCK Margarine is an ideal shortening. It makes delicate, fine grained cakes, tasteful cookies, and delicious pastry. As a spread for bread it is delicious.

GOOD LUCK is a blend of several pure, fresh, wholesome fats. It is easily digestible, wholesome, pure, and contains vitamines.

Serve and use GOOD LUCK to nourish children in a way they like.

The history of Yellowstone park was given by Miss Rebecca Fisher, after which Miss Nellie Rudolph described a tour of it. Ten guests were present.

The next meeting will be held November 10, when Denver and vicinity will be studied.

Wyoming Club Elects Officers.

The initial meeting of the Wyoming club was held last evening in the home of Mrs. Thomas Jones of Pleasant Heights. During a short business session held the first part of the evening, the following officers were elected: President and reporter, Mrs. George Riley; secretary and treasurer, Mrs. Ray Pennybaker. The home was decorated with lanterns and Hallowe'en colors. Games and guessing contests afforded much amusement. Trophies were awarded Mrs. William Van Fossen and Mrs. Ray Pennybaker.

A three-course luncheon was served by the hostess, assisted by Mrs. Ward Wheeler, Mrs. Ray Pennybaker and Mrs. George Riley.

Special guests included Mrs. Smith Fowler, Mrs. William Raybon and Mrs. Robert Burns.

The following new members were enrolled: Mrs. E. G. Brereton, Mrs. Elwin Shenkle, Mrs. William Greer and Mrs. Lawrence Myler.

The next meeting will be held Nov. 13, in the home of Mrs. Ward Wheeler of Pleasant Heights.

Symphony Club Session.

Members of the Symphony club were entertained at the home of Mrs. C. J. Zange of Moore street, Tuesday evening, with Mrs. C. H. Risinger as associate hostess. The following program was given:

Study book, chapter 1, with illustrations on the piano—Mrs. E. E. Dornan.

American Men Composers—Miss Lena Howard.

Piano solo, "Shewphers All and Maidens Fair"—Mrs. A. H. Mackall.

Vocal solo, "Fear Not Ye O Israel"—Mrs. J. H. Peake.

Piano solos (a) Polonaise E Minor (McDowell); (b) Idyll (McDowell)—Mrs. J. O. Heddleston.

Vocal solo, "The Star" (Rogers)—Mrs. W. H. Gerber.

Twenty-two guests were present.

Mrs. H. D. Hall Hostess

Mrs. H. D. Hall entertained last evening in her home in Thompson avenue, with a Hallowe'en party, honoring her daughters, Helen and Alma Hall. Juvenile games were pastimes. Trophies for the best and most comic costumes were awarded Louise Kidd, Margaret Bowersock, John Orr and Homer Risinger.

A three-course luncheon was served by the hostess, assisted by Mrs. Charles Laughlin, and Miss Bertha Sharp. Lollypops and chocolate bars were given as favors. Covers were arranged for Bessie Kritzer, Helen Martin, Betty and Mary Jane Laughlin, Mary Kathryn Williamson, Margaret Jane Bowersock, Louise Kidd, Anna Cronin, Betty Burbick, Helen and Alma Hall, Homer Risinger, John and Evan Orr, Kress Cronin, Robert Kritzer, Charles and Myrle Clapsaddle, William Williamson and Robert Kidd.

Danceland Party Friday

An all round dancing party will be held at Danceland Friday night in the form of a masquerade dance. Prizes will be awarded. The Curran's Danceland orchestra will be in charge of the dance music.

Church Classes Plan Party

Members of the Baraca and Philathea classes of the First Baptist church, will entertain with a masquerade party Friday evening, in the home of Mrs. A. G. Ellis of Thompson avenue. Trophies will be awarded for the best and most comic costumes, after which refreshments will be served by the groups of Mrs. Charles Brown and Mrs. Harry Bryan.

Foods That Children Love

Appetizing Ways to Impart Necessary Energy Food Element to System

Children just dote on these foods. The craving of their appetites—whetted by constant play and action—is for "fat" foods; and these foods furnish it in plenty.

Layer cake, cookies, pastry—each take lots of shortening. You can spread bread just as thick as you want. Thus each of these foods imparts a good quota of food fat to the diet. Each is an appetizing way for mothers to get children to eat enough fat foods.

Jelke GOOD LUCK Margarine is an ideal shortening. It makes delicate, fine grained cakes, tasteful cookies, and delicious pastry. As a spread for bread it is delicious.

GOOD LUCK is a blend of several pure, fresh, wholesome fats. It is easily digestible, wholesome, pure, and contains vitamines.

Serve and use GOOD LUCK to nourish children in a way they like.

HUNTING SEASON TO OPEN MONDAY

With the rapid approach of hunting season, Beaver county hunters are rushing the county treasurer's office for hunting licenses. Monday there were 362 licenses issued, bringing the total to date up to 3,200, indicating that the number issued last year, which was better than 5,400, would soon be reached.

Rabbits, squirrels and birds come in season Monday, with Beaver county not being closed to any game this season. The snappy weather of the past few days has added zest to the hunter's spirit, which gains an impetus as each day is eliminated between the opening day.

Given Small Verdict.

The jury hearing the case of B. Silverman against Tony Azzarella, of Midland, returned a verdict Monday afternoon in favor of Silverman for $1. Silverman had brought suit to recover damages and to restrain Azzarella from being in the ice business contrary to an alleged agreement in which it is claimed Azzarella agreed not to sell ice in Midland over a specific period.

Many Attend Party.

Large crowd attended the masquerade party last evening in the Hill building under the auspices of Ohio City Rebekah lodge No. 782. Music for the dancing was furnished by a band.

Odd Fellows To Meet.

Members of Pennova lodge No. 880, I. O. O. F., will meet this evening in the Hill building, Mulberry street. Committee in charge has arranged a program for the occasion.

For the purpose of improving the public highways of Chile in an efficient and scientific manner as regards construction, conservation and service a permanent commission has been appointed to study the problems and report at the first meeting next September.

So great has grown the demands for Persian rugs and carpets in Turkey that 1,200 bales of them were received in Constantinople in a recent month.

Primitive Man Full Brain, Sir Arthur Keith Asserts

Equipped Mentally 20,000 Years Ago as Well as People Now, Says Authority.

LONDON—The men who lived in Europe 20,000 years ago were as well-equipped as far as size and form of brain are concerned as the people inhabiting the world today. What need had the primitive hunter for such a brain?

This was the fascinating riddle propounded to students at Kings College here by Sir Arthur Keith, regarded as the greatest living authority on the origin of man.

His suggested answer was that all our organs are built for emergencies at critical junctures. "The heartcan rise to ten times its normal current," he said. "So can the brain, and it is on this emergency ration that the modern scholar has to depend.

Small Danger of Injury

"Few people use the extra allowance to its full capacity," Sir Arthur added. "A person can study however, to the fullest and utmost limit of endurance without doing the brain any injury.

"Infinitely greater harm is done by disease, and there is no greater nonsense than the legend that brain work might bring on brain fever," he told his hearers.

Sir Arthur propounded the following wise saws and modern instances regarding brain cells and work. "Novel reading is an excellent relaxation to the student," he said. "The healing power of a debauch of fiction is often marvelous in its result.

"We have still in us the virility and energy of men and women bred for a life in the open air, and is it because this energy of our forefathers is so strong within us that we find it an effort to settle down to our books of an evening.

"The more we give our stomachs to do the higher the price we have to pay," was another of his maxims. "The energy in an ounce of sugar would be enough, I imagine, to produce any of Shakespeare's plays," he said.

"The majority of eminent scholars have no scholarly lineage. English scholars have come from the Highland glens, the Welsh hillsides, and the English country villages."

As possible encouragement to American investment in Philippine rubber lands a movement has been started to remove the 2,500-acre limitation on land holdings by Americans, and to permit the entrance of Indentured Chinese labor for purposes of clearing and planting.

Tells Women to Avoid "Physics"

DR. CALDWELL AT AGE 63

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated women and girls had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, sallow skin, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" every little while was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels. A single dose will establish natural, healthy bowel movement for weeks at a time, even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless, and so pleasant that even a cross feverish, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

SCHOOL FUNDS HIT LOW MARK

Balance of $42,093.60 to Pay Bills for Four Months.

The East Liverpool board of education will not have sufficient funds to pay operating expenses during the remainder of the school year unless the proposed three-mill tax levy is approved at the polls on Nov. 3, it was pointed out today.

Clerk Emmett J. Gaston today called attention to a transposition of figures in a report given out at Lisbon yesterday, in which it was stated the school district had a balance of $346,527.50 at the close of the fiscal year on June 10, last.

The balance in all funds on that date totalled only $42,093.60, according to Gaston. This is needed to pay expenses for the remainder of the fall term.

"As a matter of fact," said Gaston, "the board's entire receipts last year were but $290,000."

Canadian People Go to Polls; Tariff Is Campaign Issue

OTTAWA, Canada, Oct. 29.—After a heated campaign, with tariff as the main issue, the Canadian people went to the polls today in a general parliamentary election.

Liberals and Conservatives are both confident, but it is admitted that the result will be close, with the decision probably resting with the progressive party.

There are nearly 600 candidates contesting the 241 seats in the house of commons.

Premier MacKenzie King, Liberal, has taken a middle of the road stand on tariff, favoring neither a high protective tariff nor free trade.

The Conservatives demand a high protective tariff.

The progressive party has a strong ticket in the field and hopes to maintain its strength in parliameent.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of 26 Forbes St., Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free of rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenrhu, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed Liverpool druggists, Mathews Original Cut Rate and druggists everywhere to dispense Allenrhu with the understanding that if his prescription does not banish every sign and symptom of the disease he will gladly refund your money without comment.

Tri-State Highway

(Continued from Page One)

Chippewa and Brighton townships gives wonderful grades and alignment. It seems to be the logical location of this side of the line. The road passing through Negley to intersect with the state line would strike a dirt road which was taken over as a state road during the last session of our legislature but which I do not think would be improved in the near future, as its value compared to the one mentioned is not nearly as important. The Highway map of Columbiana county and vicinity has been a great aid to me and I do not like to part with it and if possible would appreciate if you could send me another copy or two of same keeping this one which has been marked up."

"I have also indicated on this map the general location of the new state route L-238, which is spoken of as the Lincoln highway, which will give you a general idea of its connection with the recently built concrete road from Laughlin's Corners to the West Virginia line and which furnishes a direct northwest-southeast line from Lisbon into Pittsburgh. The state corps are working on this alignment at the present time. There is also shown a section of state route L-254 which will be placed under construction during the coming year. Some of the roads in blue I have marked so that this copy of the map will be fairly up to date. I am enclosing a map of Beaver county which may be of value to you."

The slush became ice by morning and a number of minor automobile accidents resulted.

Vessels on the Great Lakes scurried to the shelter of nearby ports to get out of the way of the gale that lashed the waters of the lake into waves almost mountain high. Many ships were hours late in reaching port.

With the arly advent of winter the Cleveland city council ordered the Cleveland Railway company immediately to heat all cars.

The northern section of the state got more snow today. Late in the morning flakes began peppering down, at times becoming blinding.

Three Clevelanders were seriously hurt when they collided with automobiles while crossing streets with heads down ducking the wind and driving snow.

A human derelict, shivering in a tattered waistcoat, became desperate early today. He wrapped a brick in newspapers and crashed a window of a clothing store, grabbing half a dozen overcoats. Police and pedestrians pursued, but the cold spurred him to a Nurmi sprint and he outdistanced them easily.

WASHINGTON, Oct. 29.—The capital shivered today in coldest October weather in 40 years. Freezing temperature was driven into the city by a heavy gale, accompanied by a small flurry of snow.

MARYSVILLE, O., Oct. 29.—A temperature of 12 degrees above zero was reached here early today. This, local weather forecasters believe, was the coldest in the state. All creeks froze over.

Hint Anti-Soviet Plot in Red Army; Arrest is Made

LENINGRAD, Oct. 29.—An alleged anti-soviet plot, having wide ramifications throughout the Red army, was announced by the authorities here today, following the arrest of Captain Frank, who is said to be a secret service agent of "one of the great powers."

The authorities do not identify specifically the nation which the arrested Captain Frank is alleged to have served, but they state that they have discovered there are scores of espionage agents of the neighboring countries involved in a spy plot which has penetrated the Red army. Many Czarist officers are said to be involved.

Documents which were seized are said to have revealed plans for blowing up railroads, bridges and arsenals.

REPORTS FROM STOCK MARKET

NEW YORK, Oct. 29.—Not since Mexican Petroleum disappeared from the board in 1922 have such wild variations been witnessed in speculative stocks as those which accompanied frenzied buying of Chrysler Motor since Monday. The stock bumped to above 240 in the early trading today, completing a 40-point gain since Saturday on buying which Wall street attributed in large measure to the merry game of "squeezing the short." General Motors has registered almost as spectacular a come-back since the break of October 17 and 19, selling above 140, against its reecnt low of 121. President Alfred Sloan released today the most favorable earnings statement in the post-war period, as well as reports of heavily increasing orders for subsidiary companies. Hudson topped its best previous record following reports of its 100 per cent stock dividend; Dupont pushed through to higher price levels and Fisher Body was up a few points.

Stocks of the mercantile, independent steel and utility companies were in the forefront of another brisk upward movement of prices. Woolworth jumped 6 points to a new high at 220.

TODAY

(Continued from Page One)

Line. Warfield, ahead of all others, saw what was coming and in record time built his new road across Florida, building and extending other lines on the east and west coasts. Luckily for Florida he is still building.

Hughes, former secretary of state, warns the country that it is not providing the railroads it needs. There will be 200,000,000 of us in 50 years, according to Hughes, and the nation should get ready.

The warning is needed, although the flying machine will solve a great part of the problem in less than 50 years. The country needs half a dozen more such men as Warfield, that really build while others talk.

Dr. E. A. Jenkins, of Kansas City, advises clergymen to imitate the Hebrew prophets and P. T. Barnum and advertise. The ancients certainly knew how to attract attention. Daniel in the lions' den, Elijah with his chariot of fire and trained ravens, the pious, incombustible three in the fiery furnace, etc. You could not ignore them.

Dr. Jenkins tells clergymen to select snappier titles for their sermons, imitating newspaper headline writers.

It is not easy, however, to be snappy and reverent at the same time. The Salvation Army does it, Talmadge, Beecher and Spurgeon did it. It is not easy.

Big business gets bigger every month, as it should do. The day of small enterprises is waning with nations competing for world business. The New York Central railroad releases orders for rails in 1926 amounting to 206,745 gross tons.

The Gold Dust company has sold of its product 100,000,000 pounds in the last year. And when you read Judge Gary's statement that steel mills are running at 80 per cent of capacity, remember that the "capacity" is increasing every year.

Business and prosperity in this country have only just begun. For every dollar's worth of enterprises developed there are $1,000 in plain sight, waiting to be developed.

Since Yale university started, 224 years ago, books in the library have doubled in number every 20 years. The total now is 1,390,000 and every year 50,000 books are added, others being put in storage to make room.

This proves that organization and condensation are lacking in education. Buckle is said to have read 60,000 books. Voltaire apologized for his "small" library of 6,000 volumes, each with notes in Voltaire's own hand.

Ordered to Vote "No" on Proposed Amendments.

COLUMBUS, Oct. 29. — The Ohio Ku Klux Klan vote, estimated by officials of the Invisible Empire to be 250,000 strong, has been ordered thrown against the three proposed amendments to the Ohio constitution.

Grand Dragon Clyde W. Osborn of the realm of Ohio, announced here today that word has gone to every Ohio Klansman to vote "no" on the tax classification, debt limitation and office extender amendments at the election on Nov. 3.

"I believe our action assures the defeat of the three constitutional amendments," said Grand Dragon Osborn.

Wife Takes Poison After Asking Police To Arrest Husband

CLEVELAND, Oct. 29.—Refused a warrant for the arrest of her husband, a wheelsman on an ore boat, on a charge of non-support, Mrs. Frances Bernard, 23, of Chicago, a trained nurse, attempted to commit suicide in the hospital ward at city prison today.

When Mrs. Bernard was told by authorities that her evidence against her husband was insufficient to authorize the warrant, she became violent, authorities said, and declared she would kill him, then threw a paste pot at one of the detectives who had been questioning her. She was placed under arrest.

Mrs. Bernard took a viol of poison from her handbag, and drank part of its contents. The dose, however, was too small to endanger her life, the jail physician said.

Bernard, called by police, visited his wife in the jail. Officers said no reconciliation was effected.

Five-year-old Lad Disappears; Four Cities Aid Search

NEW YORK, Oct. 29.—The whereabouts of five-year-old Frank Mackin, Jr., last seen near his home in West Thirty-ninth street, was as much a mystery as when he disappeared last Sunday night.

Police of four cities—New York, Newark, Jersey City and Hoboken—were conducting a vigorous search for the boy.

A "well dressed, stocky, swarthy-faced man," said by neighbors to have been seen in the boy's company since his disappearance was being sought.

Police released Eugene Hilderbrand, 50, of this city, a retired farmer, after they questioned him and became satisfied he had no connection with the case.

America Protests French Attack on Ancient Damascus

C. C. Cline, chairman of the committee named recently to encourage negotiations between East Liverpool and Wellsville high schools looking toward a resumption of athletic relations, reported that he had taken the matter up with C. J. Vogel, of the Wellsville Kiwanis club and later with Superintendent S. E. Daw, of Wellsville. The Wellsville school head pointed out, Mr. Cline asserted, that a game with Steubenville had already been scheduled for the coming Thanksgiving date.

President Lewis announced that Dr. Percival H. Barker, pastor of the Point Breeze Presbyterian church, of Pittsburgh, known to thousands of radio users, especially, will address the club at next week's meeting.

Discussing the county road bond issue, Van Voorles pointed out particularly that electors of Columbiana county, expressing themselves at the polls Tuesday, will not be voting a lump sum of $950,000 to the commissioners for road building purposes, but merely the authority to expend up to that amount in road building purposes.

This is done, he explained, a job at a time, and under a new law passed in July, bond issues for each road improvement will be passed after the contract is awarded, so that the issue will be for the exact amount of the cost and not merely an estimate.

He also brought to light the fact that the federation had been of great assistance to the traveling public in bringing about state action on the temporary improvement of "The Narrows," the almost impassable piece of the Ohio river road below Yellow Creek.

In referring to the bond issue he asserted that the gaps now unimproved between sections of main highways and improved roads are probably more important than the other sections of the thoroughfares.

And yet, if a husband does say: "Thank you," she thinks he's being sarcastic.—Akron Beacon-Journal.

The slush became ice by morning and a number of minor automobile accidents resulted.

Vessels on the Great Lakes scurried to the shelter of nearby ports to get out of the way of the gale that lashed the waters of the lake into waves almost mountain high. Many ships were hours late in reaching port.

With the arly advent of winter the Cleveland city council ordered the Cleveland Railway company immediately to heat all cars.

The northern section of the state got more snow today. Late in the morning flakes began peppering down, at times becoming blinding.

Three Clevelanders were seriously hurt when they collided with automobiles while crossing streets with heads down ducking the wind and driving snow.

A human derelict, shivering in a tattered waistcoat, became desperate early today. He wrapped a brick in newspapers and crashed a window of a clothing store, grabbing half a dozen overcoats. Police and pedestrians pursued, but the cold spurred him to a Nurmi sprint and he outdistanced them easily.

WASHINGTON, Oct. 29.—The capital shivered today in coldest October weather in 40 years. Freezing temperature was driven into the city by a heavy gale, accompanied by a small flurry of snow.

MARYSVILLE, O., Oct. 29.—A temperature of 12 degrees above zero was reached here early today. This, local weather forecasters believe, was the coldest in the state. All creeks froze over.

Hint Anti-Soviet Plot in Red Army; Arrest is Made

LENINGRAD, Oct. 29.—An alleged anti-soviet plot, having wide ramifications throughout the Red army, was announced by the authorities here today, following the arrest of Captain Frank, who is said to be a secret service agent of "one of the great powers."

The authorities do not identify specifically the nation which the arrested Captain Frank is alleged to have served, but they state that they have discovered there are scores of espionage agents of the neighboring countries involved in a spy plot which has penetrated the Red army. Many Czarist officers are said to be involved.

Documents which were seized are said to have revealed plans for blowing up railroads, bridges and arsenals.

Minister of colonies—M. Perrier.

Minister of liberated regions — M. Schmidt.

Minister of budget—M. Georges Bonnet.

The chief surprise in the cabinet is the inclusion of M. De Monzie, who was formerly the Herriot finance minister. It is expected that De Monzie will represent Herriot's financial views in the cabinet.

Other portfolios are unchanged except for the ministry of war and the ministry of colonies.

M. Bonnet, the new minister of budget, has been under secretary of state in the prime minister's office.

Girl Run Down by Truck

POMEROY, Oct. 29.—Struck by a heavy truck, Miss Pauline Wetzel, 16-year-old high school girl, was in a local hospital today with her skull fractured and with internal injuries. Physicians gave her little prospects of recovery.

Sufferers from Piles

Can now get immediate relief with specialist's new preparation.

People suffering from sore, itching, bleeding piles can now have a wonderful scientific unguent that stops disagreeable symptoms at once. Moreover, it rapidly dispels the hemorrhoidal condition, often allaying the cause so that every symptom becomes a thing of the past.

Pile-num, as this amazing ointment is called, is not only pain killing but it actually lubricates elimination, preventing irritation to the sore parts. It is wonderfully germicidal, aiding in the prevention of any infection that might prove dangerous.

REPORTS FROM STOCK MARKET

NEW YORK, Oct. 29.—Not since Mexican Petroleum disappeared from the board in 1922 have such wild variations been witnessed in speculative stocks as those which accompanied frenzied buying of Chrysler Motor since Monday. The stock bumped to above 240 in the early trading today, completing a 40-point gain since Saturday on buying which Wall street attributed in large measure to the merry game of "squeezing the short." General Motors has registered almost as spectacular a come-back since the break of October 17 and 19, selling above 140, against its reecnt low of 121. President Alfred Sloan released today the most favorable earnings statement in the post-war period, as well as reports of heavily increasing orders for subsidiary companies. Hudson topped its best previous record following reports of its 100 per cent stock dividend; Dupont pushed through to higher price levels and Fisher Body was up a few points.

Stocks of the mercantile, independent steel and utility companies were in the forefront of another brisk upward movement of prices. Woolworth jumped 6 points to a new high at 220.

Grandmother, 52, Plans To Conquer Channel; Constantly Training

WEYMOUTH, England — Although 52 years old and a grandmother, Mrs. Craven proposes to try her luck in conquering the English Channel, and is constantly training here for her attempt, scheduled to take place in July or August, 1926.

She practices every morning in all kinds of weather, and her latest feat on a cold October morning with a very high and chilly sea running was to swim a distance of seven and a half miles. When not practicing Mrs. Craven is employed as a nurse in a local hospital.

CROP REPORTING BOARD SILENT

WASHINGTON, Oct. 29.—In the face of criticism and threats of a congressional investigation of the methods of the crop reporting board in estimating the cotton crop, officials of the department of agriculture today remained silent, refusing to comment on the charge made by Gen. T. H. Caraway (D.) of Arkansas, that the last cotton report "cost southern cotton planters $350,000,000."

TODAY

(Continued from Page One)

Line. Warfield, ahead of all others, saw what was coming and in record time built his new road across Florida, building and extending other lines on the east and west coasts. Luckily for Florida he is still building.

Hughes, former secretary of state, warns the country that it is not providing the railroads it needs. There will be 200,000,000 of us in 50 years, according to Hughes, and the nation should get ready.

The warning is needed, although the flying machine will solve a great part of the problem in less than 50 years. The country needs half a dozen more such men as Warfield, that really build while others talk.

Dr. E. A. Jenkins, of Kansas City, advises clergymen to imitate the Hebrew prophets and P. T. Barnum and advertise. The ancients certainly knew how to attract attention. Daniel in the lions' den, Elijah with his chariot of fire and trained ravens, the pious, incombustible three in the fiery furnace, etc. You could not ignore them.

Dr. Jenkins tells clergymen to select snappier titles for their sermons, imitating newspaper headline writers.

It is not easy, however, to be snappy and reverent at the same time. The Salvation Army does it, Talmadge, Beecher and Spurgeon did it. It is not easy.

Big business gets bigger every month, as it should do. The day of small enterprises is waning with nations competing for world business. The New York Central railroad releases orders for rails in 1926 amounting to 206,745 gross tons.

The Gold Dust company has sold of its product 100,000,000 pounds in the last year. And when you read Judge Gary's statement that steel mills are running at 80 per cent of capacity, remember that the "capacity" is increasing every year.

Business and prosperity in this country have only just begun. For every dollar's worth of enterprises developed there are $1,000 in plain sight, waiting to be developed.

Since Yale university started, 224 years ago, books in the library have doubled in number every 20 years. The total now is 1,390,000 and every year 50,000 books are added, others being put in storage to make room.

This proves that organization and condensation are lacking in education. Buckle is said to have read 60,000 books. Voltaire apologized for his "small" library of 6,000 volumes, each with notes in Voltaire's own hand.

GREEK TROOPS QUIT BULGARIA

PARIS, Oct. 29.—"The Greek evacuation of Bulgarian territory is proceeding normally and we hope to be able to report that Bulgaria has been cleared of Greek soldiers on Friday morning."

This report, received from the French military attache at Belgrade, who has acted as one of the league of nations council investigators on the Bulgarian frontier, was laid before the council when it met this afternoon.

Two Break Legs as They Jump From Burning Building

CLEVELAND, Oct. 29. — Thomas Calvert and his son both suffered broken legs today when they ,with seven others, were forced to jump from the window of a burning building to the ice-covered sidewalk.

The building caught fire while several roomers were still abed and they were forced to the wind-swept street in their night clothes.

RIFFS BOMBARD SPANISH LINES

PARIS, Oct. 29.—Spanish positions dominating the former Riff stronghold of Ajdir were the objective of a violent attack of Riffian tribesmen, according to dispatches received here today. The Riffs were repulsed with heavy losses.

KLAN OPPOSES STATE ISSUES

Ordered to Vote "No" on Proposed Amendments.

COLUMBUS, Oct. 29. — The Ohio Ku Klux Klan vote, estimated by officials of the Invisible Empire to be 250,000 strong, has been ordered thrown against the three proposed amendments to the Ohio constitution.

Grand Dragon Clyde W. Osborn of the realm of Ohio, announced here today that word has gone to every Ohio Klansman to vote "no" on the tax classification, debt limitation and office extender amendments at the election on Nov. 3.

"I believe our action assures the defeat of the three constitutional amendments," said Grand Dragon Osborn.

Wife Takes Poison After Asking Police To Arrest Husband

CLEVELAND, Oct. 29.—Refused a warrant for the arrest of her husband, a wheelsman on an ore boat, on a charge of non-support, Mrs. Frances Bernard, 23, of Chicago, a trained nurse, attempted to commit suicide in the hospital ward at city prison today.

When Mrs. Bernard was told by authorities that her evidence against her husband was insufficient to authorize the warrant, she became violent, authorities said, and declared she would kill him, then threw a paste pot at one of the detectives who had been questioning her. She was placed under arrest.

Mrs. Bernard took a viol of poison from her handbag, and drank part of its contents. The dose, however, was too small to endanger her life, the jail physician said.

Bernard, called by police, visited his wife in the jail. Officers said no reconciliation was effected.

Five-year-old Lad Disappears; Four Cities Aid Search

NEW YORK, Oct. 29.—The whereabouts of five-year-old Frank Mackin, Jr., last seen near his home in West Thirty-ninth street, was as much a mystery as when he disappeared last Sunday night.

Police of four cities—New York, Newark, Jersey City and Hoboken—were conducting a vigorous search for the boy.

A "well dressed, stocky, swarthy-faced man," said by neighbors to have been seen in the boy's company since his disappearance was being sought.

Police released Eugene Hilderbrand, 50, of this city, a retired farmer, after they questioned him and became satisfied he had no connection with the case.

America Protests French Attack on Ancient Damascus

WASHINGTON, Oct. 29. — The American government has lodged an official protest with the French government over the bombardment of Damascus by French artillery and the unnecessary jeopardy to American lives that such a procedure entailed it was admitted today at the state department.

In setting forth its displeasure over the summary action of the French administration in Damascus, the United States has ranged alongside the British government, which also has protested, it is understood.

There are many Americans in Syria, many of them naturalized citizens, but a good many native born.

DEATH ROLL

Leake Funeral Services.

Funeral services for Mrs. Mary Helen Leake, wife of John R. Leake, who died Wednesday at her home, 1011 Ohio avenue, East End, will be held at 2 o'clock tomorrow afternoon in the home of her mother, Mrs. T. W. McCain, 513 Jefferson street. Rev. Freedrick A. Dean, pastor of the Second Presbyterian church will be in charge, assisted by Rev. D. W. MacLeod, pastor of the First Presbyterian church.

Mrs. Leake is survived by her husband, her mother, Mrs. T. W. McCain, one sister, Miss Ethel McCain, and one brother, James Wilbur McCain, of Rochester, Pa. She was a member of the Second Presbyterian church, Tribe of Ben Hur and Ceramic Rebekah Lodge No. 286.

Friends may view the body from 7 to 10 this evening.

John P. Goddard.

John P. Goddard, 47 years old, potter, died yesterday at his home, Wedgewood street, East End, following a long illness of complication of diseases.

He is survived by his wife and two sisters, Mrs. Arthur Stanbach and Mrs. William Sylvester, both of Pittsburgh, Pa.

Funeral services will be held in the home tomorrow afternoon at 2:30. Rev. John Douglass, pastor of the Oakland Free Methodist church, will have charge. Burial will be made in Riverview cemetery.

Friends can view the body this evening.

MOTION PICTURE DIRECTOR JAILED

LOS ANGELES, Oct. 29.—King Baggot, prominent motion picture director, was arrested today by police on charges of being intoxicated, after his wife complained to the authorities. Mrs. Baggot told the officers she wanted Baggot arrested because she feared he would become abusive. William Desmond, screen star, placed $20 bail for Baggot but police said the director would not be released from jail until later in the day.

John Newell won the attendance prize, donated by Charles Pilgrim.

C. C. Cline, chairman of the committee named recently to encourage negotiations between East Liverpool and Wellsville high schools looking toward a resumption of athletic relations, reported that he had taken the matter up with C. J. Vogel, of the Wellsville Kiwanis club and later with Superintendent S. E. Daw, of Wellsville. The Wellsville school head pointed out, Mr. Cline asserted, that a game with Steubenville had already been scheduled for the coming Thanksgiving date.

President Lewis announced that Dr. Percival H. Barker, pastor of the Point Breeze Presbyterian church, of Pittsburgh, known to thousands of radio users, especially, will address the club at next week's meeting.

Discussing the county road bond issue, Van Voories pointed out particularly that electors of Columbiana county, expressing themselves at the polls Tuesday, will not be voting a lump sum of $950,000 to the commissioners for road building purposes, but merely the authority to expend up to that amount in road building purposes.

This is done, he explained, a job at a time, and under a new law passed in July, bond issues for each road improvement will be passed after the contract is awarded, so that the issue will be for the exact amount of the cost and not merely an estimate.

He also brought to light the fact that the federation had been of great assistance to the traveling public in bringing about state action on the temporary improvement of "The Narrows," the almost impassable piece of the Ohio river road below Yellow Creek.

In referring to the bond issue be asserted that the gaps now unimproved between sections of main highways and improved roads are probably more important than the other sections of the thoroughfares.

And yet, if a husband does say: "Thank you," she thinks he's being sarcastic.—Akron Beacon-Journal.

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting and operations fail?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by C. G. Anderson and druggists everywhere, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It will do the same for you.

Endured Misery of Piles for Years

In Agony Most All the Time—Writes This Grateful Letter.

202 Carolina Street, Buffalo, N. Y. Gentlemen—I was afflicted with the worst case of piles that you can imagine. For years I tried remedy after remedy without obtaining any lasting benefits, and when the Hamadala Pile Tablets were recommended to me I felt it would be only another useless experiment, but I was willing to take another chance as I had got to where I was in agony about all the time.

After I commenced taking the second box I began to see results, and today I am absolutely cured of my trouble, and have almost forgotten that I ever had the piles. Hamadala Tablets have made a new man of me, and I want to do everything I can to bring them to the attention of those who are suffering as I was.

Very truly yours, W. STEDMON.

The Hamadala treatment is an inexpensive internal constitutional treatment for blind, bleeding or protruding piles that comes in tablet form. It is dispensed under refund guarantee by C. G. Anderson, Carnahan's Drug Stores, J. D. Holloway and all good druggists.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

HUDSON-ESSEX PRICES DROP

Reduction Announced by Dealer Ray R. Birch.

Hudson and Essex cars were substantially reduced in prices in an announcement to the public this week by Ray R. Birch, distributor for the East Liverpool area. No comment was made with the reduction, on the Hudson-Essex theory that the public is more interested in the fad than in explanations.

But the presumption in mofor circles was that it is a further step in the aggressive Hudson-Essex program of making their cars available to a still wider circle of buyers.

Along with the reduction in the list price came cuts also in war taxes and other expenses, so that the delivered prices in this city are now even more favorable than the mere reduction in list price would have effected.

"Now the question among automobile men," said Mr. Birch, "is, how does Hudson do it? The public has seen Hudson-Essex make this and other price announcements when least expected. The buyers are asking what there is different about Hudson-Essex manufacturing and selling methods which have made these cuts possible.

"The answer is this: No one method or stunt either in manufacturing or selling can be held responsible. Rather, there is a general cooperation all along the line to make the cars as carefully and as economically as possible, and to merchandise them to the public in the same way.

"Of course Hudson-Essex has basic advantages in being the largest manufacturer of six-cylinder cars in the world and in being the greatest closed car specialists, with over 95 per cent of their volume in this type of business. But these advantages are augmented by so many detailed methods that the reason is highly complicated and many-sided.

"The theory in every department of Hudson-Essex business is that the cars must be continued as 'the world's greatest values'—with this phrase considered as to mere generality but as a truth fully backed by facts."

Watchman Damages Rare Onyx Treasure At National Museum

NAPLES—The Tazza Farnese, an Alexandrian work of the Greek period, and one of the most treasured works of art in the world, has been damaged by a watchman at the National Museum because he was reprimanded for negligence. The watchman struck the cup with an umbrella, but luckily only broke it into two parts, which renders repair possible. Specialists have been summoned from Florence to do the necessary work, and the vindictive watchman has been arrested.

The Tazza Farnese is cut from a single piece of onyx considered the largest in the world. It is decorated with exquisite cameo work. It formerly belonged to the Vatican, but passed into the possession of the Farnese family after many vicissitudes.

NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

This Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy — Feel Your Very Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleansed and Toned and the System is working normally again.

Why This Gives Relief.

When working as Nature intended your Liver does three things necessary to keep you feeling your best. First, it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your liver becomes sluggish it cannot do these three things; consequently, you suffer from one or more of the symptoms above described.

Share It With Family!

Just to prove to you that you CAN get quick RELIEF, druggists are giving away FREE liberal trial size bottles of Dr. Thacher's Liver and Blood Syrup. It is a syrup of PURELY VEGETABLE ingredients known to Physicians for their CORRECTIVE and HEALTH-BUILDING properties. Each ingredient is chosen to help Nature to cleanse and tone the Liver—to correct this cause of Constipation—to improve Digestion and Appetite—to Nourish and Strengthen the System—to tone the Tired and Overtaxed Nerves, and to send purer, Healthier Blood coursing through your veins

FREE! This Coupon is Good for One Sample Bottle of Dr. Thacher's Liver & Blood Syrup

If presented before the supply for free distribution is already given away. Read the full details above, then act at once, as this offer is limited. Get a trial size now by presenting this coupon to Carnahan Drug Co., East Liverpool, Ohio.

In a recent report of a Bolshevist "Congress of Press Workers' it was disclosed that there were, last year, "about 150,000 newspaper correspondents from the masses of workers and peasants,' and that measures are to be taken to "equip this multitude of new writers for regular and systematic work on the press."

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting and operations fail?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by C. G. Anderson and druggists everywhere, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It will do the same for you.

Endured Misery of Piles for Years

In Agony Most All the Time—Writes This Grateful Letter.

202 Carolina Street, Buffalo, N. Y.

Gentlemen—I was afflicted with the worst case of piles that you can imagine. For years I tried remedy after remedy without obtaining any lasting benefits, and when the Hamadala Pile Tablets were recommended to me I felt it would be only another useless experiment, but I was willing to take another chance as I had got to where I was in agony about all the time.

After I commenced taking the second box I began to see results, and today I am absolutely cured of my trouble, and have almost forgotten that I ever had the piles. Hamadala Tablets have made a new man of me, and I want to do everything I can to bring them to the attention of those who are suffering as I was.

Very truly yours, W. STELDMON.

The Hamadala treatment is an inexpensive internal constitutional treatment for blind, bleeding or protruding piles that comes in tablet form. It is dispensed under refund guarantee by C. G. Anderson, Carnahan's Drug Stores, J. D. Holloway and all good druggists.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

HUDSON-ESSEX PRICES DROP

Reduction Announced by Dealer Ray R. Birch.

Hudson and Essex cars were substantially reduced in prices in an announcement to the public this week by Ray R. Birch, distributor for the East Liverpool area. No comment was made with the reduction, on the Hudson-Essex theory that the public is more interested in the fad than in explanations.

But the presumption in mofor circles was that it is a further step in the aggressive Hudson-Essex program of making their cars available to a still wider circle of buyers.

Along with the reduction in the list price came cuts also in war taxes and other expenses, so that the delivered prices in this city are now even more favorable than the mere reduction in list price would have effected.

"Now the question among automobile men," said Mr. Birch, "is, how does Hudson do it? The public has seen Hudson-Essex make this and other price announcements when least expected. The buyers are asking what there is different about Hudson-Essex manufacturing and selling methods which have made these cuts possible.

"The answer is this: No one method or stunt either in manufacturing or selling can be held responsible. Rather, there is a general cooperation all along the line to make the cars as carefully and as economically as possible, and to merchandise them to the public in the same way.

"Of course Hudson-Essex has basic advantages in being the largest manufacturer of six-cylinder cars in the world and in being the greatest closed car specialists, with over 95 per cent of their volume in this type of business. But these advantages are augmented by so many detailed methods that the reason is highly complicated and many-sided.

"The theory in every department of Hudson-Essex business is that the cars must be continued as 'the world's greatest values'—with this phrase considered as to mere generality but as a truth fully backed by facts."

Watchman Damages Rare Onyx Treasure At National Museum

NAPLES—The Tazza Farnese, an Alextandrian work of the Greek period, and one of the most treasured works of art in the world, has been damaged by a watchman at the National Museum because he was reprimanded for negligence. The watchman struck the cup with an umbrella, but luckily only broke it into two parts, which renders repair possible. Specialists have been summoned from Florence to do the necessary work, and the vindictive watchman has been arrested.

The Tazza Farnese is cut from a single piece of onyx considered the largest in the world. It is decorated with exquisite cameo work. It formerly belonged to the Vatican, but passed into the possession of the Farnese family after many vicissitudes.

In a recent report of a Bolshevist "Congress of Press Workers' it was disclosed that there were, last year, "about 150,000 newspaper correspondents from the masses of workers and peasants,' and that measures are to be taken to "equip this multitude of new writers for regular and systematic work on the press."

There is but one good kind of a knocker and that is the fellow who knocks himself.—Bellefontaine Examiner.

NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

This Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy — Feel Your Very Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleansed and Toned and the System is working normally again.

Why This Gives Relief.

When working as Nature intended your Liver does three things necessary to keep you feeling your best. First, it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your liver becomes sluggish it cannot do these three things; consequently, you suffer from one or more of the symptoms above described.

Share It With Family!

Just to prove to you that you CAN get quick RELIEF, druggists are giving away FREE liberal trial size bottles of Dr. Thacher's Liver and Blood Syrup. It is a syrup of PURELY VEGETABLE ingredients known to Physicians for their CORRECTIVE and HEALTH-BUILDING properties. Each ingredient is chosen to help Nature to cleanse and tone the Liver—to correct this cause of Constipation—to improve Digestion and Appetite—to Nourish and Strengthen the System—to tone the Tired and Overtaxed Nerves, and to send purer, Healthier Blood coursing through your veins

FREE! This Coupon is Good for One Sample Bottle of **Dr. Thacher's Liver & Blood Syrup**

If presented before the supply for free distribution is already given away. Read the full details above, then act at once, as this offer is limited. Get a trial size now by presenting this coupon to Carnahan Drug Co., East Liverpool, Ohio.

Toronto

The Mission board of the Methodist Protestant church met Friday evening with Miss Helen Price of Loretta avenue. Fifteen members responded to roll call. Miss Price presided and devotions were led by Miss Margaret Clendenning. Following the business, games were enjoyed, after which refreshments were served by a committee composed of Misses Helen Price, Margaret Wemple and Florence Sutton.

The Ladies' Missionary society of the Church of Christ met Friday evening with Mrs. Don Milby, on Trenton street, with a good attendance. Mrs. Milby had charge of the program. The subject under consideration was "Stewardship." Papers on the subject were read by Mrs. Milby and Mrs. Elizabeth Wilson. Rev. G. Halleck Rowe gave an interesting talk on the subject. In the absence of the president, Mrs. Ben Hatton presided over the business session. Following the business session, Mrs. Don Milby's division served refreshments.

Misses Dorothy and Ruth Peters were the charming hostesses to several classes of the Presbyterian Bible school and friends at a nicely arranged masquerade party at their home on Euclid avenue, Friday. There were between fifty and sixty young people in costume. Prizes were awarded to the best dressed lady and gent and the most comic. The basement of the Peters home was decorated with Japanese lanterns and Hallowe'en clors. The hours were spent in playing games. An appetizing Hallows'en lunch was served by the hostess.

The N. and N. club meeting was held Friday afternoon at the home of the president, Mrs. T. Hayes White of River avenue. This meeting was in the form of a 1 o'clock luncheon, six tables being set. Fall flowers were used profusely in the decorations. Following the luncheon an interesting and appropriate address was made by Mrs. Hugh T. Clark, of Steubenville, vice president of the Middle East Women's Federation club. Following the luncheon the regular business session was held.

Mrs. Rufus Newhold, of Baltimore avenue, entertained about 30 friends with a masquerade party at her home. "500" and Rook formed the pastime for the evening. The basement was decorated in keeping with the Hallowe'en season. The guests were escorted to their part of the home where a three course lunch was served. The out of town guests were: Mrs. James Reed and Mrs. Will Swickard, of Osage.

Miss Lais Pickells, little daughter of Mr. and Mrs. David Pickells, of Grant street, was surprised Friday evening when about 20 of her little friends called at her home to help celebrate her birthday. All were masked. The evening was spent in playing games and refreshments were served. The honor guest received a number of gifts.

Reports quick recovery from bruises and strain

HURTS HIP IN FALL FROM TREE

Bruises and strain quickly helped by simple treatment

A simple home treatment, used at once, will greatly hasten recovery from bruises, strains, and sprains.

Hundreds of people from all over the country have taken the trouble to write of the truly remarkable results they have got from using it.

A young woman writes from Bushnell's Basin, Monroe County, N. Y., that while she was picking cherries, the branch of the tree on which she was standing, broke and gave her a bad fall.

"I suffered agony," she says, "but I used Sloan's Liniment, and it relieved the pain right away. Now I don't feel it at all."

Sloan's gets results because it doesn't just deaden pain; it gets at the cause.

Right to the place that hurts it brings a healing stream of fresh blood. Quickly and surely it breaks up congestion, drives away pain. So clean and easy to use, too. Get a bottle today. All druggists—35 cents.

Reports quick recovery from bruises and strain

HURTS HIP IN FALL FROM TREE

Bruises and strain quickly helped by simple treatment

A simple home treatment, used at once, will greatly hasten recovery from bruises, strains, and sprains.

Hundreds of people from all over the country have taken the trouble to write of the truly remarkable results they have got from using it.

A young woman writes from Bushnell's Basin, Monroe County, N. Y., that while she was picking cherries, the branch of the tree on which she was standing, broke and gave her a bad fall.

"I suffered agony," she says, "but I used Sloan's Liniment, and it relieved the pain right away. Now I don't feel it at all."

Sloan's gets results because it doesn't just deaden pain; it gets at the cause.

Right to the place that hurts it brings a healing stream of fresh blood. Quickly and surely it breaks up congestion, drives away pain. So clean and easy to use, too. Get a bottle today. All druggists—35 cents.

FIVE BALLOTS TO MARK HERE

Mayoralty Fight Continues to Claim Interest.

Wellsville electors will mark five ballots at the general election on next Tuesday.

They are: Municipal ticket, state amendments, county road bond issue, board of education and the half-mill light levy.

From the standpoint of political interest, chief interest centers on the mayoralty battle with four contestants seeking votes. Mayor James S. Barnes, independent, asks re-election. The Republican candidate is Wallace L. Fogo; the Democratic nominee M. K. Duty and Solicitor George D. Ingram, an independent.

The half-mill tax levy occupies a place of importance, also, in the eyes of voters here. Upon the result of the vote depends, it is said, whether the city will have street lights, inasmuch as the money received from the levy will be necessary to continue the system.

The vote on the three proposed state constitutional amendments and the county road bond issue will be counted first here as elsewhere in the 104 precincts of the county after the polls close Tuesday evening, according to instructions to presiding judges.

Healthy Hair

Gleamy, Thick, Wavy —Full of Life

Modern style in hair dress, particularly constant curling and waving, is slowly burning the color, lustre and very life from the hair, leaving it dry, faded, brittle, streaked with gray; often the hair roots shrink, then the hair falls out fast.

A 35-cent bottle of refreshing, fragrant "Danderine" will do wonders for any girl's hair. This vitalizing beauty-tonic acts on the hair like fresh showers of rain and sunshine act on vegetation. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant.

Try this for one week! While combing and dressing your hair, moisten your hair brush with a little "Danderine" and brush it through your hair—the effect is startling! Your hair immediately takes on new life and that healthy, youthful lustre, becomes incomparably soft, wavy and appears twice as thick and abundant.

I. C. C. HANDS DOWN FREIGHT RULINGS

Two decisions affecting freight rates in the Pittsburgh industrial district have been announced by the interstate commerce commission.

In an award under a complaint brought by the American Shipbuilding company against the director general of railroads and the Baltimore & Ohio railroad, the commission declared rates on iron and steel products from Pittsburgh and nearby shipping points to Cleveland and Lorain, via Youngstown or Wellsville, to be unreasonable to the extent that they exceeded the aggregate of intermediate rates via Youngstown. The ruling applies to shipments from Pittsburgh, Economy, Beaver Falls, Morado and Midland and other points in western Pennsylvania, taking the same or related rates.

In the case of the United Zinc Smelting Corporation against Pennsylvania Railroad, the commission ruled that the rate on coke dust or breeze coke in carloads from Pittsburgh and the Pittsburgh district to Moundsville were unreasonable and fixed the rate at $1.60 per net ton. The complainant was awarded reparation. The new rate was not opposed by the carrier.

CHURCH PARTY PLANS COMPLETE

Plans have been perfected for the Hallowe'en party and parcel post sale which will be held Friday evening in the basement of the First Christian church.

The program which will begin at 7:30 o'clock has been arranged as follows:

Selection—Spring's orchestra.
Piano duet—Mary Campbell and Ruth Henthorne.
Reading—Grattan Dugas.
Solo—Betty Piatt.
Trombone and cornet duet—Sherman Spring and son, Francis.
Reading—Doris Maxine Miller.
Orchestra selection.
Ladies' quartet—Mrs. George Crowl, Mrs. T. C. McClelland, Miss Deanie Golden and Mrs. Charles Montgomery.
Reading—Mrs. W. E. Weldon.
Vocal duet—Lucille Crawford and Ruth Henthorne.

In addition, there will be games and contests appropriate to the occasion, the chief feature of which will be the parcel post sale. Refreshments will be served. A small admission fee will be charged.

TO INVESTIGATE MAIL SERVICE

That the postoffice department intends to secure action in the matter of mail service for the lower end of Jefferson county, recently curtailed by the removal of two trains from the C. & P. division is seen in a letter received by Congressman Frank Murphy, of this district, in which an investigation is promised.

Mr. Murphy, several days ago, protested the condition resulting from the removal of the mail service. He addressed a letter to the Second Assistant General, asking that he send an inspector to visit the cities most affected by the change.

W. I. Glover, the official to whom Mr. Murphy wrote, replied that he will have the matter investigated by field officers of the department. He also wrote that especial attention will be given the suggestion that mail service be established over the line of the Steubenville, East Liverpool and Beaver Valley Traction company, in an effort to better the service.

Facts about Child-Birth

FOR the expectant mother's comfort and well being, there is nothing that equals Mother's Friend. Its highly refined oils and other ingredients quickly commends it to the thoughtful mother. It is known that plain oils only penetrate the skin, whereas Mother's Friend penetrates deeper and soothes the broad muscles and ligaments; making them soft and pliable—thus aiding Nature to do her part without the unnecessary discomfort and pain. This is why Mother's Friend has proven such a blessing to expectant mothers for over three generations. Mother's Friend is the formula of an eminent physician. It is safe and free from harmful drugs.

"I will tell all my friends about Mother's Friend." Writes Mrs. Ben Strahara, Princeton, Ill. "It is a wonderful help all through the period."

Needless to say the mothers who praise Mother's Friend the most, are those who did not use it with their first baby and through its use with the second, realized its almost unbelievable results.

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 35, Atlanta, Ga., for free valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—everywhere.

EAGLES TO HOLD BALL TOMORROW

Arrangements have been completed for the masquerade ball to be held tomorrow night in the city hall auditorium under auspices of Eagles' lodge No. 772, of this city.

The ticket sale thus far gives every indication of a large attendance, according to William Dalby, chairman of the committee in charge of the affair.

Prizes will be awarded to the persons wearing the most comic and the best costumes.

Dorsey Mann and his Swanee Serenaders will furnish music for the dancing.

Empire Woman Dead.

Mrs. Jesse Penman Mushrush, aged 48 years, died at the family home in Empire on Tuesday morning at 5 o'clock. The funeral services will be held from her late home on Friday afternoon at 2 o'clock. Canary Saves Man Who Was Overcome By Escaping Gas

NEWARK, N. J.—You can't give a medal to a canary, so all that "Jackie" pet canary of Mrs. Mary Coburn, has is a place in the sun. "Jackie" saved the life of Mrs. Coburn's 80-year-old father-in-law.

When Mrs. Coburn returned to her home at No. 75 Court street from a shopping tour she noted the canary did not welcome her with his customary chirp. Sensing something was wrong she hurried through the house and found her father-in-law overcome by escaping gas.

He was hurried to the hospital and revived.

Finding of Skeleton West of Greenville Causes Speculation

GREENVILLE—Great interest has been aroused by the unearthing of the skeleton of a man in a gravel pit on the Bishop Crossing road, about a mile west of here by James Cashman and his son, Robert.

County authorities who have inspected the bones believe the remains were those of an Indian.

The skeleton was found under a foot of ground and was in perfect alignment when unearthed. The owner of the remains once must have been a powerful man at least seven feet in height, as suggested by the long thigh bones.

The bones had a rusty appearance showing they were buried may years ago.

Dr. Frank Clear, after examining the teeth in the skull, gave it as his opinion that skeleton was that of a man of about 30 years of age. The skull back sharply from the forehead, another evidence that tends to indicate the remains are those af an Indian.

The bones were brought to this city.

Much speculation has been expressed as to whether the Indian was killed in a fight hereabouts during the days when this country was part of the "dark and bloody battleground of the frontier."

To further aid building in Italy, the government has extended to 1928 the regulation that dwellings, hotels, stores and offices acr subject to only a small fraction of the normal tax.

Money Back If One Bottle of Dare's Mentha-Pepsin Doesn't Do You More Good Than Anything You Ever Used.

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and gaspy.

You think perhaps you are suffocating.

You are dizzy and pray for quick relief—what's to be done?

Just one dessert spoonful of Dare's Mentha-Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe deep and naturally.

Oh! What blessed relief; but why not get rid of such attacks altogether? Why have chronic indigestion at all? With this wonderful medicine you can banish indigestion or dyspepsia; catarrh of stomach or any abnormal condition that keeps the stomach in constant rebellion and one bottle will prove it.

And how happy you will be when your stomach is as good as new for then dizziness, nervousness, sleeplessness, headache dull eyes and other ailments caused by a disordered stomach will disappear and you will be your old happy, contented self again. Jesse D. Holloway and every regular pharmacist guarantees one bottle of Dare's Mentha-Pepsin to show the way to stomach comfort.

YESTERDAY'S PUZZLE ANSWERED

Says--Now Stiff Joints Must Go!

New Discovery iL mbers 'Em Up and Even the Creaking Ceases.

Yes; it's true—the world progresses. All you have to do nowadays to limber up that old stiff, creaky knee joint is to squeeze a half inch of miracle-working substance from a tube.

Then rub it on the offending part for about a quarter of a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspaper and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease: They call this wonder-working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, stainless prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in knee, elbow, ankle, hip, shoulder, spine or finger, and for that purpose its sale, at 60 cents a tube, is immense.

All druggists sell dozens of tubes of it every week, and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint agony gets out—quick.

Radio Information On Weather Means Dollars to Farmer

NEW YORK.—Information obtained over the radio means dollars and cents to the farmer, said General J. G. Harbord.

"Weather reports are very valuable when perishable crops are being gathered," asserted Gen. Harbord. "Then there are many uses of radio broadcasting in connection with the securing of labor in time of scarcity; in coping with epidemic among farm animals; in battling against insect pests; in furthering the mission of farmers' organizations, and in developing better methods of farming.

"In rush seasons broadcasting may well call attention to the availability of labor supply. It may contribute to the fluidity of such supply by enabling one region to draw on the labor surplus of another."

TAX INJUNCTION CASE IS HEARD

Actions Instituted by Big Gas Companies Before Court.

A section of the gross sales tax law saying injunctions to restrain its operation shall not be granted except on certain conditions, furnished the stumbling block yesterday in arguments on the petition of three natural gas companies for such an injunction.

The cases, brought by the Hope Natural Gas company, the Reserve Gas company and the United Fuel Gas company, were before Judge Morgan Owen of the common pleas court of Kanawha county on motion of the companies for a temporary injunction to restrain State Tax Commissioner Grant P. Hall and Attorney General Howard B. Lee from enforcing the provisions of the business-profession or gross sales tax against those companies. During the arguments H. D. Rummell, speaking for the three companies, contended the act was unconstitutional under both federal and state constitutions, while T. C. Townsend and Fred O. Blue, special counsel for the state, argued that the occasion did not call for a temporary injunction.

"No injunction shall be awarded by any court or judge to restrain the collection of the taxes imposed by this or any part of them due from any person upon the ground that the assessment thereof was in violation of the constitution of the United States, or of this state, or that the same were fraudulenly assessed, or that there was a mistake made in the amount of taxes assessed upon such persons," reads a paragraph of section 10 of the act, upon which Judge Owen asked further enlightenment.

The court inquired of Mr. Blue whether he understood that granting of an injunction would prevent collection on the assessments at the present time and the state counsel pointed out that the gas companies in this case announce that they do not intend to make the required returns to the tax commissioner and that assessment of the tax does not come until after the time for making the returns, Mr. Rummell, however, replied that the companies charge the act invades their constitutional rights and that therefore even had the act forbidden all injunctions, the provision would be void as depriving them of due process of law.

Millions of Dead Fish Delay Ship at Sea

Tampa, Fla.—Millions of dead fish covered the surface of the water for more than 20 miles between Manasope and Boca Grande recently, causing the steamer Royal Palm, en route from Fort Myer to Tampa, to reduce its speed and arrive in this port several hours late. Ship officers immediately reported the matter to the federal authorities, and an investigation is being made.

Lamar Walker, first assistant engineer of the Royal Palm, said the surface of the water about eight to ten miles offshore was clogged with dead fish, ranging from small minnows to large groupers. The officers expressed the belief that dynamite might have been used.

in PREFERRED STOCK of

THE OHIO POWER COMPANY

You would be $390.00 richer if you had invested only about $950.00 in this stock when we first offered it to local people in March, 1919. Your $950.00 would have grown to $1,340.00 by Sept. 1, 1925. And consider this: YOU WOULD NOT HAVE DONE A TAP OF WORK FOR THAT $390.00. Your savings—the $950.00 you invested—would have done the work and YOU would have collected the wages earned—the $390.00. Do you know of any EASIER way of making money than this? It isn't really so much a question of whether you can AFFORD to invest, but it is more a question of whether you can afford NOT to invest. Can you AFFORD TO LOSE the extra dollars your savings could earn for you if you had them safely invested?

CHAPPIE FINLEY TOPS CITY LEAGUE HITTERS

Diminutive K. T. K. Shortstop Clouts Horsehide for Mark of .402 in 39 Industrial Loop Battles; A. Bayley Finishes Second With .359; "Buck" Wilson and Briggle Show Power With Stick in Games They Played.

CHAPPIE FINLEY, diminutive, but sturdy shortstop of the K. T. K. team, who, for a number of seasons, has been taking down honors in industrial baseball circles, was the City Industrial league's premier hitter for 1925, with a mark of .402 in 39 contests. He had 41 safe swats in his 102 times at bat, and scored 25 runs, according to T. T. Jones, league statistician.

Because the game did not go the requisite number of innings to be regarded as a contest, Finley lost a perfect record with home run laurels to top it off, when, off M. Cebula at Columbian park, he landed two safe drives in two chances.

In addition to his general clubbing leadership, he topped his rivals in two-baggers by a wide margin, headed the triple column and was tied with five others in having two home runs.

Finley, apparently following the belief of Hans Wagner and Roger Peckinpaugh that shortstops are supposed to have more errors than any other player on the club, came through with the most miscues of the season.

His record shows him second in total hits made and assists, and fourth in run getting. All in all, the sometimes fiery and impetuous young infielder stands out as an impressive performer of the national pastime.

Whether Finley would have come through with the distinction that is now his had Raymond Buzzard, B. & W. star, who now belongs to the Cleveland Americans, played regularly, is problematical. For this brilliant Klondyke lad had a better percentage than Finley with .423 mark. But he played in only 11 games.

And the veteran "Buck" Wilson, Laughlin backstop, in nine games clubbed out a .438 figure during the dog days of the season. Briggle, of Laughlin, in six games of the first half, smote the ball at a .456 clip.

And seven others, playing in one or two games, hit .500 and 1.000. But, of course, they infringe in no wise upon the honor role of the ubiquitous Newell lad.

Second honors belong rightfully to A. Bayley, of Trotter, with a .359 mark in 39 games. Indeed, the auto gardener beat Finley in total number of hits, with 42, to the potter's 41.

A. Bayley came along strong during the second period. He faltered in the trying moments of the crucial race and failed to connect safely in three games, which fact, perhaps, cost his club first place and himself the personal triumph of leading his fellow players with the bludgeon. But his hefty stick did yeoman service, notwithstanding his temporary slump. His work at bat, in the field and on the paths was above par all season.

Tabulations for third place in the biffing column go to the brilliant Chester captain, L. McMath, who finished with .344 in 34 games. The second sacker was out of the lineup for several contests in the second half due to a bad foot. McMath swatted exactly .300 in 13 games of the first section and an even .400 in 16 contests of the second.

He was up 50 times in the initial period and smashed out 15 safe drives. In the second half he gathered in 16 bingles in 40 attempts.

Moran, of Laughlin, may have led all, had he played the entire season. He was in 19 games of the second time of play and laced out 21 hits in 55 times at bat for a mark of .382, which was quite a bit of stick work, too.

And Reese, the ant enable pitcher, of Laughlin, had no mean record, in 16 games of both halves he bingled out a mark of .394. He had 13 safe whacks in 33 chances. His work is another reason for Laughlin leading the league at bat.

Myers, of Laughlin, was right behind McMath, with .341, the result of 29 swats in 85 efforts out of 29 contests.

Simcox, K. T. K. infielder, was next to Myers with .336.

The leading hitters of each club were: Chester, L. McMath, .344; Laughlin, Myers, .341; K. T. K., Finley, .402; Trotter, A. Bayley, .359; B. & W., R. Manning, .342.

Perhaps the greatest splurge in batting during the second half was made by F. and C. Marshall of the Chester team. In the initial section the former hit at a .211 clip, but made it .280 in the second. The latter hit .259 in the first half and .317 in the second. And another who spurted in the last section was E. Bayley, of Trotter, who laced 'em out for .333 as against .217 in the first period.

Shaw, playing second and doing backstop work, went through the entire season with but three errors. These he made in two games. In the first half he had two miscues on June 23, and then he played accurately until August 27, when he erred once.

The best run getter in the circuit was E. Bayley, of Trotter, who scored 30 times, with Parsons, of the same club, second with 27, and McShane, of K. T. K., third with 26.

For putouts, the honors go to Merchant, of K. T. K., with 165, followed by Dustman, of K. T. K. and Wellsville, with 161, while McGeehan, of B. & W., was third with 152.

E. Bayley led in assists, with 83; Finley, K. T. K., led in errors, with 26, led in trinles with seven, topped the two bag hitters, with 12, and tied with Simcox, McGonigal, McGeehan, Heckathorne and M. Cebula with home runs, each having two.

A. Bayley was the premier base stealer of the circuit. He swiped 17 and McShane, of K. T. K., and E. Bayley, of Trotter, second with 14.

J. Strobel and Parsons of Trotters were first and second in the matter of free transportation to first, the former walking 25 times and the latter 18.

The annual all-star hitting club composed of players in 25 or more games would size up as follows:

Catchers—DeLong, Laughlin, .279 and W. McMath, Chester, .273.

Pitchers—Pollock, Trotter .301; Saylor, K. T. K. and McGeehan, B. & W., .280 and M. Cebula .278.

First base—Jackson, Chester .315; second base—L. McMath, Chester .344; third base—Myers, Laughlin .341; left field—R. Manning, Wellsville .324; middle field—A. Bayley, Trotter .354; right field—Fisher, Laughlin .327. Substitute infielders would include P. Cebula, Chester .308 and utility gardener, C. Marshall, Chester .309.

This far fielding club of the circuit would include: Catcher—Shaw, K. T. K. 977; W. McMath, Chester .968; pitchers—Riser, Laughlin 1.000; Stofcel, K. T. K. 1.000; Pucher, K. T. K. 1.000; M. Cebula, Chester .967.

First base—W. Mondy, Chester .988; or Heckathorne, Trotter .988; second base—Sayers, Laughlin .957; third base—Myers, Laughlin .899; left field—Pager, Wellsville 1.000; middle field—H. Strobel, Laughlin 1.000; right field—Young, K. T. K., 1.000.

MIDDIES SHOW REAL ATTACK

Fullback Shapley Develops Into Great Ground Gainer.

(This is the ninth of a series of articles by Davis J. Walsh on some of the leading football teams of the east and middle west. Others will follow.)

By Davis J. Walsh.

BALTIMORE, Md., Oct. 29.—"We think we have something," said Jack Owsley this morning as the Navy made ready to entrain for Ann Arbor for the intersectional game with Michigan on Saturday. "Yes, Sir. We think we have something."

Nothing original about this. From time to time, various people have thought they had something and some of them proved to be right. They had diphtheria. However, Mr. Owsley thinks he has a first class football team.

It has been Mr. Owsleys first chance to do much thinking of any kind and he is making the most of it. For years, he had been called the unseen force behind Yale football and his appointment to the Naval academy this season afforded him the opportunity to come into the open for the first time.

The result was of mutual beneficience. The Navy gave Owsley 750 men playing football and a lot of them were big, fast and altogether adequate. Owsley, in turn, has given the Navy an attack for the first time in years, using his adaptation of the Yale system with Folwell's Pennsylvania defense as a ground work.

Navy Has Answer.

In consequence, a lot of push-overs have been thoroughly pushed over during the early season and the single big game with Princeton ended in a tie. Not the most impressive record on the books, yet the Navy has an answer.

It says the team was "short" for the Princeton affair, yet should have won by two touchdowns on the run of the game.

"Just an off day," Owsley declared. "But that tie was the best thing that could have happened to us. It convinced the boys that everything is not bedded down with rose petals."

The Navy also says that it only wantedto win two games, anyhow. The other one is with Michigan.

Rated as the best team in the conference, the Wolverines have been more heavily scouted than the Army to date and the middles apparently think they have seen enough to convince them that they have at least an even chance in the west.

Owsley Shows Results.

Eastern football critics seem to agree with them. There is little doubt that prevalent opinion is to the effect that Owsley has taken over a competitive pomeranian and made it into a competitive wolfhound.

Players like Lentz, at guard, Shapley at fullback, Hamilton at quarterback, and Banks and Flippin at the halfbacks, have been around and about for some time without getting anywhere—until the present season. This has seen Shapley develop into one of the best running and kicking backfield men in this section with Flippin, a former Center college man of slight repute, also coming along to his best.

There is no outstanding line plunger in this quartet but the foundation of a staunch Navy running attack off tackle was laid at Annapolis some years ago by Bob Folwell. To this Owsley has added deception and, in consequence, Shapley and Flippin have come into their own.

Reserve Material Strong.

Lentz, an ex-Rutgers man, probably will never be any better than he is but his running mate, Edwards, has remarkable possibilities. He is surprisingly fast for a big man, giving Caulkins, Princeton quarterback, a running start and then catching him in the open field. Bernstein and Eddy, tackles, and Hardwick and Bernet, ends, have come on very rapidly in recent weeks and right now are said to be as good as the next and better than most.

Joerner at center is very steady and by some is said to be the keystone of the defense.

The strength of the line, however, seems to be found in the number and quality of its secondary men. Williamson and Kaufman being rated almost on a par with Hardwick at one end position, while Truslow and Kirk have been battling Bernstein for the old tackle post right merrily. Incidentally, Cross is making Lentz step out with his best in order to hold his place at gard.

All in all, it should be quite a spacious occasion at Ann Arbor on Saturday.

Wittenberg Squad is Weakened by Injuries

SPRINGFIELD, Oct. 28.—What with goblins and legendary witches frolicking Hallowe'en, Wittenberg's football team Saturday will engage Wesleyan at Delaware in the sixth conference game of the season for Coach E. R. Godfrey's Lutherans.

Sad the truth may be, but it is well known in the Cardinal headquarters: Whatever Godfrey's green team has profited by experience, the team has lost in injuries.

DEMPSEY DOES OWN TALKING

Speaks to Students in Mexico City Schools.

MEXICO CITY, Oct. 29.—Jack Dempsey appeared in the new role of self-spokesman and self-manager today, then went into retirement in an ancient hacinda where he may be free from the attention of crowds and can do intensive training for his exhibition bouts here. Three sparring partners will absorb the energy he put into his training.

Before his retirement, the American heavyweight went before the American and British schools and addressed the pupils on sports. His change since he undertook his own management was a matter of comment to his friends here.

The fighter appeared to quite good advantage as a talker in his extemporaneous speeches before the school children.

"There's no reason why a fighter with ability to reach the top should have somebody to do his talking and thinking for him,' he explained afterward. "I am manager of the Dempsey firm now and I find that I get along better that way.'

SMITHS TRIM E. M. KNOWLES

News Duckpin Squad Cops Two Out of Three Games.

Leading their rivals in total pins and games, the Smith News quint of the Industrial Duckpin league last night copped their opening performance at the Liberty alleys, defeating the E. M. Knowles squad, which, however, was weakened to some extent by the absence of regulars.

The News bowlers went over the 600 mark in the first two games, copping by easy margins, but slackened up in the windup tilt and the E. M. Knowles quintet spurted to win this one by an edge of 118 pins.

Smith, of Knowles, barely got over the 100 mark in the opening frame, but wound up strong with a score of 166, which was good for high.

Gilchrist led the Smith News attack, banging the pins for a total count of 405 in the three games. He finished three pins ahead of Smith for high average.

Pollock mowed them down desperately in an effort to nudge the 400 mark, but fell short four pins. The star pitcher of the Trotter Industrial baseball club mixed up his offerings, using, instead of the fast one he sizzles across in the summer time, a tantalizing curve that kept the hardwood bouncing.

The effect of Herbert's whistle from the foul line was very disconcerting to Scoops Cunningham, especially in the final frame. Scoops, after rolling 172 and 123, fell away to a meagre 61, and as a result his total dropped below the desirable 300 ranking.

Thorpe Fired, Wed.

NEW YORK, Oct. 29.—Coupled with the announcement that Jim Thorpe had been released by the New York Professional Football club because of failure to get into condition was coupled with the disclosure that the famous Indian athlete had wed for the second time. His bride is Miss Freda Kirkoatrick, of Endicott, W. Va.

MAJORS MUST WAIVE ON PITTSBURGH PLAYERS

EAST LIVERPOOL baseball fans are more or less interested in the deal between the Pittsburgh National league club and the San Francisco Pacific Coast team in which Waner and Rhyne, coast sluggers, are to go to the Smoky City as a part of the obvious plan of the world's champions to strengthen the outfit for the 1926 campaign.

It was at first reported that the Pirates were to part with Second Baseman Eddie Moore, Pitcher Culloton, Outfielder Carson Bigbee and a cash payment in return for the coast players.

However, before either Moore or Bigbee can go to the minor league organization, they must first be waived on by the 15 other major league clubs. This has not been done, and according to Owner Barney Dreyfuss of the Pittsburgh club, no immediate steps have been taken toward this end.

According to Dreyfuss, there is an $83,000 agreement with the San Francisco club, and under terms of the agreement there will be no payment of any kind until Dec. 15, 1926, when the Pittsburgh club can ask for waivers on players or pay over the cash.

No major league club can interfere with the release of a 10-year player, but none of the Pittsburgh trio can be classifield as such.

Inasmuch as the transaction will not be completed until December of next year, Manager Bill McKechnie will have ample time to pass on the major league ability of both Waner and Rhyne.

BROTHERS on the same college football eleven are not uncommon. This year Harvard has its Bradford twins. Bucknell has its Earl and Myrl Goodwin.

But Iowa State probably has the most distinguished pair—from the standpoint of value to the team. They are the Behm boys of Cleveland, O. John Behm captains the team and stars at quarter. His brother, Norton, plays lefthalf.

Johnnie is rated as one of the greatest broken field runners in the Missouri valley conference, if not in the west in general. His brother, Norton, drew almost nation-wide attention last year by tearing off an 80-yard run against the powerful Minnesota eleven.

NORTON BEHM SAM WILLAMAN CAPT. JOHNNIE BEHM

By an odd coincidence these two lads were the mainstays of a Cleveland coached team. Sam Willaman tutor of the Iowa Staters, was coach at East Tech high school, Cleveland, before joining the Iowa institution. It was at East Tech that the Behm boys learned their football under Willaman's diligent tutoring.

"Spike" Nave, another member of the team, is also a Cleveland product.

And Willaman, by the way, to go back still further in his football history, is a Columbiana county product, with Salem claiming the honors. A connection may be seen in the report that "Slippery" Seeds, one-time Salem high school halfback and erstwhile backfield star for the Toronto Tigers, was to show Willman his gridiron ability.

Pitchers—Pollock, Trotter .391; Salnor, K. T. K. and McGeehan, B. & W., .280 and M. Cebula .278.

First base—Jackson, Chester .315; second base—L. McMath, Chester .344; third base—Myers, Laughlin .341; left field—R. Manning, Wellsville .324; middle field—A. Bayley, Trotter .354; right field—Tisher, Laughlin .327. Substitute infielders would include P. Cebula, Chester .308, and utility gardener, C. Marshall, Chester .309.

This far fielding club of the circuit would include: Catcher—Shaw, K. T. K. .977; W. McMath, Chester .968; pitchers—Riser, Laughlin 1.000; Stofel, K. T. K. 1.000; Bucher, K. T. K. 1.000; M. Cebula, Chester .967.

First base—W. Mundy, Chester .988; or Heckathorne, Trotter .988; second base—Sayers, Laughlin .957; third base—Myers, Laughlin .899; left field—Dager, Wellsville 1.000; middle field—H. Strobel, Laughlin 1.000; right field—Young, K. T. K., 1.000.

Chance Left $130,000.

LOS ANGELES, Cal., Oct. 29.—The estate of Frank Chance, baseball player and manager, who died here Sept. 15, has been appraised at $130,000 and government and state inheritance taxes to $1,436 collected.

Portland Buys Coach.

PORTLAND, Ore., Oct. 29.—The Portland club of the Pacific Coast League has purchased Johnny Couch, right hand pitcher, from the Philadelphia Nationals. Couch formerly was with the San Francisco club.

MIDDIES SHOW REAL ATTACK

Fullback Shapley Develops Into Great Ground Gainer.

(This is the ninth of a series of articles by Davis J. Walsh on some of the leading football teams of the east and middle west. Others will follow.)

By Davis J. Walsh.

BALTIMORE, Md., Oct. 29.—"We think we have something," said Jack Owsley this morning as the Navy made ready to entrain for Ann Arbor for the intersectional game with Michigan on Saturday. "Yes, Sir. We think we have something."

Nothing original about this. From time to time, various people have thought they had something and some of them proved to be right. They had diphtheria. However, Mr. Owsley thinks he has a first class football team.

It has been Mr. Owsleys first chance to do much thinking of any kind and he is making the most of it. For years, he had been called the unseen force behind Yale football and his appointment to the Naval academy this season afforded him the opportunity to come into the open for the first time.

The result was of mutual beneficience. The Navy gave Owsley 750 men playing football and a lot of them were big, fast and altogether adequate. Owsley, in turn, has given the Navy an attack for the first time in years, using his adaptation of the Yale system with Folwell's Pennsylvania defense as a ground work.

Navy Has Answer.

In consequence, a lot of push-overs have been thoroughly pushed over during the early season and the single big game with Princeton ended in a tie. Not the most impressive record on the books, yet the Navy has an answer.

It says the team was "short" for the Princeton affair, yet should have won by two touchdowns on the run of the game.

"Just an off day," Owsley declared. "But that tie was the best thing that could have happened to us. It convinced the boys that everything is not bedded down with rose petals."

The Navy also says that it only wantedto win two games, anyhow. The other one is with Michigan.

Rated as the best team in the conference, the Wolverines have been more heavily scouted than the Army to date and the middies apparently think they have seen enough to convince them that they have at least an even chance in the west.

Owsley Shows Results.

Eastern football critics seem to agree with them. There is little doubt that prevalent opinion is to the effect that Owsley has taken over a competitive pomeranian and made it into a competitive wolfhound.

Players like Lentz, at guard, Shapley at fullback, Hamilton at quarterback, and Banks and Flippin at the halfbacks, have been around and about for some time without getting anywhere—until the present season. This has seen Shapley develop into one of the best running and kicking backfield men in this section with Flippin, a former Center college man of slight repute, also coming along to his best.

There is no outstanding line plunger in this quartet but the foundation of a staunch Navy running attack off tackle was laid at Annapolis some years ago by Bob Folwell. To this Owsley has added deception and, in consequence, Shapley and Flippin have come into their own.

Reserve Material Strong.

Lentz, an ex-Rutgers man, probably will never be any better than he is but his running mate, Edwards, has remarkable possibilities. He is surprisingly fast for a big man, giving Caulkins, Princeton quarterback, a running start and then catching him in the open field. Bernstein and Eddy, tackles, and Hardwick and Bernet, ends, have come on very rapidly in recent weeks and right now are said to be as good as the next and better than most.

Joerner at center is very steady and by some is said to be the keystone of the defense.

The strength of the line, however, seems to be found in the number and quality of its secondary men. Williamson and Kaufman being rated almost on a par with Hardwick at one end position, while Truslow and Kirk have been battling Bernstein for the old tackle post right merrily. Incidentally, Cross is making Lentz step out with his best in order to hold his place at gard.

All in all, it should be quite a spacious occasion at Ann Arbor on Saturday.

Wittenberg Squad is Weakened by Injuries

SPRINGFIELD, Oct. 28.—What with goblins and legendary witches frolicking Hallowe'en, Wittenberg's football team Saturday will engage Wesleyan at Delaware in the sixth conference game of the season for Coach E. R. Godfrey's Lutherans.

Sad the truth may be, but it is well known in the Cardinal headquarters: Whatever Godfrey's green team has profited by experience, the team has lost in injuries.

DEMPSEY DOES OWN TALKING

Speaks to Students in Mexico City Schools.

MEXICO CITY, Oct. 29.—Jack Dempsey appeared in the new role of self-spokesman and self-manager today, then went into retirement in an ancient hacinda where he may be free from the attention of crowds and can do intensive training for his exhibition bouts here. Three sparring partners will absorb the energy he put into his training.

Before his retirement, the American heavyweight went before the American and British schools and addressed the pupils on sports. His change since he undertook his own management was a matter of comment to his friends here.

The fighter appeared to quite good advantage as a talker in his extemporaneous speeches before the school children.

"There's no reason why a fighter with ability to reach the top should have somebody to do his talking and thinking for him,' he explained afterward. "I am manager of the Dempsey firm now and I find that I get along better that way.'

SMITHS TRIM E. M. KNOWLES

News Duckpin Squad Cops Two Out of Three Games.

Leading their rivals in total pins and games, the Smith News quint of the Industrial Duckpin league last night copped their opening performance at the Liberty alleys, defeating the E. M. Knowles squad, which, however, was weakened to some extent by the absence of regulars.

The News bowlers went over the 600 mark in the first two games, copping by easy margins, but slackened up in the windup tilt and the E. M. Knowles quintet spurted to win this one by an edge of 118 pins.

Smith, of Knowles, barely got over the 100 mark in the opening frame, but wound up strong with a score of 166, which was good for high.

Gilchrist led the Smith News attack, banging the pins for a total count of 405 in the three games. He finished three pins ahead of Smith for high average.

Pollock mowed them down desperately in an effort to nudge the 400 mark, but fell short four pins. The star pitcher of the Trotter Industrial baseball club mixed up his offerings, using, instead of the fast one he sizzles across in the summer time, a tantalizing curve that kept the hardwood bouncing.

The effect of Herbert's whistle from the foul line was very disconcerting to Scoops Cunningham, especially in the final frame. Scoops, after rolling 1?2 and 12? all away to a meagre 61, and as a result his total dropped below the desirable 300 ranking.

Thorpe Fired, Wed.

NEW YORK, Oct. 29.—Coupled with the announcement that Jim Thorpe had been released by the New York Professional Football club because of failure to get into condition was coupled with the disclosure that the famous Indian athlete had wed for the second time. His bride is Miss Freda Kirkoatrick, of Endicott, W. Va.

MAJORS MUST WAIVE ON PITTSBURGH PLAYERS

EAST LIVERPOOL baseball fans are more or less interested in the deal between the Pittsburgh National league club and the San Francisco Pacific Coast team in which Waner and Rhyne, coast sluggers, are to go to the Smoky City as a part of the obvious plan of the world's champions to strengthen the outfit for the 1926 campaign.

It was at first reported that the Pirates were to part with Second Baseman Eddie Moore, Pitcher Culloton, Outfielder Carson Bigbee and a cash payment in return for the coast players.

However, before either Moore or Bigbee can go to the minor league organization, they must first be waived on by the 15 other major league clubs. This has not been done, and according to Owner Barney Dreyfuss of the Pittsburgh club, no immediate steps have been taken toward this end.

According to Dreyfuss, there is an $83,000 agreement with the San Francisco club, and under terms of the agreement there will be no payment of any kind until Dec. 15, 1926, when the Pittsburgh club can ask for waivers on players or pay over the cash.

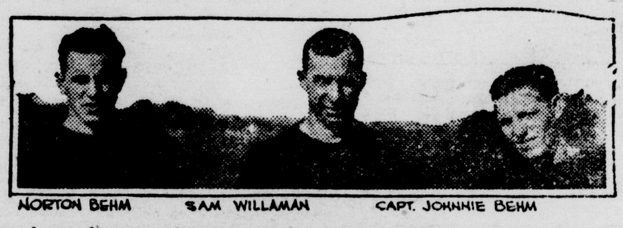
No major league club can interfere with the release of a 10-year player, but none of the Pittsburgh trio can be classifield as such.

Inasmuch as the transaction will not be completed until December of next year, Manager Bill McKechnie will have ample time to pass on the major league ability of both Waner and Rhyne.

BROTHERS on the same college football eleven are not uncommon. This year Harvard has its Bradford twins. Bucknell has its Earl and Myrl Goodwin.

But Iowa State probably has the most distinguished pair—from the standpoint of value to the team. They are the Behm boys of Cleveland, O. John Behm captains the team and stars at quarter. His brother, Norton, plays lefthalf.

Johnnie is rated as one of the greatest broken field runners in the Missouri valley conference, if not in the west in general. His brother, Norton, drew almost nation-wide attention last year by tearing off an 80-yard run against the powerful Minnesota eleven.



NORTON BEHM SAM WILLAMAN CAPT. JOHNNIE BEHM

By an odd coincidence these two lads were the mainstays of a Cleveland coached team. Sam Willaman tutor of the Iowa Staters, was coach at East Tech high school, Cleveland, before joining the Iowa institution. It was at East Tech that the Behm boys learned their football under Willaman's diligent tutoring.

"Spike" Nave, another member of the team, is also a Cleveland product.

And Willaman, by the way, to go back still further in his football history, is a Columbiana county product, with Salem claiming the honors. A connection may be seen in the report that "Slippery" Seeds, one-time Salem high school halfback and erstwhile backfield star for the Toronto Tigers, was to show Willman his gridiron ability.

PANTHERS WILL QUIT BASEBALL

PITTSBURGH, Pa., Oct. 28. — The University of Pittsburgh has decided to abolish baseball as a varsity sport, formal action just having been taken by the university athletic council. The reason for abolishing baseball was that is was found impossible to arrange a schedule. When the Pitt stadium was constructed it was decided to try to boost baseball, playing the games in the stadium, which provided an excellent field. As there were few teams in the western Pennsylvania district which supported baseball, communications were sent to every school within a radius of 400 or 500 miles, asking them to take trips into the Pittsburgh district. It was impossible to get any of these teams on the schedule; the month of May being a poor time for college teams to go on the road. A schedule was finally arranged consisting of about 14 games, four with West Virginia, four with Carnegie Tech and two with Penn State as the nucleus. The bottom dropped out of the entire baseball situation when Carnegie Tech announced its intention of giving up baseball. This took four games away from the very meagre schedule, and when the facts were presented to the athletic council, it was decided it was foolhardy to try and continue the sport.

With baseball abolished, special attention will be given to the development of lacrosse and track during the spring. The Pitt stadium provides a wonderful quarter-mile track and 220 straightaway and with Frank J. Shea of 47 3-5 second quarter mile fame as coach, the Panthers will eventually be a national figure in that very important branch of intercollegiate athletics. Shea had 150 men out for the track team last year, even with the poor facilities furnished. It is expected to have the crowd increased to 400 or 500 for this spring.

PANTHERS WILL QUIT BASEBALL

PITTSBURGH, Pa., Oct. 28. — The University of Pittsburgh has decided to abolish baseball as a varsity sport, formal action just having been taken by the university athletic council. The reason for abolishing baseball was that is was found impossible to arrange a schedule. When the Pitt stadium was constructed it was decided to try to boost baseball, playing the games in the stadium, which provided an excellent field. As there were few teams in the western Pennsylvania district which supported baseball, communications were sent to every school within a radius of 400 or 500 miles, asking them to take trips into the Pittsburgh district. It was impossible to get any of these teams on the schedule; the month of May being a poor time for college teams to go on the road. A schedule was finally arranged consisting of about 14 games, four with West Virginia, four with Carnegie Tech and two with Penn State as the nucleus. The bottom dropped out of the entire baseball situation when Carnegie Tech announced its intention of giving up baseball. This took four games away from the very meagre schedule, and when the facts were presented to the athletic council, it was decided it was foolhardy to try and continue the sport.

With baseball abolished, special attention will be given to the development of lacrosse and track during the spring. The Pitt stadium provides a wonderful quarter-mile track and 220 straightaway and with Frank J. Shea of 47 3-5 second quarter mile fame as coach, the Panthers will eventually be a national figure in that very important branch of intercollegiate athletics. Shea had 150 men out for the track team last year, even with the poor facilities furnished. It is expected to have the crowd increased to 400 or 500 for this spring.

Welter Champ Wins.

COLUMBUS, Oct. 29.—Jack Reynolds, world's welterweight wrestling champion, defeated Bobby Roscoe in a two-fall match here Wednesday night. Reynolds won the first fall in 22 minutes with the crab hold and the other in 21 minutes using a reverse headlock.

George Walker, Canadian heavyweight, outwrestled George Echtor, 215 pound European wrestler who failed to carry out his promise to throw Walker and Eugene Poquette in 30 minutes.

Yale Tackle Injured.

NEW HAVEN, Conn., Oct. 29.—Ben Butterworth, Yale right tackle, was injured in yesterday's scrimmage and probably will be unable to play Saturday in the Army game.

Daring Woman Spans Darkest Africa Alone

Mrs. Delia J. Akeley, of Brooklyn Museum of Arts and Sciences, is first white woman to cross darkest Africa alone. With only credentials and travel papers she entered the jungle at Kasinyi, on Lake Albert, arriving at Matadi, on Congo river, with three of her 12 cartridges left and five specimens of jungle animals unknown to science.

Battery Important In Hearing Range Of Radio Receiving

According to an executive of one of the companies most extensively interested in the new art of giving entertainment, instruction and news by means of the wireless telephone, one of the commonest of questions is: "Over how great a distance can this music be heard?"

"We all admit," said this experienced radio man, "that there is much we do not know about radio telephony, and the distance our concerts travel without becoming inaudible, is one of them."

Because of the great importance of the battery in this field, there have been special types of batteries built, which are different from the ordinary automobile storage battery as the automobile battery is different from one used to supply current for the lighting of Pullman cars. One of these special Radio batteries known as the All-Rubber Battery is the product of the Willard Storage Battery company and is sold by the Tri-State Battery company. This battery is entirely contained in a one-pieced rubber case, which effectively prevents the leakage of current and therefore stops all ground noises, of the well-known Threaded Rubber The insulators between the plates are type, which permit each part of every plate to do an equal portion of the work of supplying current and thereby prevent what is known as "spotting" or the wearing out of one portion while the rest of the plate is in good condition. Because of these improvements and the consequent addition to quiet operation, the hearing range of a radio receiving set is considerably increased.

The dress styles used to come out of New York, but now they seem to originate in the "Show Me" state.—Canton News.
